Film expert Barry Keith Grant considers what each type of movie monster reveals about what it means to be human and how we regard the world Armed with an encyclopedic knowledge of film history Grant presents us with an eclectic array of monster movies from Nosferatu to Get Out As he discovers although monster movies might claim to be about Them they are really about the capacity for horror that lurks within each of us Liquid Metal Sean Redmond,2005-01-19 Liquid Metal brings together seminal essays that have opened up the study of science fiction to serious critical interrogation Eight distinct sections cover such topics as the cyborg in science fiction the science fiction city time travel and the primal scene science fiction fandom and the 1950s invasion narratives Important writings by Susan Sontag Vivian Sobchack Steve Neale J P Telotte Peter Biskind and Constance Penley are included **The Screen Is Red** Bernard F. Dick,2016-03-14 The Screen Is Red portrays Hollywood's ambivalence toward the former Soviet Union before during and after the Cold War In the 1930s communism combated its alter ego fascism yet both threatened to undermine the capitalist system the movie industry's foundational core value Hollywood portrayed fascism as the greater threat and communism as an aberration embraced by young idealists unaware of its dark side In Ninotchka all a female commissar needs is a trip to Paris to convert her to capitalism and the luxuries it can offer The scenario changed when Nazi Germany invaded the Soviet Union in 1941 making Russia a short lived ally The Soviets were quickly glorified in such films as Song of Russia The North Star Mission to Moscow Days of Glory and Counter Attack But once the Iron Curtain fell on Eastern Europe the scenario changed again America was now swarming with Soviet agents attempting to steal some crucial piece of microfilm On screen the atomic detonations in the Southwest produced mutations in ants locusts and spiders and revived long dead monsters from their watery tombs The movies did not blame the atom bomb specifically but showed what horrors might result in addition to the iconic mushroom cloud Through the lens of Hollywood a nuclear war might leave a handful of survivors Five none On the Beach Dr Strangelove or cities in ruins Fail Safe Today the threat is no longer the Soviet Union but international terrorism Author Bernard F Dick argues however that the Soviet Union has not lost its appeal as evident from the popular and critically acclaimed television series The Americans More than eighty years later the screen is still red **Monsters in the Movies** John Landis,2011-09-19 From cinema's earliest days being scared out of your wits has always been one of the best reasons for going to the movies From B movie bogeymen and outer space oddities to big budget terrors Monsters in the Movies by horror film maestro John Landis celebrates the greatest monsters ever to creep fly slither stalk or rampage across the Silver Screen Landis also surveys the historical origins of archetypal monsters such as vampires zombies and werewolves and takes you behind the scenes to discover the secrets of the special effects wizards who created such legendary frighteners as King Kong Dracula the Alien and Freddy Krueger Monsters in the Movies by John Landis is filled with the author's own fascinating and entertaining insights into the world of movie making and includes memorable contributions from leading directors actors and monster makers The book is also stunningly illustrated with 1000 movie stills and posters drawn from the unrivaled
