Mystery To A Solution Poe Borges And The Analytic Detective Story:

The Mystery to a Solution John T. Irwin, 1994 Irwin mirrors the aesthetic impact of the genre by creating in his study the dynamics of a detective story the uncovering of mysteries the accumulation of evidence the tracing of clues and the final solution that ties it all together Genre - text - interpretation Kaarina Koski, Frog, Ulla Savolainen, 2016-01-01 This book presents current discussions on the concept of genre It introduces innovative multidisciplinary approaches to contemporary and historical genres their roles in cultural discourse how they change and their relations to each other The reader is guided into the discussion surrounding this key concept and its history through a general introduction followed by eighteen chapters that represent a variety of discursive practices as well as analytic methods from several scholarly traditions This volume will have wide appeal to several academic audiences within the humanities both in Finland and abroad and will especially be of interest to scholars of folklore language and cultural expression **Museums, Narratives, and Critical Histories** Kerstin Barndt, Stephan Jaeger, 2024-03-04 In response to systemic racism and institutions implications in histories of colonialism nationalism and exclusion museum curators have embraced new ways of storytelling to face entangled memories and histories Critical museum practices have consciously sought to unsettle established forms of representation break with linear narratives of progress and experiment with new modes of multivocal multimedia and subjective storytelling The volume features analyses of narratives and narration in museums and heritage institutions today as well as visions for future museum practices on a local regional national transnational and global scale It is divided into three sections Narrative Theory and Temporality Ruptures and Repair and Difficult Memories and Histories Essays from a variety of disciplines in the humanities and social sciences examine museum practices in history memorial anthropological and art museums across six continents They develop narratological categories reflect on immersive and virtual narratives challenge colonial violence and hegemonic forms of representation query the performance of heritage parse exhibition design and unearth techniques to express narratives of social justice Parts of an Andrology Lawrence R. Schehr, 1997 The subject of this original and provocative work is the white male body a counterpoint in gender studies to the many readings of the representation of the female body To look at the construction of this figure the author examines a group of discontinuous works that are representative of the discontinuity in the intermittent representation of the male body Especially in nineteenth century narrative where Edgar Allan Poe and Guy de Maupassant write astutely on the subject there is never continuity in representing the male body The Pit and the Pendulum and Bel Ami are flickering episodic investigations into the male body as subject as sentient feeling as the subject of torture or of adulation Not until the twentieth century can this male subject be continuously represented Though the male body is often at center stage in works that treat it as a metonymy of its own phallic and phallocentric power this body has less often been seen relative to pleasure and pain to aesthetics to human vulnerability An introductory chapter explores a work by Alberto Moravia Io e lui as well as various manifestations of the male body s most salient part the penis in

contemporary discourse and aesthetics Another chapter deals with writings about the forbidden activity of masturbation and focuses on the work of three disparate writers Paul Bonnetain Michel Tournier and Philip Roth In the final chapter the author discusses several works that focus on the representation of the male body during the gay liberation movement in France and the subsequent celebration of the male body ending with the inscription of the male body in the literature of AIDS Among the authors discussed are Guy Hocquenghem Herv Guibert and Michel Foucault Tatort Germany Lynn M. Kutch, Todd Herzog, 2014 New essays by leading scholars examining today's vibrant and innovative German crime fiction along with its historical background Although George Bernard Shaw quipped that the Germans lack talent for two things revolution and crime novels there is a long tradition of German crime fiction it simply hasn't aligned itself with international trends During the 1920s German language writers dispensed with the detective and focused instead on criminals a trend that did not take hold in other countries until after 1945 by which time Germany had gone on to produce antidetective novels that were similarly ahead of their time German crime fiction has thus always been a curious case rather than follow the established rules of the genre it has always been interested in examining breaking and ultimately rewriting those rules This book assembles leading international scholars to examine today's German crime fiction It features innovative scholarly work that matches the innovativeness of the genre taking up the Regionalkrimi crime fiction's reimagining and transforming of traditional identities historical crime fiction that examines Germany's and Austria's conflicted twentieth century past and how the newly vibrant Austrian crime fiction ties in with and differentiates itself from its German counterpart Contributors Angelika Baier Carol Anne Costabile Heming Kyle Frackman Sascha Gerhards Heike Henderson Susanne C Knittel Anita McChesney Traci S O'Brien Jon Sherman Faye Stewart Magdalena Walig rska Lynn M Kutch is Professor of German at Kutztown University of Pennsylvania Todd Herzog is Professor and Head of the Department of German Studies at the University of Cincinnati *Uncertain Chances* Maurice S. Lee, 2013-06-06 Maurice Lee's study illustrates how writers such as Poe Melville Douglass Thoreau Dickinson and others participated in a broad intellectual and cultural shift in which Americans increasingly learned to live with the threatening and wonderful possibilities of chance **Mostly French** Alistair Rolls, 2009 This book which was inspired by a conference on plural conjugations of Frenchness *La France au pluriel* held in 2007 at the Universities of Technology Sydney and Newcastle focuses on the concept of national belonging as it pertains to detective fiction with particular emphasis on French and Australian detective fictions and the encounter and crossing over between them The objective is not only to use the concepts of French and Australian detective fiction productively via the analysis of French and Australian detective fiction novels but also to challenge and undermine the very notion of national detective fictions which are so often assumed to be transparently meaningful The contributors to this volume focus variously on the following areas comparative analysis of the genesis of French and Australian detective fiction translation of Australian and other novels into French translation as a genre Frenchness as a stereotype its role in individual novels and its spectre in

all detective fiction and readings of individual French and Australian detective novels Overall this book aims to challenge assumptions about French detective fiction its influence on other national fictions and its explicit and implicit presence in all detective fiction

Resisting Arrest Robert A. Rushing, 2021-04-28 A volume in the Cultural Studies Series edited by Samir Dayal An innovative and entertaining look at genre popular culture enjoyment and psychoanalysis Detective fiction a category that broadly defined runs the gamut from Oedipus Rex to The Purloined Letter continues to draw a range of fans and scholars and to play a pivotal role in popular entertainment contemporary literature and psychoanalytic theory But how do we derive pleasure from reading about or watching a detective s exploits Is our enjoyment in the vicarious experience of genius Or in witnessing the commission of a crime an equally vicarious experience of violence *Resisting Arrest* looks at the detective genre in its many different cultural manifestations from popular fiction Christie to high literature Eco from art films Antonioni to popular television series Monk In each case Rushing finds that detective stories have less to do with fulfilling our hidden desires as psychoanalytic explanations have traditionally asserted than with purposively thwarting them He argues that the genre is in fact constituted principally by the promises on which it fails to deliver including the vicarious experience of both genius readers expecting to play Sherlock Holmes are almost always cast as Watson and antisocial violence so that our pleasure is based on what Slavoj Zizek has called the endless circulation around the always missed object Organized around the key ideas that structure the detective genre Desire Repetition Violence *Resisting Arrest* offers a thoroughly new interpretation that will appeal to scholars interested in questions about genre and cinema studies popular culture and psychoanalysis

Policing Gender and Alicia Giménez Bartlett's Crime Fiction Nina L. Molinaro, 2016-03-03 Alicia Gim nez Bartlett s popular crime series written in Spanish and organized around the exploits of Police Inspector Petra Delicado and Deputy Inspector Fermin Garzon is arguably the most successful detective series published in Spain during the previous three decades Nina L Molinaro examines the tensions between the rhetoric of gender differences espoused by the woman detective and the orthodox ideology of the police procedural She argues that even as the series incorporates gender differences into the crime series formula it does so in order to correct women naturalize men s authority sanction social hierarchies and assuage collective anxieties As Molinaro shows with the exception of the protagonist the women characters require constant surveillance and modification often as a result of men s supposedly intrinsic protectiveness or excessive sexuality Men by contrast circulate more freely in the fictional world and are intrinsic to the political psychological and economic prosperity of their communities Molinaro situates her discussion in Petra Delicado s contemporary Spain of dog owners Hola Russian cults and gated communities

Detective Fiction in a Postcolonial and Transnational World Nels Pearson, 2016-04-22 Taking up a neglected area in the study of the crime novel this collection investigates the growing number of writers who adapt conventions of detective fiction to expose problems of law ethics and truth that arise in postcolonial and transnational communities While detective fiction has been linked to imperialism and

constructions of race from its earliest origins recent developments signal the evolution of the genre into a potent framework for narrating the complexities of identity citizenship and justice in a postcolonial world Among the authors considered are Vikram Chandra Gabriel Garc a M rquez Michael Ondaatje Patrick Chamoiseau Mario Vargas Llosa Suki Kim and Walter Mosley The essays explore detective stories set in Latin America the Caribbean India and North America including novels that view the American metropolis from the point of view of Asian American African American or Latino characters Offering ten new and original essays by scholars in the field this volume highlights the diverse employment of detective fictions internationally and uncovers important political and historical subtexts of popular crime novels **Poe's Perfect Crimes**

Yasuhiro Takeuchi, 2025-02-12 The genius of Edgar Allan Poe extends far beyond his groundbreaking creation of Auguste Dupin which laid the foundation for detective fiction What remains little known is that Poe envisioned an even more sophisticated form of the genre Works in this form take an innovative approach allowing the reader rather than a fictional detective to uncover and solve hidden murders In 1844 as the Dupin stories concluded Poe published two lesser known works Thou Art the Man and A Tale of the Ragged Mountains These stories reflect his ambition to engage readers in a game of wits with himself This study endeavors to rise to his challenge and unravel the perfect crimes hidden for nearly two centuries within these tales As we delve deeper another mystery arises What is analysis By examining Dupin s secrets to successful analysis and contrasting them with the failures of the narrators in stories like The Black Cat and The Fall of the House of Usher this book seeks to unlock Poe s fundamental mystery of analysis **Secrecy and Disclosure in Victorian Fiction**

Leila Silvana May, 2016-07-15 Why were the Victorians more fascinated with secrecy than people of other periods What is the function of secrets in Victorian fiction and in the society depicted how does it differ from that of other periods and how did readers of Victorian fiction respond to the secrecy they encountered These are some of the questions Leila May poses in her study of the dynamics of secrecy and disclosure in fiction from Queen Victoria s coronation to the century s end May argues that the works of writers such as Charlotte Bront William Makepeace Thackeray Mary Elizabeth Braddon Edward Bulwer Lytton and Arthur Conan Doyle reflect a distinctly Victorian obsession with the veiling and unveiling of information She argues that there are two opposing vectors in Victorian culture concerning secrecy and subjectivity one presupposing a form of radical Cartesian selfhood always remaining a secret to other selves and another showing that nothing can be hidden from the trained eye May calls the relation between these clashing tendencies the dialectics of secrecy and disclosure May s theories of secrecy and disclosure are informed by the work of twentieth century social scientists She emphasizes Georg Simmel s thesis that sociality and subjectivity are impossible without secrecy and Erving Goffman s claim that sociality can be understood in terms of performativity the presentation of the self in everyday life and his revelation that performance always involves disguise hence secrecy May s study offers convincing evidence that secrecy and duplicity in contrast to the Victorian period s emphasis on honesty and earnestness emerged in response to the social pressures of class gender

monarchy and empire and were key factors in producing both the subjectivity and the sociality that we now recognize as Victorian

The House of Fiction as the House of Life Francesca Saggini, Anna Enrichetta Soccio, 2020-05-15 In recent years the interest in the house has grown irresistibly to the point that in many ways houses seem to be situated at the very core of the creative artistic and cultural domains of contemporaneity Their presence sprawls across the media from magazines to TV programmes and across the globe possibly because as repositories of the human houses have a long standing and profound connection not only with men and women but at a deeper level with the ways of representing man s world across its declinations of gender class and race Houses the perennial ubiquitous and silent background to our daily lives could many a tale unfold the tales of their inhabitants and in their relationships with others of the times they lived in of their configurations of the world as well as the visions and nightmares of the artists who created them This collection offers a comprehensive and transdisciplinary look at the paper houses of English Literature in the eighteenth and nineteenth century Among the configurations addressed the authors investigate the domestic spatialization of authority gendered houses narratives of household construction and deconstruction exotic mansions fin de si cle habitats haunted edifices and houses in detective and Gothic fiction

ReAction! Mark A. Griep, Marjorie L. Mikasen, 2009-08-12 ReAction gives a scientist s and artist s response to the dark and bright sides of chemistry found in 140 films most of them contemporary Hollywood feature films but also a few documentaries shorts silents and international films Even though there are some examples of screen chemistry between the actors and of behind the scenes special effects this book is really about the chemistry when it is part of the narrative It is about the dualities of Dr Jekyll vs inventor chemists the invisible man vs forensic chemists chemical weapons vs classroom chemistry chemical companies that knowingly pollute the environment vs altruistic research chemists trying to make the world a better place to

live and finally about people who choose to experiment with mind altering drugs vs the drug discovery process Little did Jekyll know when he brought the Hyde formula to his lips that his personality split would provide the central metaphor that would come to describe chemistry in the movies This book explores the two movie faces of this supposedly neutral science Watching films with chemical eyes Dr Jekyll is recast as a chemist engaged in psychopharmaceutical research but who becomes addicted to his own formula He is balanced by the often wacky inventor chemists who make their discoveries by trial and error

Gothic Reflections Peter Garrett, 2018-08-06 The Gothic has long been seen as offering a subversive challenge to the norms of realism Locating both Gothic and mainstream Victorian fiction in a larger literary and cultural field Peter K Garrett argues that the oppositions usually posed between them are actually at work within both He further shows how by offering alternative versions of its stories nineteenth century Gothic fiction repeatedly reflects on narrative force the power exerted by both writers and readers Beginning with Poe s theory and practice of the Gothic tale as an exercise or fantasy of authorial power Garrett then reads earlier eighteenth century and Romantic Gothic fiction for comparable reflexive implications Throughout he stresses the ways authors doubled both characters and narrative perspectives to raise issues of power and authority in the tension between central deviant figures and social norms Garrett then shows how the great nineteenth century monster stories Frankenstein Dr Jekyll and Mr Hyde and Dracula self consciously link the extremity and isolation of their deviant figures with the social groups they confront These narratives he argues move from a Romantic concern with individual creation and responsibility to a Victorian affirmation of social solidarity that also reveals its dependence on the binding force of exclusionary violence The final section of the book extends its investigation of Gothic reflections on narrative force into the more realistic social and psychological fiction of Dickens Eliot and James

New England Beyond Criticism Elisa New, 2014-06-03 NEW ENGLAND BEYOND CRITICISM Elisa New s book is a remarkable achievement It is very rare that a critic manages to ask what seem exactly the right questions then to answer them in a lively brilliant evocative and supremely intelligent prose Charles F Altieri University of California Elisa New is a refreshing voice among critics and historians of literature She has a keen sense of the nature of New England and its deep spiritual resources reaching back to the Puritans moving through the great nineteenth century expressions of interior landscapes and visions This is a book I welcome and celebrate Jay Parini Middlebury College Literary criticism of the past thirty years has undercut what the canonizers of the nineteenth and early twentieth centuries saw as the fundamental role of early New England in the development of American literary culture And yet a determination in literary circles to topple perceived Ivy League elitism and Protestant cultural creationism overlooks the continuing value beauty and even practical utility of a canon still cherished by lay readers around the world This Manifesto raises questions about how academic specialization and the academic study of New England have affected enthusiasm for reading Using a range of interpretive practices including those most often deployed by contemporary academic critics Elisa New cuts across firmly established subfields mixing literary exegesis with

autobiographical reflection close reading with cultural history archival and antiquarian inquiry with experiments in style and lays bare editorial orthodoxies raising to question the whole hierarchy of values now governing the study of American and other literatures Taking New England as a test case for a wider more accessible set of critical practices New England Beyond Criticism demands that the domain of literary study be opened further to the tastes of the general reader **Masterpieces of Philosophical Literature** Thomas L. Cooksey III, 2006-03-30 Some works of philosophy also stand as significant contributions to literature and some works of literature have profoundly influenced philosophy Written expressly for high school and college students this reference insightfully introduces ten widely studied works of philosophical literature Individual chapters discuss Plato's Republic Augustine's Confessions Dante's Divine Comedy More's Utopia Voltaire's Candide Goethe's Faust Kierkegaard's Either/Or Nietzsche's Thus Spoke Zarathustra Huxley's Brave New World and Borges Labyrinths An introductory chapter considers such issues as the nature of philosophical literature and the volume closes with a selected general bibliography Despite Plato's banning of poets from the ideal community some works of philosophy also stand as significant contributions to literature and some works of literature have profoundly influenced philosophy Such works have the power to challenge provoke and move the reader and they upset complacent assumptions and demand new thinking They also draw on the resources of language and literature to explore enduring issues Written expressly for high school and college students this reference conveniently introduces ten widely studied works of philosophical literature

Kim, 2020-05-25 To read a crime novel today largely simulates the exercise of reading newspapers or watching the news The speed and frequency with which today's bestselling works of crime fiction are produced allow them to mirror and dissect nearly contemporaneous socio-political events and conflicts This collection examines this phenomenon and offers original critical essays on how national identity appears in international crime fiction in the age of populism and globalization These essays address topics such as the array of competing nationalisms in Europe Indian secularism versus Hindu communalism the populist rhetoric tinged with misogyny or homophobia in the United States racial religious or ethnic others who are sidelined in political appeals to dominant native voices and the increasing economic chasm between a rich and poor More broadly these essays inquire into

themes such as how national identity and various conceptions of masculinity are woven together how dominant native cultures interact with migrant and colonized cultures to explore insider outsider paradigms and identity politics and how generic and cultural boundaries are repeatedly crossed in postcolonial detective fiction
