On the Road Again William Wyckoff, 2011-10-17 In *On the Road Again* William Wyckoff explores Montana's changing physical and cultural landscape by pairing photographs taken by state highway engineers in the 1920s and 1930s with photographs taken at the same sites today. The older photographs preserved in the archives of the Montana Historical Society were intended to document the expenditure of federal highway funds. Because it is nearly impossible to photograph a road without also photographing the landscape through which that road passes, these images contain a wealth of information about the state's environment during the early decades of the twentieth century. To highlight landscape changes and continuities over more than eighty years, Wyckoff chose fifty-eight documented locations and traveled to each to photograph the exact same view. The pairs of old and new photos and accompanying interpretive essays presented here tell a vivid story of physical, cultural, and economic change. Wyckoff has grouped his selections to cover a fairly even mix of views from the eastern and western parts of the state, including a wide assortment of land use settings and rural and urban landscapes. The photo pairs are organized in thirteen visual themes, such as forested areas, open spaces, and sacred spaces, which parallel landscape change across the entire American West. A close, thoughtful look at these photographs reveals how crops, fences, trees, and houses shape the everyday landscape both in the first quarter of the twentieth century and in the present. The photographs offer an intimate view into Montana, showing how Montana has changed in the past eighty years and how it may continue to change in the twenty-first century. This is a book that will captivate readers who have or hope to have a tie to the Montana countryside, whether as resident or visitor. Regional and agricultural historians, geographers, and geologists, and rural and urban planners will all find it fascinating.

Virginia City Thompson-Hickman County Library, 2011-04-18 Tucked between the Tobacco Root Mountains and Mount Baldy in southwestern Montana, Virginia City began in May 1863 when gold was discovered in Alder Gulch. Some 10,000 fortune seekers arrived, and the days of whiskey, revolvers, road agents, and vigilantes began. Boot Hill, overlooking the town, is a constant reminder of its rough, tough, and unruly past. A great number of mining towns have become ghost towns, but not Virginia City, thanks to the men and women who gave of themselves to establish a permanent town where families, schools, churches, businesses, and organizations would thrive.

Taming Big Sky Country Jon Axline, 2015-03-30 Drives this breathtaking did not come easy. Cruising down Montana's scenic highways, it's easy to forget that traveling from here to there once was a genuine adventure. The state's major routes evolved from ancient Native American trails into four-lane expressways in a little over a century. That story is one of difficult, groundbreaking, and sometimes poor engineering decisions, as well as a desire to make a journey faster, safer, and more comfortable. It all started in 1860 when John Mullan hacked a wagon road over the formidable Rocky Mountains to Fort Benton. It continued until the last section of interstate highway opened to traffic in 1988. Montana Department of Transportation historian Jon Axline charts a road trip through the colorful and inspiring history of trails, roads, and superhighways in Big Sky Country.
