*What Went Wrong?* Bernard Lewis,2002-01-24 For many centuries the world of Islam was in the forefront of human achievement the foremost military and economic power in the world the leader in the arts and sciences of civilization Christian Europe a remote land beyond its northwestern frontier was seen as an outer darkness of barbarism and unbelief from which there was nothing to learn or to fear And then everything changed as the previously despised West won victory after victory first in the battlefield and the marketplace then in almost every aspect of public and even private life In this intriguing volume Bernard Lewis examines the anguished reaction of the Islamic world as it tried to understand why things had changed how they had been overtaken overshadowed and to an increasing extent dominated by the West Lewis provides a fascinating portrait of a culture in turmoil He shows how the Middle East turned its attention to understanding European

weaponry and military tactics commerce and industry government and diplomacy education and culture Lewis highlights the striking differences between the Western and Middle Eastern cultures from the 18th to the 20th centuries through thought provoking comparisons of such things as Christianity and Islam music and the arts the position of women secularism and the civil society the clock and the calendar Hailed in The New York Times Book Review as the doyen of Middle Eastern studies Bernard Lewis is one of the West's foremost authorities on Islamic history and culture In this striking volume he offers an incisive look at the historical relationship between the Middle East and Europe     *A Century of Travels in China* Douglas Kerr, Julia Kuehn, 2007-05-01 Writings of travelers have shaped ideas about an evolving China while preconceived ideas about China also shaped the way they saw the country *A Century of Travels in China* explores the impressions of these writers on various themes from Chinese cities and landscapes to the work of Europeans abroad From the time of the first Opium War to the declaration of the People's Republic China's history has been one of extraordinary change and stubborn continuities At the same time the country has beguiled scared and puzzled people in the West The Victorian public admired and imitated Chinese fashions in furniture and design gardens and clothing while maintaining a generally negative idea of the Chinese empire as pagan backward and cruel In the first half of the twentieth century the fascination continued Most foreigners were aware that revolutionary changes were taking place in Chinese politics and society yet most still knew very little about the country But what about those few people from the English speaking world who had first hand experience of the place What did they have to say about the real China To answer this question we have to turn to the travel accounts and memoirs of people who went to see for themselves during China's most traumatic century While this book represents the work of expert scholars it is also accessible to non specialists with an interest in travel writing and China and care has been taken to explain the critical terms and ideas deployed in the essays from recent scholarship of the travel genre     **Journal of Social Hygiene** ,1915     **Social Hygiene** ,1914     **The American Social Hygiene Association Bulletin** ,1915
