Sign Language and Mythology as Primitive Modes of Representation Gerald Massey, 2008-01-01 Myth making Man did not create the Gods in his own image The primary divinities of Egypt such as Sut Sebek and Shu three of the earliest were represented in the likeness of the Hippopotamus the Crocodile and the Lion whilst Hapi was imaged as an Ape Anup as a Jackal Ptah as a Beetle Taht as an Ibis Seb as a Goose So it was the Goddesses They are the likenesses of powers that were super human not human A huge mistake has hitherto been made in assuming that the Myth Makers began by fashioning the Nature Powers in their own human likeness from Sign Language and Mythology as Primitive Modes of Representation It goes unappreciated by modern Egyptologists but it is embraced by those who savor the concept of a hidden history of humanity and those who approach all human knowledge from the perspective of the esoteric Gerard Massey's massive *Ancient Egypt The Light of the World* first published in 1907 and the crowning achievement of the self taught scholar redefines the roots of Christianity via Egypt proposing that Egyptian mythology was the basis for Jewish and Christian beliefs Here Cosimo proudly presents Book 1 of *Ancient Egypt* in which Massey argues that primitive man found no human agency in the phenomena of the natural world which led to a woeful misinterpretation of Egyptian hieroglyphics by the Greeks and Romans as well as a misunderstanding of the essence of Egyptian mythology As a consequence Massey contends a deep fount of wisdom of the ancients has been lost and he goes on to reveal how it can be rediscovered Peculiar and profound this work will intrigue and delight readers of history religion and mythology British author GERALD MASSEY 1828 1907 published works of poetry spiritualism Shakespearean criticism and theology but his best known works are in the realm of Egyptology including *A Book of the Beginnings* and *The Natural Genesis*

The Body of Myth J. Nigro Sansonese, 1994 Long ago the ancestors of the Greeks Romans and Hindus were one people living on the Eurasian steppes At the core of their religion was the shamanic trance a

natural state but one in which consciousness achieves a profound level of inner awareness Over the course of millennia the Indo Europeans divided and migrated into Europe and the Indian subcontinent The knowledge of shamanic trance retreated from everyday awareness and was carried on in the form of myths and distilled into spiritual practices most notably in the Indian tradition of yoga J Nigro Sansonese compares the myths of Greece as well as those of the Judeo Christian tradition with the yogic practices of India and concludes that myths are esoteric descriptions of what occurs within the human body especially the human nervous system during trance In this light the myths provide a detailed map of the shamanic state of consciousness that is our natural heritage This book carries on from the works of Carl Jung and Joseph Campbell to show how the portrayal of consciousness embodied in myth can be extended to a reappraisal of the laws of physics before they are descriptions of the world these laws like myths are descriptions of the human nervous system **Tradition, Principally with Reference to Mythology and the Law of Nations** John Francis Arundell Baron Arundell of Wardour,1872
