Mystical Christianity Beyond Doctrine Beyond D:

Beyond Mysticism James R. Horne, 2006-01-01 This study of the meaning and the experience of mysticism is a product of the author's personal interest in mysticism and his reflection as a philosopher on some of the philosophical questions raised by mysticism. It is a psychological process which occurs with varying degrees of intensity in everyone's life and the observation that this process changes the experiencer. The author goes on to discuss such questions as: Can we define mysticism and Can we describe mystical experiences? Is mysticism rational and What is the meaning of mystical experience?

Venturing Beyond - Law and Morality in Kabbalistic Mysticism Elliot R. Wolfson, 2006-05-25 Are mysticism and morality compatible or at odds with one another? If mystical experience embraces a form of non-dual consciousness then in such a state of mind the regulative dichotomy so basic to ethical discretion would seemingly be transcended and the very foundation for ethical decisions undermined. *Venturing Beyond Law and Morality in Kabbalistic Mysticism* is an investigation of the relationship of the mystical and moral as it is expressed in the particular tradition of Jewish mysticism known as the Kabbalah. The particular themes discussed include the denigration of the non-Jew as the ontic other in kabbalistic anthropology and the eschatological crossing of that boundary anticipated in the institution of religious conversion, the overcoming of the distinction between good and evil in the mystical experience of the underlying unity of all things, divine suffering and the ideal of spiritual poverty as the foundation for transmoral ethics and hypernomian lawfulness. **Beyond**

Literary Theory Eduard Hugo Strauch, 2001 *Beyond Literary Theory* is not representative of any particular school of criticism. Its purpose is to demonstrate the scope and limits of critical theories based on logic, scientism and psychoanalysis. Eduard H. Strauch allows readers to explore beyond literary theory to discover dimensions of human experience that define timeless literature.

Beyond Physicalism Edward F. Kelly, Adam Crabtree, Paul Marshall, 2015-02-19 The rise of modern science has brought with it increasing acceptance among intellectual elites of a worldview that conflicts sharply both with everyday human experience and with beliefs widely shared among the world's great cultural traditions. Most contemporary scientists and philosophers believe that reality is at bottom purely physical and that human beings are nothing more than extremely complicated biological machines. On such views, our everyday experiences of conscious decision making, free will and the self are illusory, by-products of the grinding of our neural machinery. It follows that mind and personality are necessarily extinguished at death and that there exists no deeper transpersonal or spiritual reality of any sort. *Beyond Physicalism* is the product of an unusual fellowship of scientists and humanities scholars who dispute these views. In their previous publication *Irreducible Mind* they argued that physicalism cannot accommodate various well-evidenced empirical phenomena including paranormal or psi phenomena, postmortem survival and mystical experiences. In this new theory-oriented companion volume they go further by attempting to understand how the world must be constituted in order that these rogue phenomena can occur. Drawing upon empirical science, metaphysical philosophy and the mystical traditions, the

authors work toward an improved big picture of the general character of reality one which strongly overlaps territory traditionally occupied by the world's institutional religions and which attempts to reconcile science and spirituality by finding a middle path between the polarized fundamentalisms religious and scientific that have dominated recent public discourse

Changing the Scientific Study of Religion: Beyond Freud? Jacob A. v. van Belzen, 2009-06-18 The psychoanalytic approach to religion has changed radically during the course of the twentieth century In both clinical and theoretical work in psychoanalysis developments have taken place that frequently are not noted by persons who assume that all that can be said has been said by Freud The study of religious phenomena persons events and traditions has always been a substantial part of applied psychoanalysis and here also major developments have taken place It is no exaggeration to state that the scientific study of religion has been revolutionized by the integration of psychological perspectives including the field of psychoanalysis This volume differs from other recent publications on the topic of psychoanalysis and religion in drawing upon the entire field of psychoanalytic involvement with religion It is interdisciplinary in approach and unlike other books on the topic brings together an exceptional combination of theoretical empirical and clinical studies No other book provides integrated examples of all three types of work

Mystical Theology and Continental Philosophy David Lewin, Simon D. Podmore, Duane Williams, 2017-05-18 Exploration of the interface between mystical theology and continental philosophy is a defining feature of the current intellectual and even devotional climate But to what extent and in what depth are these disciplines actually speaking to one another or even speaking about the same phenomena This book draws together original contributions by leading and emerging international scholars delineating emerging debates in this growing and dynamic field of research and spanning mystical and philosophical traditions from the ancient to the medieval modern and contemporary At the heart of which lies Meister Eckhart perhaps the single most influential Christian mystic for modern times The book is organised around significant historical and contemporary figures who speak across the intersections of philosophy and theology offering new insights into key interlocutors such as Pseudo Dionysius Augustine Isaac Luria Eckhart Hegel Heidegger Marion Kierkegaard Deleuze Laruelle and i ek Designed both to contribute to current trends in mystical theology and philosophy and elicit dialogue and debate from further afield this book speaks within an emerging space exploring the retrieval of the mystical within a post secular context

Revisioning Transpersonal Theory Jorge N. Ferrer, 2001-10-19 In his striking debut Jorge N Ferrer deconstructs and reconstructs the entire transpersonal project articulating a more sophisticated pluralistic and spiritually grounded transpersonal theory He brings recent ideas in epistemology and the philosophy of science to bear upon core issues in the psychology and philosophy of religion The book's first half Deconstruction describes the nature and origins of the prevailing vision that has guided transpersonal scholarship so far and identifies some of its main conceptual and

practical limitations subtle Cartesianism spiritual narcissism intrasubjective empiricism and reductionistic universalism In the second half of the book *Reconstruction* Ferrer suggests a way of reconceiving transpersonal ideas without these limitations a participatory vision of human spirituality one which not only places transpersonal studies in greater alignment with the values of the spiritual quest but also discloses a rich variety of spiritual liberations spiritual worlds and even ultimate realities

Christian Mysticism and Incarnational Theology Louise Nelstrop, Simon D. Podmore, 2016-05-23 This book examines the relationship between transcendence and immanence within Christian mystical and apophatic writings Original essays from a range of leading established and emerging scholars in the field focus on the roles of language signs and images and consider how mystical theology might contribute to contemporary reflection on the Word incarnate This collection of essays re-examines works from such canonical figures as Eckhart Augustine Plotinus Pseudo Dionysius Nicolas of Cusa Teresa of Avila John of the Cross Julian of Norwich along with the philosophical thought of Iris Murdoch Jacques Lacan and Martin Heidegger and the contemporary phenomena of the Emerging Church Presenting new readings of key ideas in mystical theology and renewed engagement with the visionary and the everyday the therapeutic and the transformative these essays question how we might think about what may lie between transcendence and immanence

A God Beyond Belief Lance Moore, 2019-12-14 Something Has Gone Terribly Wrong We face a spiritual crisis but the extremes of religious fundamentalism on one hand and scientific atheism on the other offer no cure Scepticism is soaring especially among Millennials Daily we read of scandals among our politicians priests and Hollywood stars Mass shootings are epidemic yet entertainment media glorifies violence Drugs not religion as Karl Marx claimed are now the opiate of the masses Christian TV preachers use donations to purchase private jets and mansions while children starve The White House has claimed that Truth is not the truth Our leaders and institutions have lost all moral authority A common religious response to crisis is to thump the Bible harder and louder This book challenges us to go beyond a simple childish belief Dr Lance Moore offers an intelligent faith rooted in a respect for Scripture while taking a fresh look at calcified orthodoxies He invites readers to embrace paradox in Spirituality and in Science to rediscover God for our Quantum Age

Beyond Pentecostalism Wolfgang Vondey, 2010-09-23 The Pentecostal Manifestos series aims to speak for and to a rising outward looking generation of Pentecostal scholarship Written by both established and newly emerging scholars the various manifesto volumes are to be creative statements marked by rigorous theological scholarship reflecting a distinctly Pentecostal engagement with wider themes and concerns in Christian thought today

God Beyond Words Jill Harshaw, 2016-07-01 Responding to the view that people with profound intellectual disabilities cannot enjoy spiritual experiences this book pushes the boundaries of intellectual disability theology Thought provoking and sensitive this book poses important questions about the nature of faith and how the Church treats people with intellectual disabilities

Beyond Secularism and Jihad? Peter D. Beaulieu, 2012-07-13 Peter D Beaulieu examines the challenge posed by and to modernity and historic Islam as they encounter one another He compares the Western separation of Church and state with the unitary Islamic State and explores the proposed cultural and societal principles of the Second Vatican Council as potentially influencing long term events in both arenas Beaulieu s research is comprehensive and richly documented yet offers an accessible triangular inquiry into the mosque the manger and modernity By restoring a place at the table for Trinitarian Christianity alongside the engulfing monotheism of Islam and the alternative skepticism of Western rationalism this inquiry broadens the pallet of inter religious and intercultural contact points Beyond Secularism and Jihad provides balanced attention to the differences as well as the similarities between Christianity Islam and modernity An emerging theme is natural law which is universal and intrinsic to all mankind and not confined to competing theologies Neglected in the West that it helped create natural law might contribute to the needed grammar for dialogue between the citizens in the West and the followers of Islam

Exploring Lost Dimensions in Christian Mysticism Louise Nelstrop, Simon D. Podmore, 2016-04-15 Mystical theology has developed through a range of meanings from the hidden dimensions of divine significance in the community s interpretation of its scriptures to the much later science of the soul s ascent into communion with God The thinkers and questions addressed in this book draws us into the heart of a complicated beautiful and often tantalisingly unfinished conversation continuing over centuries and often brushing allusively into parallel concerns in other religions Raising fundamental matters of epistemology representation metaphysics and divine reality contributors approach the mystical from postmodern feminist sociological and historical perspectives through thinkers such as Meister Eckhart Thomas Aquinas Catherine of Siena Ignatius of Loyola William James Evelyn Underhill Ernst Troeltsch Rudolf Otto Jacques Derrida Jean Luc Marion and Jean Louis Chr tien Medieval and early modern radical prophetic approaches are also explored This book includes new essays by Sarah Apetrei Tina Beattie Raphel Cadenhead Oliver Davies Philip Endean Brian FitzGerald Ann Loades George Pattison Simon D Podmore Joel D S Rasmussen and Johannes Zachhuber

Beyond Death D. Cohn-Sherbok, C. Lewin, 1995-03-01 In a book of such varied contents it is certain that everyone will find something which will challenge and inform and indeed on occasion inspire John Bowker Church Times Throughout history human beings have been

preoccupied with personal survival after death As a consequence most world religions proclaim that life continues beyond the grave and they have depicted the Hereafter in a variety of forms These various conceptions constitute answers to the most perplexing spiritual questions Will we remember our former lives in the Hereafter Will we have bodies Can bodiless souls recognize each other Will we continue to have personal identity Will we be punished or rewarded or absorbed into the Godhead These issues serve as the basis of this collection of essays which provide a framework for understanding traditional conceptions of the Hereafter as well as new perspectives

Modern Buddhist and Christian Mysticism Charles M. Mueller, Peter Richardson, 2025-03-01 Investigations of mysticism often focus on the past while largely ignoring current developments This book contributes to a reversal of that trend with a rigorous examination of a wide selection of contemporary Buddhist and Christian authors The focus is on the intriguing intersections and subtle divergences now emerging in areas such as ineffability nonconceptuality paradox inverted agency unity and self dissolution The analysis combines the theoretical framework of Cognitive Linguistics with a range of methodological approaches from discourse and thematic analysis to corpus linguistics Wide ranging systematic and informative the book is invaluable to all of those interested in the phenomenon of mysticism within the modern world

Beyond Catholicism Fabrizio De Donno, S. Gilson, 2013-12-18 The essays within Beyond Catholicism trace the interconnections of belief heresy and mysticism in Italian culture from the Middle Ages to today In particular they explore how religious discourse has unfolded within Italian culture in the context of shifting paradigms of rationality authority time good and evil and human collectivities

Beyond Phenomenology Gavin Flood, 1999-10-01 This book argues that the understanding and explanation of religion is always historically contingent Grounded in the work of Bakhtin and Ricoeur Flood positions the academic study of religion within contemporary debates in the social sciences and humanities concerning modernity and postmodernity particularly contested issues regarding truth and knowledge It challenges the view that religions are privileged epistemic objects argues for the importance of metatheory and presents an argument for the dialogical nature of inquiry The study of religion should begin with language and culture and this shift in emphasis to the philosophy of the sign in hermeneutics and away from the philosophy of consciousness in phenomenology has far reaching implications It means a new ethic of practice which is sensitive to the power relationship in any epistemology it opens the door to feminist and postcolonial critique and it provides a methodology which allows for the interface between religious studies theology and the social sciences

Invoking the Beyond: Paul D. Collins, Phillip D. Collins, 2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers

who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond
