This course is ideal for accelerating students as an alternative to the traditional developmental math sequence and preparing them for a college level statistics liberal arts math or STEM prep course. MyMathLab for Quantitative Reasoning is part of a series of MyMathLab courses built to support the New Mathways Project developed by the Charles A. Dana Center. The New Mathways Project embodies the Dana Center's vision for a systemic approach to improving student success and completion through implementation of processes, strategies, and structures built around three mathematics pathways and a supporting student success course. Quantitative Reasoning develops quantitative literacy skills that will be meaningful in students' professional, civic, and personal lives. This course emphasizes using data to make good decisions, and its goal is for students to gain the mental habit of seeking patterns and order when confronted with unfamiliar contexts. The MyMathLab course designed for use with Quantitative Reasoning provides interactive content to help prepare students for active classroom time. In-Class Interactive Lessons to support students through an active classroom experience, accompanied by notebook PDFs, Homework assignments designed to assess conceptual understanding of important skills and concepts, Additional resources for instructors to help facilitate an interactive and engaging classroom. Built in MyMathLab Content developed by the Charles A. Dana Center at The University of Texas at Austin will be delivered through MyMathLab. MyMathLab is an online homework tutorial and assessment program that engages students and improves results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts.

MyMathLab Developmental Mathematics Kirk Trigsted, Kevin Bodden, Randall Gallaher, 2014-04-14. **ALERT** Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab exist; check with the seller before completing your purchase. Used or rental books: If you rent or purchase a used book with an access code, the access code may have been redeemed previously, and you may have to purchase a new access code. Access codes: Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. **Developmental Mathematics** by Trigsted, Gallaher, and Bodden is the first online, completely clickable, combined Basic Mathematics, Beginning Algebra, and Intermediate Algebra text to take full advantage of MyMathLab's features and benefits. Kirk Trigsted saw marked improvements in student learning when he started teaching with MyMathLab, but he noticed that most students started their assignments by going directly to the MyMathLab homework exercises without consulting their textbook. This inspired Kirk to write a true eText built within MyMathLab to create a dynamic, seamless learning experience that would better meet the needs and expectations of his students. Completely clickable and fully integrated, the Trigsted eText is designed for today's learners. **Developmental Mathematics** is also available to be packaged with two printed resources to provide additional support for you. The eText Reference is a spiral-bound printed version of the eText that provides a place for

you to do practice work and summarize key concepts from the online videos and animations In addition to the benefits it provides you the eText Reference is also a nice resource for those instructors that prefer a printed text for class preparation The Guided Notebook is an interactive workbook that guides you through the course by asking you to write down key definitions and work through important examples for each section of the eText This resource is available in a three hole punched unbound format to provide the foundation for a personalized course notebook You can integrate your class notes and homework notes within the appropriate section of the Guided Notebook Instructors can customize the Guided Notebook files found within MyMathLab This package consists of the MyMathLab Student Access Kit and the eText Reference
