Verrall,2015-06-13 Excerpt from Mythology of Monuments of Ancient Athens Being a Translation of a Portion of the Attica Of Pausanias I have tried by the title chosen to express the exact purport of my book Its object is first and foremost to elucidate the Mythology of Athens and with this intent I have examined its Monuments taking Pausanias as a guide I am anxious to make this clear because to produce an adequate arch ological edition even of one book of Pausanias would have been in some respects beyond my scope Such an arch ological commentary would demand a scholar who should be at once philologist topographer epigraphist architect as well as mythologist and mythographist My competence at first hand is confined to the last two branches of classical learning My work as regards the other departments has been rather to weigh the opinions of others than to originate my own The Commentary is addressed not to the professional arch ologist but to the student whose needs I have constantly borne in mind On the other hand in the Mythological Essay I venture to hope the specialist may find material worthy of his criticism As regards this Essay I have laid special stress on three points the first of which at least may be somewhat novel to the English reader First I have dealt specially with vase paintings as sources About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
