## **Myth And History In The Of Revelation:**

*Myth and History in the Book of Revelation* John M. Court, 1979      The Book of Revelation Leonard L. Thompson, 1997-02-13 About seventy years after the death of Jesus John of Patmos sent visionary messages to Christians in seven cities of western Asia Minor These messages would eventually become part of the New Testament canon as The Book of Revelation What was John's message What was its literary form Did he write to a persecuted minority or to Christians enjoying the social and material benefits of the Roman Empire In search of answers to these penetrating questions Thompson critically examines the language literature history and social setting of the Book of the Apocalypse Following a discussion of the importance of the genre apocalypse he closely analyzes the form and structure of the Revelation its narrative and metaphoric unity the world created through John's visions and the social conditions of the empire in which John wrote He offers an unprecedented interpretation of the role of boundaries in Revelation a reassessment of the reign of the Emperor Domitian and a view of tribulation that integrates the literary vision of Revelation with the reality of the lives of ordinary people in a Roman province Throughout his study Thompson argues that the language of Revelation joins the ordinary to the extra ordinary earth to heaven and local conditions to supra human processes      Myth, History, and Metaphor in the Hebrew Bible Paul K.-K. Cho, 2019-02-07 This book examines the long debated issue of the relationship between the Hebrew Bible and ancient Near Eastern myths Using an innovative interdisciplinary methodology that combines theories of metaphor and narrative Paul Cho argues that the Hebrew Bible is more deeply mythological than previously recognized Because the Hebrew Bible contains fragments of the sea myth but no continuous narrative the study of myth in the Hebrew Bible is usually circumscribed to the level of motifs and themes Cho challenges this practice and demonstrates that the Hebrew Bible contains shorter and longer compositions studded with imagery that are structured by the plot of sea myths Through close analysis of key Near Eastern myths and biblical texts Cho shows that myth had a more fundamental influence on the plot structure and conceptual framework of the Hebrew Bible than has been recognized      **Jewish Apocalyptic and Its History** Paolo Sacchi, 1996-12-01 This translation of *L'apocalittica giudaica e la sua storia* makes Professor Sacchi's expertise on Jewish apocalyptic available to a wider English reading audience Sacchi argues for a more precise literary and historical definition of apocalyptic focusing on the material of 1 Enoch      **Myth and History** Jean Holm, John Bowker, 1994 Considerable work has been done on the European exploration of myth first in the Renaissance and then in the nineteenth century This book covers an area that is new territory by looking at ways in which this work can contribute to an understanding of the primacy of myth in religious life The authors examine the idea of mythistory the complex relationship in religions between myth and history and explore the different ways in which religious storytelling is related to the particular enterprise of storytelling that is called history      World Myth or History? J.G. Cheock, 2017-10-02 World myth deciphered and organized into a coherent story of our past It is almost impossible to read world mythology without noticing common

threads and patterns that seem to paint a bigger picture A story told by our ancient ancestors for future generations to remember and learn What if the eyewitnesses to past events were taken seriously What if we listen to their stories with unbiased ears free of assumptions What if their stories were backed up by scientific discoveries What if the myths can explain the mysteries [The Divine Revelation](#) Karl August Auberlen,1867 [Christology and Myth in the New Testament](#) Geraint Vaughan Jones,2025-03-01 Christology and Myth in the New Testament 1956 enquires into the extent and origin of the mythological language and ideas underlying the Christology of the New Testament It examines the demythologizing principles and refers to the existential method of reinterpreting those New Testament concepts which are bound up with Hellenistic thought forms and the cosmology of the ancient world while also exploring other philosophical and theological interpretations It considers that the mythical Christology of the New Testament writers should be understood poetically and metaphorically rather than as consisting of objective statements about Jesus and his place in creation The final section of the book is a defence of the retention of mythical concepts and language as psychologically and theologically necessary expressions of a religious faith which cannot be adequately expressed in merely propositional form **Leo Strauss on the Borders of Judaism, Philosophy, and History** Jeffrey A. Bernstein,2015-05-05 Explores how the thought of Leo Strauss amounts to a model for thinking about the connection between philosophy Jewish thought and history In Leo Strauss on the Borders of Judaism Philosophy and History Jeffrey A Bernstein explores how the thought of Leo Strauss amounts to a model for thinking about the connection between philosophy Jewish thought and history For Bernstein Strauss shows that a close study of the history of philosophy from the ancients to medievals to moderns is necessary for one to appreciate the fundamental distinction between the forms of life Strauss terms Jerusalem and Athens that is order through revealed Law and free philosophical thought respectively Through an investigation of Strauss s published texts examination of his intellectual biography and history and making use of correspondence archival materials and seminar transcripts Bernstein shows how Strauss s concern with the relation between Judaism and philosophy spanned his entire career His findings will be of use to those interested in the thought of Strauss the history of Jewish thought and the relation between religion philosophy and politics **The Origins of Demythologizing** Johnson,2018-08-14 Preliminary Material Roger A Johnson The Enigma of Demythologizing Roger A Johnson The Philosophical Origins of Demythologizing Marburg Neo Kantianism Roger A Johnson The Religionsgeschichtliche Formulation of Myth Roger A Johnson The Enlightenment Formulation of Myth Roger A Johnson The Existentialist Formulation of Myth Roger A Johnson Demythologizing as a Synthetic Construct Roger A Johnson Bibliography Roger A Johnson Name Index Roger A Johnson Subject Index Roger A Johnson [History as a Theological Issue](#) Nico T. Bakker,2019-05-21 These days no one believes in the redemptive essence of history Lyotard The individual of today lives without culture history social engagement and moral norms Lasch It is in this intellectual climate that History as a Theological Issue has been written Nico Bakker analyses seminal conceptions of history from the past and

from our day and compares them with the newest notions of history in biblical and systematic theology In so doing he engages in conversation with thinkers from Augustine to Popper along with many others His thinking is informed in particular by the work of Barth Pannenberg and the Dutch reformed theologians Miskotte and Breukelman Of central significance is his ability to apply basic theological notions to culture In this way he connects the present day crisis of culture with the permanent alienation of church and Christianity from its own origins in the scriptures Now that since the 1950s a new awareness structure is beginning to emerge Gebser the author considers that theology is in need of a radical rethink History as a Theological Issue is written primarily for theologians historians biblical critics and philosophers of religion and is recommended reading for all who are seriously interested in the present day crisis of culture and in the widespread alienation from the Bible Church and Christianity

**The Continuum History of Apocalypticism** Bernard McGinn, John J. Collins, Stephen Stein, 2003-10-01 Apocalypticism has been the source of hope and courage for the oppressed but has also given rise on many occasions to fanaticism and intolerance The essays in this volume seek neither to apologize for the extravagance of apocalyptic thinkers nor to excuse the perverse actions of some of their followers Rather they strive to understand a powerful perhaps even indispensable element in the history of Western religions that has been the source of both good and evil and still is yet today The Editors The Continuum History of Apocalypticism is a 1 volume select edition of the 3 vol Encyclopedia of Apocalypticism first published in 1998 The main historical surveys that provided the spine of the Encyclopedia have been retained while essays of a thematic nature and a few whose subject matter is not central to the historical development have been omitted The work begins with 8 articles on The Origins of Apocalypticism in the Ancient World extending from ancient Near Eastern myth through the Old Testament to the Dead Sea Scrolls Jesus Paul and the Book of Revelation Next are 7 articles on Apocalyptic Traditions from Late Antiquity to ca 1800 C E including early Christian theology radical movements in the Middle Ages and both Jewish and Islamic apocalypticism in the classic period The final section Apocalypticism in the Modern Age includes 10 articles on apocalypticism in the Americas in Western and Eastern Europe and finally in modern Judaism and modern Islam

Outlines of a Philosophy of Religion Based on Psychology and History Auguste Sabatier, 1902

Absolute in History, The Kasper, Walter, 2018 Walter Kasper explains that the interest of theology has been broken off by idealistic thinking and advocates a new discussion between theology and idealism of the fundamental importance of the theology of the twentieth century

**Roots of Relational Ethics** R. Melvin Keiser, 1996 H Richard Niebuhr s major work which he did not live to complete was to be on theological ethics Based on the published and unpublished writings that Niebuhr completed during the last decade of his life Roots of Relational Ethics demonstrates that Niebuhr s conception of responsibility was the culmination of his thought about self God Christ the church ethics and decision making and social evil R Melvin Keiser examines the limitations and potential of Niebuhr s use of responsibility in comparison with relevant themes in liberation and feminist theological ethics He suggests that Niebuhr s mature work can

contribute to the alleviation of environmental exploitation sexism anti Judaism war racism and classism      Berdyaev's Philosophy of History David Bonner Richardson,2012-12-06 BERDYAEV AS A PHILOSOPHER How shall a non Russian above all a North American assimilate the extraordinary assemblage of ideas which is Berdyaev s philosophy Dr Richardson does not exaggerate the difficulties And he introduces us with great care and what a formidable task it must have been precisely to what is most strange in this writer his fusion of historical eschatological metaphysical mystical Christian conceptions By some standards Berdyaev is a theologian rather than a philosopher for he takes the truth of the Christian revelation for granted and his work can readily be viewed as an elaborate apologetic for one religion against all others and against irreligion Yet I incline to sympathize with him in his claim to be a philosopher What an eccentric one however There are indeed some partial analogies in the general European tradition Certainly this Russian is a disciple of Kant and strong traces of Kantianism survive in him He also moved away from Kant somewhat as did Fichte Hegel and above all Schelling in his last period His sympathetic response to Heracleitos and Boehme recalls Hegel The interest in Boehme and Schelling is found also in Tillich Like the late German American Berdyaev rejects conceptual in favor of symbolic speech about God Like Bergson he stresses intuition and makes a radical distinction between scientific logical analytic thought and the mode of apprehension by which he believes metaphysical truth is to be appropriated Here one thinks also of Heidegger      Art, Myth and Deviance Shlomo Giora Shoham,2008-12-18 Myths have long been considered the prime linkage between nature and culture but we hold that they are more than this The mythogene which is our conceptualization of a connecting structure links subject and object history and transcendence but above all is the blueprint for creativity The volume deals therefore with the innovative conception of the author as to the process of creativity Van Gogh had a revelation as to how the whirling cypresses and dancing stars would look at night These structures which contain a complementarity between his experiences and longings are then ingrained in the artistic medium Since his artistic efforts were authentic his ecstatic in the Greek sense state of mind extricated itself from diachronic history and soared onto synchronic eternity This is how we perceive his work as fresh exhilarating and meaningful as if painted today it is the communication within eternity of authentic art from artist to audience The volume also presents a classification of types of artists as related to their art and presents and innovative theory as to the link between madness and creativity      **Encyclopedia of Theology** Karl Rahner,1975-01-01 An essential and reliable reference work and manual of the Christian faith this book provides both students and interested readers with a basic text presenting the findings of modern scholarly thought and research Ecumenical in spirit and approach no responsible and inquiring Christian can afford to be without it      **Divining History** Jayne Svenungsson,2016-08-01 For millennia messianic visions of redemption have inspired men and women to turn against unjust and oppressive orders Yet these very same traditions are regularly decried as antecedents to the violent and authoritarian ideologies of modernity Informed in equal parts by theology and historical theory this book offers a provocative exploration of this double edged

legacy Author Jayne Svenungsson rigorously pursues a middle path between utopian arrogance and an enervated postmodernism assessing the impact of Jewish and Christian theologies of history on subsequent thinkers and in the process identifying a web of spiritual and intellectual motifs extending from ancient Jewish prophets to contemporary radicals such as Giorgio Agamben and Slavoj Žižek *The Origins and Early Development of the Antichrist Myth* Gregory C.
