The Galactic Web Adair Hart,2025-08-30 Surprises can come in many forms Evaran and the gang receive a summons to NGC 3312 the largest spiral galaxy in the Hydra Supercluster which is 194 million light years away from Earth The summons is also from 1 544 322 AD They encounter a rift endpoint that is one of many in a stable galactic rift network Accompanying them is Sandas a former traveling companion of the first Evaran and the gang The Gazjarik Coalition or GC controls the surrounding system and the rift endpoint the gang traveled to An issue occurs when the gang visits Holoc a large city on the portal s crust They begin an investigation with Holoc s city council on the condition they take Partanas Etta Grotto as an investigative liaison The problem is no one has figured out how to fix the situation the gang encountered To make matters worse there is something off with the GC s relationship with the Jannahox an alien species that can create any form and

mines the crust The gang will need to dig deep across space and time to discover what s going on If they fail catastrophic consequences await

Spatial Visualization and Professional Competence Andrew Paquette,2018-08-30 The computer graphics CG industry is an attractive field for undergraduate students but employers often find that graduates of CG art programmes are not proficient The result is that many positions are left vacant despite large numbers of job applicants This book investigates how student CG artists develop proficiency The subject is important to the rapidly growing number of educators in this sector employers of graduates and students who intend to develop proficiency for the purpose of obtaining employment Educators will see why teaching software oriented knowledge to students does not lead to proficiency but that the development of problem solving and visualisation skills do This book follows a narrow focus as students develop proficiency in a cognitively challenging task known as NURBS modelling This task was chosen due to an observed relationship between students who succeeded in the task and students who successfully obtained employment after graduation In the study this is based on readers will be shown that knowledge based explanations for the development of proficiency do not adequately account for proficiency or expertise in this field where visualisation has been observed to develop suddenly rather than over an extended period of time This is an unusual but not unique observation Other studies have shown rapid development of proficiency and expertise in certain professions such as among telegraph operators composers and chess players Based on these observations the book argues that threshold concepts play a key role in the development of expertise among CG artists

Articulating the Action Figure Jonathan Alexandratos,2017-03-31 Action figures are more than toys or collectibles they are statements on race gender class body positivity and more This collection of nine new essays and one interview argues that action figures should be analyzed in the same light as books movies television shows and other media Through an examination of the plastic bodies that fill our shelves and toy boxes Action Figure Studies can inform the next generation of toys
