Monteverdi His Life And Work:

Monteverdi Henry Prunières, 1973-07-18 The object of the present volume is to combine the story of Monteverdi's life with a critical study of his works. In spite of long and patient research in Italian archives it has been possible to add here relatively little new material to the biography of the Master. On this subject all that matters has been published long since. The investigations of Padre Caffi 1858, Padre Canal S. Davari 1885, Angelo Solerti, Ademollo, Picenardi and Emilio Vogel have provided documents which permit of a complete reconstitution of the life of the great musician and it is in view of such a reconstitution that the author has considered Monteverdi as far as possible in relation to the artistic circle in which he moved among the composers contemporary to him and that the author has dwelt upon the life of the courts and cities in which Monteverdi's passionate life was lived in which his talent was formed and matured. Foreword Monteverdi, His Life and Work Henry Prunières, 1926

Studies in Sixteenth- and Seventeenth-Century Italian Sacred Music Jeffrey Kurtzman, 2024-10-28 Although he is often identified as a Monteverdi scholar, *Approaches to Monteverdi: Aesthetic, Psychological, Analytical and Historical Studies* published in the Variorum series in 2013, the majority of Jeffrey Kurtzman's work has focused on other sixteenth and seventeenth century Italian sacred music. Organized into three sections, part one begins with a chapter on the Monteverdi Mass and Vespers of 1610, which spotlights the other major work in Monteverdi's first prominent sacred print, the Missa in illo tempore, followed by examples of Kurtzman's work on the sacred music of other composers such as Giovanni Francesco Capello and Palestrina. The section concludes with a piece on polyphonic psalm structures in seventeenth century Italian Office music. Part two includes pieces which explore the relationship between the standard clef set, the high clef set, specific Magnificat tones and sounding pitch in the Magnificats of Roman composers, the issue of polyphonic psalm antiphons and the question of vocal and instrumental substitutes for plainchant antiphons in the Vespers service and the use of instruments in the performance of sacred music, demonstrating that the concertato style of the seventeenth century had its origins in the practice of substituting instruments for voices and doubling voices with instruments, thereby introducing multifaceted possibilities for varying sonorities through the course of a composition. Part 3 contains two articles: the first surveying various styles in the Office repertoire of the seventeenth century based on the approximately 1500 prints of Italian Office music in Kurtzman's and Anne Schnoebelen's catalogue of Mass, Office and Holy Week Music, Printed in Italy, 1516-1770. The second article, published for the first time in this volume, assesses the impact on Italian liturgical music of the Catholic reform of the second half of the sixteenth century. *Reader's Guide to Music* Murray Steib, 2013-12-02 The Reader's Guide to Music is designed to provide a useful single volume guide to the ever increasing number of English language book length studies in music. Each entry consists of a bibliography of some 3-20 titles and an essay in which these titles are evaluated by an expert in the field in light of the history of writing and scholarship on the given topic. The more than 500 entries include not just writings on major composers in music history but also the genres in

which they worked from early chant to rock and roll and topics important to the various disciplines of music scholarship from aesthetics to gay lesbian musicology

Lives of the Great Composers 3e Harold C Schonberg, 1997-04 Schonberg brings the reader closer to an identification with the composers he discusses and thus closer to an understanding of their music The book consequently places more emphasis on biographical details and less upon technical analysis of the music

Monteverdi's Last Operas: A Venetian Trilogy Ellen Rosand, 2007-12-03 Claudio Monteverdi 1567 1643 was the first important composer of opera This innovative study by one of the foremost experts on Monteverdi and seventeenth century opera examines the composer's celebrated final works *Il ritorno d'Ulisse* 1640 and *L'incoronazione di Poppea* 1642 from a new perspective Ellen Rosand considers these works as not merely a pair but constituents of a trio a Venetian trilogy that Rosand argues properly includes a third opera *Le nozze d'Enea* 1641 Although its music has not survived its chronological placement between the other two operas opens new prospects for better understanding all three both in their specifically Venetian context and as the creations of an old master A thorough review of manuscript and printed sources of *Ritorno* and *Poppea* in conjunction with those of their erstwhile silent companion offers new possibilities for resolving the questions of authenticity that have swirled around Monteverdi's last operas since their discovery in the late nineteenth century *Le nozze d'Enea* also helps to explain the striking differences between the other two casting new light on their contrasting moral ethos the conflict between a world of emotional propriety and restraint and one of hedonistic abandon
