Myth Of The Market Promises And Illusions:

The Myth of the Market Jeremy Seabrook, 1990 **The Accumulation of Freedom** Anthony Nocella II, Deric Shannon, John Asimakopoulos, 2012-01-10 Who says economic science is dismal Anarchists investigate an economics beyond capitalism A Commodified World Colin C. Williams, 2005-03-04 This volume provides a critique of the assumption of increasing commodification in the modern economy *Intending the World* Ralph Pettman, 2008 How we look at the world is informed mainly by our assumptions and the ways in which we rationalise them Seldom do we rely or allow ourselves to rely on gut thinking or intuition *Intending the World* shows how rationalism which is our primary approach in thinking about world affairs is in crisis By studying the world rationalistically we objectify it and we look at it as detached from ourselves But in doing so we cease to see that we are using a perspective that limits as well as enlightens In a disciplinary first Ralph Pettman provides an account of twenty first century international relations in terms of phenomenology one of the main philosophical attempts to compensate for these limits He explores how this re embedded use of reason can successfully describe and explain world affairs in ways unused by rationalists *Intending the World* follows the lead of the German philosopher Edmund Husserl It looks at the world not only in terms of things in themselves but also in terms of why it is we keep willing the world the way we do **The Oxford Handbook of Transnational Feminist Movements** Rawwida Baksh, Wendy Harcourt, 2015-03-25 The Oxford Handbook of Transnational Feminist Movements explores the historical political economic and social contexts in which transnational feminist movements have emerged and spread and the contributions they have made to global knowledge power and social change over the past half century The publication of the handbook in 2015 marks the fortieth anniversary of the United Nations International Women s Year the thirtieth anniversary of the Third World Conference on Women held in Nairobi the twentieth anniversary of the Beijing Declaration and Platform for Action and the fifteenth anniversaries of the Millennium Development Goals and of UN Security Council Resolution 1325 on women peace and security The editors and contributors critically interrogate transnational feminist movements from a broad spectrum of locations in the global South and North feminist organizations and networks at all levels local national regional global and glocal wider civil society organizations and networks governmental and multilateral agencies and academic and research institutions among others The handbook reflects candidly on what we have learned about transnational feminist movements What are the different spaces from which transnational feminisms have operated and in what ways How have they contributed to our understanding of the myriad formal and informal ways in which gendered power relations define and inform everyday life To what extent have they destabilized or transformed the global hegemonic systems that constitute patriarchy From a position of fifty years of knowledge production activism working with institutions and critical reflection the handbook recognizes that transnational feminist movements form a key epistemic community that can inspire and provide leadership in shaping political spaces and institutions at all levels and transforming international

political economy development and peace processes The handbook is organized into ten sections each beginning with an introduction by the editors The sections explore the main themes that have emerged from transnational feminist movements knowledge theory and praxis organizing for change body politics health and well being human rights and human security economic and social justice citizenship and statebuilding militarism and religious fundamentalisms peace movements UNSCR 1325 and postconflict rebuilding feminist political ecology and digital age transformations and future trajectories

The Case Against the Global Economy Jerry Mander, 2014-02-25 The greatest political debate of our time is about the blind rush towards a single global economy its consequences for jobs democracy human well being and cultural diversity and its impact on the natural world that sustains us Its effects will be profound and irreversible but globalization itself is not inevitable In *The Case Against the Global Economy* 24 leading economic agricultural cultural and environmental authorities drawn from across the world argue that free trade and economic globalization are producing exactly the opposite results to those promised From a detailed analysis of the new global economy its structures and its full social and ecological implications they show how it is undermining our liberty our security and our well being and is devastating the planet First published in the USA in 1996 in an edition focused on North America the book won the American Political Science Association award for the Best Book in Ecological and Transformational Politics This completely revised and updated international edition presents a passionate and persuasive case for the need to reverse course away from globalization and towards a revitalized democracy local self sufficiency and ecological health

Economic Globalisation as Religious War Michael McKinley, 2007-06-28 Using a critical theory approach to analyze the globalization of the world economy this provocative and topical new book presents economic globalization not as a recent development but rather as a familiar process that has occurred throughout history Michael McKinley argues that it is ultimately a self serving arbitrary and destructive imperial project that should be viewed as a religious war

Concepts of Capital Jacek Tittenbrun, 2017-07-05 Borrowing terminology from the economic discipline specifically the concept of capital has led to an abundance of new terms in the social sciences human capital social capital and cultural capital to name the most prominent representatives on an ever growing list In this interdisciplinary transaction the concept is borrowed and the original meaning extended until the new concepts often have nothing left in common with their initial referents Here Jacek Tittenbrun offers a critical analysis of human social and cultural capital on the basis of their uses and misuses across a wide range of social sciences simultaneously revealing the source of conceptual diffusion in the real world He presents a two pronged analysis of an intellectual fashion popular in the social sciences and offers a critical analysis of a range of concepts constructed around the common core of capital The analysis is innovative as it is underpinned by a theoretical framework rooted in economic sociology and the concept of ownership in particular The approach is one of the sociology of knowledge coupled with a

substantive critique application of the given concepts The volume reveals a range of processes in the real world that account for the conceptual diffusion The general reader will be drawn to the discussion in the second half of the book a study of a variety of relatable real life situations that illuminate privatization and commodification in our lives The Oxford Handbook of Transnational Feminist Movements Daniel Beland, Christopher Howard, Kimberly J. Morgan, 2015-02-25 The American welfare state has long been a source of political contention and academic debate This Oxford Handbook pulls together much of our current knowledge about the origins development functions and challenges of American social policy After the Introduction the first substantive part of the handbook offers an historical overview of U S social policy from the colonial era to the present This is followed by a set of chapters on different theoretical perspectives available for understanding and explaining the development of U S social policy The three following parts of the volume focus on concrete social programs for the elderly the poor and near poor the disabled and workers and families Policy areas covered include health care pensions food assistance housing unemployment benefits disability benefits workers compensation family support and programs for soldiers and veterans The final part of the book focuses on some of the consequences of the U S welfare state for poverty inequality and citizenship Many of the chapters comprising this handbook emphasize the disjointed patterns of policy making inherent to U S policymaking and the public private mix of social provision in which the government helps certain groups of citizens directly e g social insurance or indirectly e g tax expenditures regulations The contributing authors are experts from political science sociology history economics and other social sciences **Losing Ground** Mark Dowie, 1995 Traces the history of the environmental movement from its beginnings as private clubs to the activism of the 1960s and 1970s to the corporate sellout of the 1990s Unveils the stories behind American environmentalism s undeniable triumphs and its quite unnecessary failures *Alternatives to Economic Globalization* John Cavanagh and Jerry Mander, Mander Jerry, Cavanagh John, 2010-06 The definitive document of the anti corporate globalization movement the consensus report of an alliance of leading activists scholars economists researchers and writers Offers a constructive coherent positive alternative to globalization the very thing that the anti corporate globalization movement is always accused of not putting forward The International Forum on Globalization consists of the leaders of over 60 organizations in 25 countries including such prominent organizations as Friends of the Earth the Third World Network the Sierra Club the Institute for Policy Studies Public Citizen Rainforest Action Network and Food First Written by a premier group of 21 thinkers from around the world the second edition of *Alternatives to Economic Globalization* lays out democratic ecologically sound socially just alternatives to corporate globalization more fully specifically and thoughtfully than has ever been done before Focusing on constructive achievable goals the authors present ten governing principles for establishing truly sustainable societies and describe alternatives to the World Bank the IMF and the WTO that would better serve the needs of the planet They offer detailed proposals for protecting vital goods and services from corporate exploitation limiting corporate privileges and power

rebuilding economies to make them more responsive to human needs and more This revised and expanded edition features a new opening chapter on the global balance of power a new section on the media and globalization and a new final chapter on what ordinary citizens can do to fight the injustices of globalization It also includes many new charts sidebars and other updated information
