Mysterious Visitors Brinsley Le Poer Trench, 1975

The Lure of the Edge Brenda Denzler, 2001-11-07 UFO phenomena entered American consciousness at the beginning of the Cold War when reports from astonished witnesses of encounters with unknown aerial objects captured the attention of the United States military and the imagination of the press and the public But when UFOs appeared not to be hostile and when some scientists pronounced the sightings to be of natural meteorological phenomena misidentified due to Cold War jitters military interest declined sharply and with it further overt scientific interest Yet sighting reports didn't stop and UFOs entered the public imagination as a cultural myth of the twentieth century Brenda Denzler's comprehensive clearly written and compelling narrative provides the first sustained overview and valuation of the UFO alien abduction movement as a social phenomenon positioned between scientific and religious perspectives Demonstrating the unique place ufology occupies in the twentieth century nexus between science and religion Denzler surveys the sociological contours of its community assesses its persistent attempt to achieve scientific legitimacy and concludes with an examination of the movement's metaphysical or spiritual outlook Her book is a substantial contribution to our understanding of American popular culture and the boundaries of American religion and to the debate about the nature of science and religion Denzler presents a thorough and fascinating history of the UFO abduction movement and traces the tensions between those who are deeply ambivalent about abduction narratives that seemingly erode their quest for scientific credibility and the growing cultural power of those who claim to have been abducted She locates the phenomenon within the context of American religious history and using data gathered in surveys sheds new light on the social profile of these UFO communities *The Lure of the Edge* succeeds brilliantly in repositioning a cultural phenomenon considered by many to be bizarre and marginal into a central debate about the nature of science technology and the production of a modern myth

Britain's X-traordinary

Files David Clarke, 2014-09-25 David Clarke opens The National Archives own X Files to uncover the secret official accounts behind legendary paranormal and extraordinary phenomena From mediums employed by the police to help with psychic crime busting to sea monster sightings reported to the Royal Navy Britain's X-traordinary Files brings to light a range of secret documents created by military intelligence and government agencies who have investigated and even used extraordinary phenomena or powers in recent history Each chapter is underpinned by original official records held at The National Archives which throw new light on many rumours and unsolved historical mysteries including the Angels of Mons and other legends of the Great War plus a variety of strange phenomena reported both in the sea and in the air from phantom helicopters to the great sea serpent of the Victorian era The final chapter scrutinises official interest in the

infamous Loch Ness Monster of Scotland and the Beast of Bodmin These accounts are supplemented with contextual material gathered from interviews and the author's own investigations making truly eye opening reading for anyone interested in the paranormal

Lost Secrets of the Gods Michael Pye, Kirsten Dalley, 2014-07-21 Are there 10 000 year old secret societies that still exist today Was there a race of giants that once inhabited the Americas Did ancient Egypt and ancient China have heretofore undiscovered ties *Lost Secrets of the Gods* delves into these ancient mysteries and many more in articles by some of the world's most intrepid and knowledgeable researchers The old paradigms of history are being radically transformed as we discover more evidence of little known cultures and what they achieved Many ancient cultures spoke and wrote of visitors that gave them knowledge and helped shape their societies Who were they and where did they come from We now know that many ancient cultures had advanced knowledge of science agriculture and astronomy only some of which has been rediscovered in the last 100 years Were *The Iliad* and *The Odyssey* really about an epic struggle in pre Celtic Europe What happened to the Persian army that completely disappeared from Egypt 2 500 years ago Did the ancients know how to create psychic guard dogs to protect sacred sites There is much more to history than what has officially been recorded *Lost Secrets of the Gods* reveals startling truths and asks fascinating questions traditional historians have long ignored

The Myth and Mystery of UFOs Thomas E. Bullard, 2016-10-17 When United Airlines workers reported a UFO at O Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings But when a related story broke the record for hits at the Chicago Tribune's website it was clear that such unexplained objects continued to occupy the minds of fascinated readers Why wonders Thomas Bullard don't such persistent sightings command more urgent attention from scientists scholars and mainstream journalists The answer in part lies in Bullard's wide ranging magisterial survey of the mysterious frustrating and ever evolving phenomenon that refuses to go away and our collective efforts to understand it In his trailblazing book Bullard views those efforts through the lens of mythmaking discovering what UFO accounts tell us about ourselves our beliefs and the possibility of visitors from beyond Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to hide the truth He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos Bullard's book takes in the whole spectrum of speculations on alien visitations and abductions magically advanced technologies governmental conspiracies varieties of religious salvation apocalyptic fears and other paranormal experiences Along the way Bullard investigates how UFOs have inspired books movies and television series blurred the boundaries between science science fiction and religion and crowded the Internet with websites and discussion groups From the patches of this crazy quilt he posits evidence that a genuine phenomenon seems to exist outside the myth Enormously erudite and

endlessly engaging Bullard's study is a sky watcher's guide to the studies stories and debates that this elusive subject has inspired It shows that despite all the competing interests and errors clouding the subject there is substance beneath the clutter a genuinely mysterious phenomenon that deserves attention as more than a myth Haunted Washington Alan Wycheck, Charles A. Stansfield, 2011-01-19 Most notorious Bigfoot sightings UFO reports and cover ups Lake Okanagan's famous serpent Ogopogo Ghosts of Lewis and Clark Gen Ulysses S Grant and Bing Crosby Odd phenomena at Grand Coulee Dam Olympic National Park and Fort Vancouver *True Stories of Space Exploration Conspiracies* Nick Redfern, 2014-07-15 Established in 1958 NASA the National Aeronautics and Space Administration has been at the forefront of efforts to explore outer space resulting in the Apollo missions to the moon the Skylab space station and the space shuttle But beyond these very public explorations author Nick Redfern seeks to display what goes on behind the scenes at NASA ascertaining whether there is any truth to rumors and speculation about everything from a possible UFO crash at Roswell New Mexico in 1947 to whether or not the moon landings themselves were faked **UFO Case Files Of Scotland (Volume 1): Amazing Real Life Alien Encounters** Malcolm Robinson, 2017-06-21 The subject of UFOs has been hotly debated Are UFOs space vehicles from another world Are they top secret military aircraft of some kind Or are they simply a figment of our imagination Malcolm Robinson is a UFO Paranormal Researcher with over 40 years expertise and has had hands on experience with each of the cases contained in this book The full story regarding the wave of UFO sightings over the town of Bonnybridge is given here as is the full story of Scotland's first reported UFO abduction the A70 Incident This book presents the most fascinating UFO cases that Scotland has to offer and clearly shows that Scotland as a country has been touched by the UFO presence This book will leave you with little doubt that mankind is dealing with a very real and bona fide phenomenon as the witnesses in this book can clearly testify to **The UFO Literature** Richard Michael Rasmussen, 1985 The UFO Book John Michael Greer, 2025-05-20 For thousands of years people have seen strange lights and hovering shapes in the sky From an ancient awareness that there might be creatures beyond this world to very recent disclosures of alien activity at a governmental level speculation about unidentified flying objects and the alien entities that might have traveled within them has animated humanity's relationship to the unknown John Michael Greer long time researcher of the unexplained chronicles 100 of the most fascinating brushes Earth's residents have had with visitors from the cosmos Illustrated with full color photos and illustrations The UFO Book includes Babylonian engravings phantom airships of the 1890s the foo fighters of the Second World War the Flatwoods Monster and Mothman Greer weaves these together into a chronological survey of an evolving understanding of alien life He also covers alien abductions from around the world and throughout time proving that they are a widespread phenomena that unites all of the residents of this planet It's undeniable that something very strange is going on and The UFO Book is a fascinating portal into a question that predates modern history and will continue into the future is the truth out there and when will it finally be uncovered **Light and Dark** Dr Trevor J. Hawkeswood, 2013-01-31 Trevor J

Hawkeswood is a scientist who has experienced hundreds of paranormal events in his lifetime In Light and Dark he recounts some of these incredible interactions He believes that reality occurs on two separate but interwoven planes of existencethe Earth plane and the multiple levels of the spiritual planes including the lower levels from where the dark souls of humans who have died reach out to us He has experienced more than one hundred sightings of the shadow people or black ghosts He credits guardian angels with saving him from harm or certain death on a number of occasions Hawkeswood also shares accounts of his numerous sightings of strange aerial phenomena he believes were caused by UFOs He has personally experienced clairaudiencevoices from beyondand precognition or the ability to see the future His detailed account of a unique out of body experience OOB challenges what is known about this remarkable ability His OOB was unlike anything that has ever been described by others who have experienced itand he shares it all in Light and Dark But it hasnt all been safe or pleasant At eighteen he survived a terrifying encounter with a demon gargoyle who tried to steal his soul energy after paralyzing him A comprehensive handbook for the paranormal enthusiast Hawkeswoods work also provides a glossary and reference list of English language UFO books In Light and Dark he shares a lifetime of experiences ideas and theories about this fascinating field of study

From the First Rising Sun Charla Jean Morris,2011-08-10 While in medical school which I did not have the privilege of completing once a week we had a small group discussion class called Focus On Problems Each group had a leader a member of the medical school staff or someone closely associated with the school usually an MD or Ph D Our group leader was Dean of the Medical School H David Wilson MD One class period focused on working with patients of different ethnic backgrounds Dr Wilson asked me what were some of the traditions of my tribe in regard to medicine that would be helpful for a doctor to know My reply was that I had been raised like a white that I had grown up learning about various herbal and natural remedies but that I knew nothing about the specific medical traditions ceremonial or secular of my people I had always longed to know of the traditions of my people before that but circumstances of my family history had not allowed it That question in the Focus On Problems class caused that longing to intensify into a sharp pang of longing that would not be satisfied until many years later While in the first two years of medical school as a nontraditional student I was in an environment that encouraged the development of the knowledge of Native American traditions We had Native American speakers that came and elaborated on Native American traditions One area that was lacking was tribal histories but what academics label prehistory I commented to her that when white man came they did all they could to destroy our social and religious fabric so the old traditions were not passed down to most of the remaining members of the tribes Now we know nothing of our old history There is nothing left The white side of my family history is easy to know but not my Cherokee and Choctaw side She replied by saying that yes many of our peoples have lost their old traditions and it is sad
