Monte Cassino In The Middle Ages Parts 1 11:

Monte Cassino in the Middle Ages Herbert Bloch, 1986 The monastery of Monte Cassino founded by St Benedict in the sixth century was the cradle of Western monasticism It became one of the vital centers of culture and learning in Europe At the height of its influence in the eleventh and early twelfth centuries two of its abbots including Desiderius and one of its monks became popes and it controlled a vast network of dependencies churches monasteries villages and farms especially in central and southern Italy Herbert Bloch's study the product of forty years of research takes as its starting point the twelfth century bronze doors of the basilica of the abbey the most significant relic of the medieval structure The panels of these doors are inscribed with a list of more than 180 of the abbey's possessions Mr Bloch has supplemented this roster with lists found in papal and imperial privileges and other documents The heart of the book is a detailed investigation of the nearly 700 dependencies of Monte Cassino from the sixth to the twelfth century and beyond No comparable study of this or any other great medieval institution has ever before been undertaken Ironically it was the bombing of 1944 which destroyed the monastery that led to an unexpected revelation the discovery on the reverse side of some panels of the doors of magnificent engraved figures of patriarchs and apostles These proved to be remnants of the church portal ordered from Constantinople by Desiderius in the eleventh century which marked the beginning of the grandiose reconstruction of the abbey and its church the latter to become a model for many other churches In order to solve the riddle of the doors of Monte Cassino Bloch has investigated other bronze doors of Byzantine origin in Italy and the doors of the great Italian master Oderisius of Benevento as well as those of S Clemente a Casauria and of the cathedral of Benevento Also included is a study of the political and cultural impact of Byzantium on Monte Cassino and a chapter on Constantinus Africanus Saracen turned monk one of the most interesting figures in the history of medieval medicine The text is sumptuously illustrated with 193 plates most of the more than 300 illustrations have never before been published This three volume work with its nine detailed indexes offers a wealth of information for scholars in many different fields

Crusading and the Crusader States Andrew Jotischky, 2017-02-17 Crusading and the Crusader States follows the progress of the major crusading expeditions offers insights into their continuing failure and charts the development of new attitudes towards Islam and its followers This new edition takes into account the wealth of rich and varied recent research to demonstrate that crusading should be seen as central to the European experience in the Middle Ages and engages in the key historiographical debates of the past decade This includes new research on how crusades were formed the political culture networks liturgies and crusading culture in the East It is essential reading for all students of the Crusades and medieval history

Monte Cassino in the Middle Ages, vol. II, pts. III-IV, **The Scriptorium and Library at Monte Cassino, 1058-1105** Francis Newton, 1999-04-29 In all the history of hand written books one of the most distinctive and handsome scripts is that of the abbey of Monte Cassino This study examines for the first time in detail the development of this script during the Abbey's greatest period of wealth and

influence under Desiderius abbot 1058 1087 and his successor Oderisius abbot 1087 1105 The characteristic Cassinese hand was established long before but in this period it was transformed into what is today considered its classic form The present study rests on a fresh examination of many details of the Beneventan South Italian script in aspects incompletely studied before It aims to provide a new history of Monte Cassino as a writing centre and to offer a context for many unique or valuable texts manuscripts that it processed

The Life of Breath in Literature, Culture and Medicine David Fuller,Corinne Saunders,Jane Macnaughton,2021-10-01 This open access book studies breath and breathing in literature and culture and provides crucial insights into the history of medicine health and the emotions the foundations of beliefs concerning body spirit and world the connections between breath and creativity and the phenomenology of breath and breathlessness Contributions span the classical medieval early modern Romantic Victorian modern and contemporary periods drawing on medical writings philosophy theology and the visual arts as well as on literary historical and cultural studies The collection illustrates the complex significance and symbolic power of breath and breathlessness across time breath is written deeply into ideas of nature spirituality emotion creativity and being and is inextricable from notions of consciousness spirit inspiration voice feeling freedom and movement The volume also demonstrates the long standing connections between breath and place politics and aesthetics illuminating both contrasts and continuities

Catalogue of the Reference Library Birmingham Public Libraries,John Davies Mullins,1890 [Clerical Orders in the Early Middle Ages](#) Roger E. Reynolds,2024-10-28 The theology of sacred or clerical orders of the Latin Church in the high and later Middle Ages developed from an amalgam of texts written from late patristic antiquity through to the early 12th century Such texts many studied and edited here include letters tracts sermons liturgical commentaries ordination instructions and canon law pieces Within these texts multiple topics might be considered such as the Old and New Testament origins of each of the clerical grades their number and hierarchical ranking the duties dress and moral conduct of a cleric and ordination ritual Particularly striking are the multiple duties assigned each grade and their modification in various parts of the Western Church Many of these texts found their way not only into more formal theological treatments of sacred orders but also into ordination rites Probably the most public and visible duty of a cleric was his function as a eucharistic officer and one essay in this collection deals with perhaps the most famous early medieval depiction of this clerical ritual on the ivory covers of the 9th century

Drogo Sacramentary *The Platonic Tradition in the Middle Ages* Stephen Gersh, Maarten J.F.M. Hoenen, 2013-02-06 This collection of essays delineates the history of the rather disparate intellectual tradition usually labeled as Platonic or Neoplatonic. In chronological order the book covers the most eminent philosophic schools of thought within that tradition. The most important terms of the Platonic tradition are studied together with a discussion of their semantic implications, the philosophical and theological claims associated with the terms, the sources that furnish the terms and the intellectual traditions aligned with or opposed to them. The contributors thereby provide a vivid intellectual map of the Middle Ages and the Early Modern period. Contributions are written in English or German. Part the first. History of libraries.- v. 2. Part the first. History of libraries (continued) Economy of libraries Edward Edwards, 1859 **God's Scribe** Jeff Rider, 2001-10

Galbert of Bruges's *De multro traditione et occisione gloriosi Karoli comitis Flandriarum* is an eyewitness account of the assassination of Charles the Good, Count of Flanders in 1127 and the ensuing civil war. This book forms a companion to the text which was discovered in the 15th century in Bruges and has subsequently been available in French translation. Jeff Rider argues that this is not a true journal but a revised and edited history of events between March 1127 and July 1128. He discusses how the chronicle developed, Galbert's sources, how he organized his notes and wrote his text, and its literary qualities. This is a detailed study of an important piece of historical writing. One third of the book comprises notes and appendices. **Medieval Culture and Society** David Herlihy, 1968-06-18 *Annals of Medical History*, 1927 **Memoirs of Libraries: Part the first. History of libraries** Edward Edwards, 1859. Start with the history of libraries of the ancients, middle ages and the moderns in compact set of valuable well-analyzed and chronologically ordered knowledge about the well-known libraries in the ancient periods to the modern age. Examples, some contents from the books and libraries catalogues cited with the texts having explanatory marks and footnoted besides for clarification for the reader. Reveals libraries' economic conditions, financial operations from several British libraries, mentions the subjects of architectures and architectural perspectives of the libraries in America, Europe and Great Britain primarily. **Music in Medieval Europe** Alma Santosuosso, 2017-07-05. This book presents the most recent findings of twenty of the foremost European and North American researchers into the music of the Middle Ages. The chronological scope of their topics is wide, from the ninth to the fifteenth century. Wide too is the range of the subject matter included: are essays on ecclesiastical chant, early and late, and on the earliest and latest of its supernumerary tropes, monophonic and polyphonic; on the innovative and seminal polyphony of Notre Dame de Paris and the Latin poetry associated with the great cathedral; on the liturgy of Paris, Rome and Milan; on musical theory; on the emotional reception of music near the end of the medieval period and the emergence of modern sensibilities; even on methods of encoding the melodies that survive from the Middle Ages, encoding that makes it practical to apply computer-assisted analysis to their vast number. The findings presented in this book will be of interest to those engaged by music and the liturgy: active researchers and students. All the papers are carefully and extensively documented by

references to medieval sources
