Bulletin United States. Office of Education, 1960 **Frankie McIntosh and the Art of the Soca Arranger** Frankie McIntosh, Ray Allen, 2024-10-23 Soca music an offspring of older Trinidadian calypso emerged in the late 1970s and is now recognized as one of the English speaking Caribbean's most distinctive styles of popular vocal music Frankie McIntosh and the Art of the Soca Arranger tells a story of Caribbean music in the diaspora through the eyes and ears of a pioneering soca arranger A fascinating collaboration between Frankie McIntosh and music scholar Ray Allen this co-written memoir places the music arranger at the center of several overlapping narratives of immigration and musical diaspora The book begins with McIntosh's personal voyage from Saint Vincent to Brooklyn and his efforts to hammer out a career in music while raising a family in his newly adopted home His immigrant tale is intertwined with his musical journey from popular Caribbean dance bands through formal studies in Western classical music and jazz to his work as a gigging jazz pianist and calypso soca arranger Along the way he embraced the varied musics of New York's African American and West Indian communities working with such iconic calypsonians as the Mighty Sparrow Lord Kitchener Calypso Rose and Alston Becket Cyrus His

story provides a unique lens for viewing Brooklyn Carnival music and brings into focus the borough's rise to prominence as the transnational hub of the soca music industry in the 1980s. An alternative to traditional scholarship that tends to focus on calypso and soca singers, this work explores the instrumental dimensions of the art form through the life and music of one of the most celebrated soca arrangers and keyboardists of all time. **The ABC's of Personal Finance** Debbi King, 2014-08-17

If you are living paycheck to paycheck fighting with your spouse about money unemployed or always stressed about how to pay your bills this book is for you. If you do not have any peace when it comes to money this book is for you. If you believe that you are doing everything right but you can't quite get where you need to be financially this book is for you. Personal finance is as easy as ABC. Most of us get the math but it is the emotions of personal finance that we have trouble with. And since personal finance is 90% emotion and 10% math this may explain why you are struggling. In this book you will find everything you need to know about every aspect of personal finances and from someone who has been there. We will cover everything from buying a house to budgeting to getting out of debt. This is not a miracle program or a magic pill. This is about a lifestyle of handling money that will give you joy, peace and freedom beyond what you could ever dream of having. Live the dream.

Perspectives on Finnish School Education Eduardo Andere M, 2013-12-11

This superbly researched study offers a chalk face perspective on the secret of Finland's educational success. Providing an intimate and revealing portrait of the Nordic nation's schools and its teacher training system, it sets out to explain why Finland's students consistently rank top with low variance and moderate inputs among OECD countries across the range of criteria from reading to mathematics. Alongside the detailed analysis culled from many hours of interviews with teachers and principals and dozens of visits to school throughout the country, the author maps the educational landscape of Finland, the sector's history, culture and development, its guiding principles, methodologies and learning environments. The result is a cogent assessment of how and why Finland is universally regarded as a high grade educational exemplar. The volume provides the hundreds of researchers, teaching professionals and policy makers who visit Finland in search of inspiration with essential background material on the country's magic educational ingredients which include a highly motivated cohort of well trained teachers, a recognition of the vital importance of early years education and nurture, functional and inviting learning environments and a rejection of pedagogical dogma in favour of developing methodologies that produce results at the same time as fostering students' confidence and collegiality. At the same age, Finland's schoolchildren have roughly one less year of formal schooling than most of their international counterparts, do not consider themselves to be overworked and rank alongside hot-housed Singaporean or South Korean youngsters in international assessments of achievement. They are the educational equivalent of world-beating sports stars who make success appear effortless. This volume lifts the lid on the hard work and careful planning that underpin their achievements.
