Child's Play Maja Pitamic, Claire MD. McCarthy, 2008 As adults we often underestimate the value that play has in developing children both physically and mentally In the first few years of a child's life the brain is growing at a rapid rate and play cannot be overvalued at this time as it allows a child to engage and make sense of the world Child's Play is an activity book filled with play ideas for parents to enjoy with their toddlers from 12 months through to three years of age Each game offers parents the chance to relish encourage and assist in their child's key developmental stage and all activities are based on sound techniques of early childhood education They are presented with guidelines and suggestions that progress in terms of difficulty and no specialised knowledge or equipment is necessary From encouraging your infant to explore the sense of touch and increase their coordination to performing action songs and discovering the garden or local park Child's Play offers children and parents the chance to learn and play together **I Can Do it** Maja Pitamic, 2015-07 I Can Do It is a playbook with a difference Designed to help busy parents enjoy fun filled playtime with their young children the activities in this book help your child to discover the world for themselves **Play and Learning in Early Childhood Settings** Ingrid Pramling Samuelsson, Marilyn Fleer, 2008-11-14 This book represents the outcome of the joint activities of a group of scholars who were concerned about the lack of international research in play for children from birth to 3 years The authors are members of the Organisation Mondiale pour l'Education Prescolaire OMEP For further information see <http://www.om-ong.net> The idea of carrying out a research project internationally was born at the OMEP's World Congress in Melbourne Australia 2004 All member countries were invited and 10 countries decided to participate of which three have withdrawn during the process The reason for this might be that in these countries only one person was working with the project while other seven countries

have been working in a team of two or more persons The countries that have carried out research and contributed to this book with a chapter each are Australia Chile China Japan New Zealand Sweden and USA Wisconsin For more information about the participating countries and their corresponding addresses see Appendix I This book project started in Melbourne with a discussion about what is general in early childhood education globally and what is culturally specific The discussion was inspired by one of the keynote speakers Nazhat Shameem 2004 judge in the supreme court in Fiji when she said If we all think we are so different and specific in each culture the role of human rights has no value anymore We formulated three questions

Play and Creativity in Art Teaching George Szekely, 2015-03-02 In Play and Creativity in Art Teaching esteemed art educator George Szekely draws on his two classic volumes Encouraging Creativity in Art Lessons and From Play to Art to create a new book for new times The central premise is that art teachers are not only a source of knowledge about art but also a catalyst for creating conditions that encourage students to use their own ideas for making art By observing children at play and using props and situations familiar to them teachers can build on children s energy and self initiated discoveries to inspire school art that comes from the child s imagination The foundation of this teaching approach is the belief that the essential goal of art teaching is to inspire children to behave like artists that art comes from within themselves and not from the art teacher Play and Creativity in Art Teaching offers plans for the study of children s play and for discovering creative art teaching as a way to bring play into the art room While it does not offer a teaching formula or a single set of techniques to be followed it demystifies art and shows how teachers can help children find art in familiar and ordinary places accessible to everyone This book also speaks to parents and the important roles they can play in supporting school art programs and nourishing the creativity of their children
