**Creole Economics** Katherine E. Browne, 2010-01-01 What do the trickster Rabbit slave descendants off the books economies and French citizens have to do with each other Plenty says Katherine Browne in her anthropological investigation of the informal economy in the Caribbean island of Martinique She begins with a question Why after more than three hundred years as colonial subjects of France did the residents of Martinique opt in 1946 to integrate fully with France the very nation that had enslaved their ancestors The author suggests that the choice to decline sovereignty reflects the same

clear headed opportunism that defines successful crafty and illicit entrepreneurs who work off the books in Martinique today Browne draws on a decade of ethnographic fieldwork and interview data from all socioeconomic sectors to question the common understanding of informal economies as culture free survival strategies of the poor Anchoring her own insights to longer historical and literary views the author shows how adaptations of cunning have been reinforced since the days of plantation slavery These adaptations occur not in spite of French economic and political control but rather because of it Powered by the essential tensions of maintaining French and Creole identities the practice of creole economics provides both assertion of and refuge from the difficulties of being dark skinned and French This powerful ethnographic study shows how local economic meanings and plural identities help explain work off the books Like creole language and music creole economics expresses an irreducibly complex blend of historical contemporary and cultural influences *Deviant and Useful Citizens* Mariselle Melendez, 2011 Constructing and controlling women in colonial South America **Journal of Northwest Anthropology** Roderick Sprague, Balanophagy in the Pacific Northwest The Acorn Leaching Pits at the Sunken Village Wetsite and Comparative Ethnographic Acorn Use Bethany Mathews A Window on the Past Pane Glass at the Beatty Cave Archaeological Site South Central Oregon Thomas J Connolly Mark E Swisher Christopher L Ruiz and Elizabeth A Kallenback Backing into Disaster Lessons in Cultural Resource Management from the Graving Dock at Port Angeles Washington Thomas F King Tylor's Forgotten Legacy Elwyn C Lapoint Synopsis Synthesis Skimping and Scholarship A Case Example from Chehalis in the Other Washington Jay Miller A Jesuit View of Indian Affairs in Nineteenth Century Western North America A Translated Letter from Fr Etienne de Rouge Deward E Walker Jr Abstracts of the 62nd Annual Meeting of the Northwest Anthropological Conference Newport Oregon 9 11 April 2009 **The Fairy Tale World** Andrew Teverson, 2019-03-26 The Fairy Tale World is a definitive volume on this ever evolving field The book draws on recent critical attention contesting romantic ideas about timeless tales of good and evil and arguing that fairy tales are culturally astute narratives that reflect the historical and material circumstances of the societies in which they are produced The Fairy Tale World takes a uniquely global perspective and broadens the international cultural and critical scope of fairy tale studies Throughout the five parts the volume challenges the previously Eurocentric focus of fairy tale studies with contributors looking at the contrast between traditional canonical fairy tales and more modern reinterpretations responses to the fairy tale around the world including works from every continent applications of the fairy tale in diverse media from oral tradition to the commercialized films of Hollywood and Bollywood debates concerning the global and local ownership of fairy tales and the impact the digital age and an exponentially globalized world have on traditional narratives the fairy tale as told through art dance theatre fan fiction and film This volume brings together a selection of the most respected voices in the field offering ground breaking analysis of the fairy tale in relation to ethnicity colonialism feminism disability sexuality the environment and class An indispensable resource for students and scholars alike The Fairy Tale World seeks to discover how such a traditional area of literature has

pollination of Indian concepts of otherness with the West

**Natural Enemies** John Knight, 2013-01-11 Wild animals raid crops attack livestock and sometimes threaten people Conflicts with wildlife are widespread assume a variety of forms and elicit a range of human responses Wildlife pests are frequently demonized and resisted by local communities while routinely controlled by state authorities However to the great concern of conservationists the history of many people wildlife conflicts lies in human encroachment into wildlife territory In *Natural Enemies* the authors place the analytical focus on the human dimension of these conflicts an area often neglected by specialists in applied ecology and wildlife management and on their social and political contexts Case studies of specific conflicts are drawn from Africa Asia Europe and America and feature an assortment of wild animals including chimpanzees elephants wild pigs foxes bears wolves pigeons and ducks These anthropologists challenge the narrow utilitarian view of wildlife pestilence by revealing the cultural character of many of our natural enemies Their reports from the front line expose one fact human conflict with wildlife is often an expression of conflict between people

*The Anthropology of Love and Anger*

Joanna Overing, Alan Passes, 2002-01-04 *The Anthropology of Love and Anger* questions the very foundations of western sociological thought. In their examination of indigenous peoples from across the South American continent, the contributors to this volume have come to realise that western thought does not possess the vocabulary to define even the fundamentals of indigenous thought and practice. The dualisms of public and private, political and domestic, individual and collective, even male and female, in which western anthropology was founded, cannot legitimately be applied to peoples whose sociality is based on an aesthetics of community. For indigenous people, success is measured by the extent to which conviviality, all that is peaceful, harmonious and sociable, has been attained. Yet conviviality is not just reliant on love and good but instead on an even balance between all that is constructive love and all that is destructive anger. With case studies from across the South American region, ranging from the so-called fierce Yanomami of Venezuela and Brazil to the Enxet of Paraguay, and with discussions on topics from the efficacy of laughter to the role of language, anger as a marker of love and even homesickness, *The Anthropology of Love and Anger* is a seminal, fascinating work which should be read by all students and academics in the post-colonial world.

Postethnic Narrative Criticism Frederick Luis Aldama, 2009-09-15. Magical realism has become almost synonymous with Latin American fiction, but this way of representing the layered and often contradictory reality of the topsy-turvy late capitalist globalizing world finds equally vivid expression in U.S. multiethnic and British postcolonial literature and film. Writers and filmmakers such as Oscar Zeta Acosta, Ana Castillo, Julie Dash, Hanif Kureishi, and Salman Rushdie have made brilliant use of magical realism to articulate the trauma of dislocation and the legacies of colonialism that people of color experience in the postcolonial multiethnic world. This book seeks to redeem and refine the theory of magical realism in U.S. multiethnic and British postcolonial literature and film. Frederick Aldama engages in theoretically sophisticated readings of Ana Castillo's *So Far from God*, Oscar Zeta Acosta's *Autobiography of a Brown Buffalo*, Salman Rushdie's *Midnight's Children*, *Shame*, *The Satanic Verses*, and *The Moor's Last Sigh*, Julie Dash's *Daughters of the Dust*, and Stephen Frears' and Hanif Kureishi's *Sammy and Rosie Get Laid*. Coining the term *magicorealism* to characterize these works, Aldama not only creates a postethnic critical methodology for enlarging the contact zone between the genres of novel, film, and autobiography but also shatters the interpretive lens that traditionally confuses the transcription of the real world, where truth and falsity apply with narrative modes governed by other criteria.

**Foreign Language Teaching and the Environment** Charlotte Ann Melin, 2019-10-01. Includes syllabi suggestions and keywords.

**Derek Walcott and the Creation of a Classical Caribbean** Justine McConnell, 2023-05-18. Throughout his career, Derek Walcott turned to the literature and cultures of ancient Greece and Rome. His book-length poem recasting the epics of Homer, Virgil, and Dante in St. Lucia is best known in this regard, yet

Omeros is only the pinnacle of a lengthy and lively dialogue that Walcott developed between the ancient Mediterranean and the modern Caribbean. Derek Walcott and the Creation of a Classical Caribbean explores how in developing that discourse between ancient and modern between Europe and the Caribbean, Walcott refuted the suggestion that to engage with literature from elsewhere was to lack originality. Instead, he asserted a place for Caribbean art in a global transhistorical canon. Drawing on Walcott's own theoretical concerns, this book explores his engagement with Graeco-Roman antiquity from three key perspectives. Firstly, that a perception of time as linear must be coupled with an understanding of it as simultaneous, thereby doing away with the oppressive power of history and confirming the New World on a par with the Old. Secondly, that syncretism lies at the heart of Caribbean life and art, with influences from Africa, Asia, and Europe constituting key parts of Caribbean identity alongside its indigenous cultures. Thirdly, that Caribbean literature creates the world anew without erasing the past. With these three postcolonial conceptions at the heart of his engagement with ancient Greece and Rome, Walcott revealed the reasons why classical reception has been a rich facet of Caribbean artistry.
