*New Culture, New Right* Michael O'Meara, 2013 New Culture New Right is the first English language study of the identitarian movements presently reshaping the contours of European politics The study's focus is Alain de Benoist's GRECE Groupement de Recherche et d'Etude pour la Civilisation Européenne which Paul Piccone of Telos described as the most interesting group of continental thinkers since the existentialists of the 1950s and which elsewhere is seen as the leading school of contemporary Right wing thought Made up of veterans from various nationalist traditionalist far Right and regionalist movements the GRECE began as an association of French intellectuals committed to restoring the crumbling cultural foundations of European life and identity Due to the quality of its publications and its philosophically persuasive reformulation of the Right project it attracted an immediate audience By the late 1970s it had recruited an impressive array of Continental thinkers to its ranks In Italy Germany Belgium and a number of other European countries there have since emerged organizations and publishing concerns either directly linked to the Paris based GRECE or involved in analogous endeavors As a result of these diffusions GRECE style identitarianism has come to form the chief ideological alternative to the regnant liberalism The European New Right to which the GRECE gave birth is new however not

in the modernist sense of being novel but in the traditionalist sense of reappropriating an origin whose meaningful possibilities remain open for realization Such a revolutionary return to Europe's roots has never seemed so urgent After a half century under the liberal democratic regimes imposed by the United States in 1945 Europeans now face extinction as a race and a culture In opposition to the ethnocidal forces of the American Occupation and its European collaborators New Rightists appeal to the primordial in their people's heritage aiming to awake a spirit of resistance and renaissance in them The result as documented in this introduction to their ideas is one of the most formidable critiques ever made of the liberal project Michael O Meara Ph D studied social theory at the cole des Hautes Etudes en Sciences Sociales and modern European history at the University of California He is the author of *Guillaume Faye and the Battle of Europe* 2013 also published by Arktos

*The Spirit of 1914* Jeffrey Verhey, 2000-05-04 This book first published in 2000 is a systematic analysis of German public opinion at the outbreak of the Great War and the first treatment of the myth of the spirit of 1914 which stated that in August 1914 all Germans felt war enthusiasm and that this enthusiasm constituted a critical moment in which German society was transformed Jeffrey Verhey's powerful study demonstrates that the myth was historically inaccurate Although intellectuals and much of the upper class were enthusiastic the emotions and opinions of most of the population were far more complex and contradictory The book further examines the development of the myth in newspapers politics and propaganda and the propagation and appropriation of this myth after the war His innovative analysis sheds light on German experience of the Great War and on the role of political myths in modern German political culture
