Myanmar Beyond Politics To Societal Imperatives:

Myanmar Kyaw Yin Hlaing, 2003-08-01 Seeking to look beyond the day to day headlines and judgemental comments on developments in Myanmar this volume gets under the surface to look at the underlying issues which the country faces regardless of its political future After looking back to essay the historical forces and human agencies which have shaped contemporary Myanmar the volume addresses health care and public policy provision with suggestions as to what potential roles the international community might have in assisting Myanmar's future socioeconomic development *Myanmar Beyond Politics to Societal Imperatives* broadens the debate on this state of more than 50 million people beyond the usual narrow didactics about democratization and economic policies

Myanmar N Ganesan, Kyaw Yin Hlaing, 2007 Covers issues of historical influence and political considerations that have shaped the dominant thinking within the state and the military Examines the three major ethnic groups in the country Karen Kachin and Shan Deals with how the various ethnic groups are trying to cope with decades of conflict and reconstruct their communities

The State in Myanmar Robert H. Taylor, 2009
Myanmar/Burma Alexis Rieffel, 2010-10-06 Examines internal issues of Myanmar also known as Burma as well as the country's relations with its neighbors and the United States discussing the Obama administration's policy of pragmatic engagement which links the removal of sanctions to implementation of greater freedom and respect of human rights Original

Burma Or Myanmar? The Struggle For National Identity Lowell Dittmer, 2010-10-20 Burma also known as Myanmar strategically located between China and India is one of the largest and most richly endowed states in Southeast Asia Yet it remains both economically and politically underdeveloped Why is this so We argue that much of the reason has to do with an ongoing struggle for national identity This struggle involves not only whether the state should be authoritarian or democratic but how Burma's myriad ethnic minorities should be accommodated within it what external reference national reference groups the country should identify and align with and how it should move forward Identity formation normally occurs much earlier in the national developmental process but Burma has had unusually intransigent problems that were never successfully resolved during the colonial period and have simply been suppressed by force since then This protracted divisiveness has stunted the nation's modernization and growth Written from a unique perspective this book on Myanmar deviates from the traditional authoritarian versus democratic rhetoric Although that is certainly part of the picture this multifaceted analysis focuses rather on the issue of identity formation an issue that has all too often failed to make the headlines Much can be learned from Myanmar's identity problems making this book essential reading for all students and professionals interested in development studies or comparative politics By whatever name Burma is not only a fascinating country but one likely to play an increasingly vital role in Asia's future

Unraveling Internal Conflicts in East Asia and the Pacific Jacob Bercovitch, Karl R. DeRouen, 2011-01-01 *Unraveling Internal Conflicts in East Asia and the Pacific* Incidence Consequences and Resolution edited by Jacob Bercovitch and Karl DeRouen Jr is a book of originally commissioned essays on

civil wars which provide a compelling area of inquiry Many of the Asia Pacific region s wars are very long such as in Myanmar some tend to recur also in Myanmar some involve religion Philippines Thailand and some Aceh Bougainville East Timor of the longest have ended in the last few years In short the region presents a variety of interesting dynamics that merit close attention in one volume *Myanmar* Kyaw Yin Hlaing, Robert H Taylor, Tin Maung Maung Than, 2005 After reviewing the historical forces and human agencies which have shaped contemporary Myanmar this book addresses healthcare and public policy provision with suggestions as to what potential roles the international community might have in assisting Myanmar s future socioeconomic development India--Myanmar Relations Rajiv Bhatia, 2015-08-11 This book provides a comprehensive evaluation of India s multi faceted relations with Myanmar It unravels the mysteries of the complex polity of Myanmar as it undergoes transition through democracy after long military rule Based on meticulous research and understanding the volume traces the trajectory of India Myanmar associations from ancient times to the present day and offers a fascinating story in the backdrop of the region s geopolitics An in depth analysis of India Myanmar China Triangle brings out the strategic stakes involved It will be of great interest to researchers and scholars of international relations peace and conflict studies defence and strategic studies politics South and Southeast Asian studies as well as policy makers and political think tanks The Language Difference Paulin G. Djité, 2011 This book asks whether language makes a difference when it comes to development and whether there is a perceptible difference in development between countries that is attributable to their choice of language It answers these questions by comparing the role of language in Africa and in Southeast Asia Cambodia the Lao PDR Myanmar and Viet Nam Peacebuilding in Deeply Divided Societies Fletcher D. Cox, Timothy D. Sisk, 2017-07-04 This book explores a critical question in the wake of identity based violence what can internal and international peacebuilders do to help deeply divided societies rediscover a sense of living together In 2016 ethnic religious and sectarian violence in Syria and Iraq the Central African Republic Myanmar and Burundi grab headlines and present worrying scenarios of mass atrocities The principal concern which this volume addresses is social cohesion relations within society and across deep divisions and the relationship of individuals and groups with the state For global peacebuilding networks the social cohesion concept is a leitmotif for assessment of social dynamics and a strategic goal of interventions to promote resilience following violent conflict In this volume case studies by leading international scholars paired with local researchers yield in depth analyses of social cohesion and related peacebuilding efforts in seven countries Guatemala Kenya Lebanon Nepal Nigeria Myanmar and Sri Lanka *The Ethno-Narcotic Politics of the Shan People* Thitiwut Boonyawongwiwat, 2017-11-15 This book proposes the alternative explanation on the pattern of ethnic conflict especially the on going civil war in Myanmar Previously most scholars accepted that narcotics play the crucial role in conflict as the resource of revenues However this book dramatically changes what we have ever thought before It investigated in both field and documentary research by examining the role of narcotics in the ideological formation process and ethnic

identification process Consequently the so called ethno narcotic politics was found in the way that the role of narcotics was able to be used as the source of political mobilization in various ways Furthermore the borderland is the appropriated area where the process of anti ethno narcotics identification could be emerged and later used as the main identity for the ethnic groups who remain fighting against state s power

Soldiers and Diplomacy in Burma Renaud Egretteau, Larry Jagan, 2013-06-10 Soldiers and Diplomacy addresses the key question of the ongoing role of the military in Burma s foreign policy The authors a political scientist and a former top Asia editor for the BBC provide a fresh perspective on Burma s foreign and security policies which have shifted between pro active diplomacies of neutralism and non alignment and autarkical policies of isolation and xenophobic nationalism They argue that important elements of continuity underlie Burma s striking postcolonial policy changes and contrasting diplomatic practices Among the defining factors here are the formidable dominance of the Burmese armed forces over state structure the enduring domestic political conundrum and the peculiar geography of a country located at the crossroads of India China and Southeast Asia Egretteau and Jagan argue that the Burmese military still has the tools needed to retain their praetorian influence over the country s foreign policy in the post junta context of the 2010s For international policymakers potential foreign investors and Burma s immediate neighbors this will have strong implications in terms of the country s foreign policy approach

Eyewitness to Early Reform in Myanmar Trevor Wilson, 2016-03-17 By 2000 a ruthless military regime had ruled Myanmar for more than a decade polarising opinion inside and outside Burma Myanmar with Western countries locked into non UN sanctions and Asian countries and the rest of the world locked into unenthusiastic cooperation with Myanmar While the United Nations and its agencies faced numerous obstacles as they sought to encourage national reconciliation in Myanmar conditions in Myanmar were slowly starting to change With a reform faction in charge the military regime itself after 1999 slowly began experimenting with modest changes before committing in 2008 to transfer power via a constitutional referendum and national elections both of which it effectively controlled This book provides the first eyewitness account of the early reform experiments

Burma's Economy in the Twentieth Century Ian Brown, 2013-11-07 An incomparable introduction to Burma s political and economic history written by one of the premier economic historians of Southeast Asia

Burma Redux Ian Holliday, 2012-05-15. Contemporary Myanmar faces a number of political challenges and it is unclear how other nations should act in relation to the country. Prioritizing the opinions of local citizens and reading them against the latest scholarship on this issue, Ian Holliday affirms the importance of foreign interests in Myanmar's democratic awakening yet only through committed grassroots strategies of engagement encompassing foreign states, international aid agencies and global corporations. Holliday supports his argument by using multiple sources and theories, particularly ones that take historical events, contemporary political and social investigations and global justice literature into account, as well as studies that focus on the effects of democratic transition, the aid industry and socially responsible corporate investing and sanctions. One of the only volumes to apply broad-ranging global justice theories to a real-world nation in flux, *Burma Redux* will appeal to professionals researching Burma, Myanmar, political advisers and advocacy groups, nonspecialists interested in Southeast Asian politics and society and the local and international problems posed by pariah states, general readers who seek a richer understanding of the country beyond journalistic accounts and the Burmese people themselves, both within the country and in diaspora. *Burma Redux* is also the first book-length study on the nation to be completed after the contentious general elections of 2010. Promoting Human Rights in Burma Morten B. Pedersen, 2008. Since 1988, when Burma's military rulers crushed a popular uprising, Western governments have promoted democracy as a panacea for the country's manifold development problems. Morten B. Pedersen argues that Western democracy rhetoric has not supplied the solution to these problems. Based on extensive field research, *Promoting Human Rights in Burma* proposes an alternative model of critical engagement that emphasizes more pragmatic efforts to help bring a deeply divided society together and promote socioeconomic development as the basis for longer-term political change. Critical security in the Asia-Pacific Anthony Burke, Matt McDonald, 2021-06-15. In the wake of 9/11, the Asian crisis and the 2004 tsunami, traditional analytical frameworks are increasingly unable to explain how individuals and communities are rendered insecure or advance individual, global or environmental security. In the Asia-Pacific, the accepted wisdom of realism has meant that analyses rarely move

beyond the statist militarist and exclusionary assumptions that underpin traditional realpolitik This innovative new book challenges these limitations and addresses the missing problems people and vulnerabilities of the Asia Pacific region It also turns a critical eye on traditional interstate strategic dynamics Critical security in the Asia Pacific applies both a critical theoretical approach that interrogates the deeper assumptions underpinning security discourses and a human centred policy approach that focuses on the security welfare and emancipation of individuals and communities Leading Asia Pacific researchers combine to apply these frameworks to the most pressing issues in the region from the Korean peninsula to environmental change Indonesian conflict the war on terror and the plight of refugees The result is a sophisticated and accessible account of often neglected realities of marginalization in the region and a compelling argument for the empowerment and security of the most vulnerable

Searching for Non-Western Roots of Conflict Resolution: Discourses, Norms and Case Studies, 2013-03-15 Conflict resolution as a defined field of study has been facing stiff challenges in the post Cold War world The multipolar setting of the globalised world with rising incidence of intra state conflicts and growing convergence between security and development issues have generated fresh as well as severely mutated old challenges which most often do not fit well within traditional theoretical explanatory categories evolved within Peace and Conflict Studies This disjunction is often generated by the fact that the modern conflict zones are mostly located in the developing and underdeveloped parts of the global South whereas the discourses of Conflict resolution continue to be largely western in origin and focus Dissatisfaction with this process led to the search for alternative values in non western discourses either philosophical such as Buddhism or Gandhian methodology of peaceful satyagraha Attempts made by Peace and Conflict resolution theorists to borrow and integrate non western concepts within the paradigm however important are but small steps which indicate the growing complexities associated with the process as well as academic analyses and discussions related to conflict resolution More micro level studies of attempts towards conflict resolution from primarily non western conflict zones as well as alternative theorisations about non western norms if any and discourses would be necessary to ascertain whether a non western alternative paradigm for conflict resolution is possible desirable and whether it could be integrated and absorbed successfully within the already established theoretical models of conflict The present edited volume represents some of these viewpoints It includes nine essays which try to look into the process of conflict resolution from various angles the primary aim being to discover whether it could be done through non western prism and would be of interest to both practitioners and academics and ofcourse students
