Opium Economy In Afghanistan An International Problem:

The Opium Economy in Afghanistan United Nations Office on Drugs and Crime,2003 The present study goes beyond reporting on a single year s production and value It examines Afghanistan s opium economy in order to understand its dynamics the reasons for its success its beneficiaries and victims and the problems it has caused domestically and abroad Executive summary

The Opium Economy in Afghanistan United Nations Office on Drugs and Crime,2003 **United States Policy in Afghanistan** United States. Congress. House. Committee on International Relations,2003 Conflict, Crime, and the State in Postcommunist Eurasia Svante Cornell,Michael Jonsson,2014-02-11 Conflict Crime and the State in Postcommunist Eurasia examines the emergence and evolution of a crime conflict nexus and the relationship between ideologically motivated insurgents and profit motivated criminal organizations in the region

The Quiet Violence of Empire Wesley Attewell,2023-04-11 How the U S empire state transformed post 1945 Afghanistan into a key site for reimagining development Established in 1961 by President Kennedy the United States Agency for International Development USAID is often viewed as an extension of the security state playing a constant role on the ground in Afghanistan since the early sixties The Quiet Violence of Empire traces USAID s long and bloody history of development work in the region revealing an empirically rich account of the transnational entanglements of imperialism and racial capitalism Wesley Attewell carefully analyzes three chronological moments of development as counterinsurgency in action the Helmand Valley Project the Soviet Afghan conflict and the post 9 11 occupation in Afghanistan These case studies expose how USAID s very public commitment to bringing seemingly inclusionary forms of self help technical assistance and market development to Afghanistan has been undergirded by longer standing infrastructures of race war and racial management Attewell exposes how one of the net effects of USAID s development mission to Afghanistan has been to constrain the life chances of Afghan beneficiaries while simultaneously diverting development capital back to U S contractors deftly underscoring the notion of development as a form of slow violence The Quiet Violence of Empire asks the critical question how might we refuse the ruse of USAID and its endlessly deferred promise of development Thinking relationally across the fields of human geography global studies and critical ethnic studies it uncovers the explicitly racial underpinnings of international development theory and praxis

Counterinsurgency in Afghanistan Seth G. Jones,2008 This study explores the nature of the insurgency in Afghanistan the key challenges and successes of the U S led counterinsurgency campaign and the capabilities necessary to wage effective counterinsurgency operations By examining the key lessons from all insurgencies since World War II it finds that most policymakers repeatedly underestimate the importance of indigenous actors to counterinsurgency efforts The U S should focus its resources on helping improve the capacity of the indigenous government and indigenous security forces to wage counterinsurgency It has not always done this well The U S military along with U S civilian agencies and other coalition partners is more likely to be successful in counterinsurgency warfare the more capable and legitimate the indigenous

security forces especially the police the better the governance capacity of the local state and the less external support that insurgents receive

Countering Terrorism and Insurgency in the 21st Century James J. F. Forest, 2007-06-30 The attacks of September 11 2001 inaugurated a new global era of counterterrorism policy and activity led by the United States

Countering Terrorism and Insurgency in the 21st Century analyzes the most significant dimensions of combating terrorism including considerations of strategic and tactical issues hard power soft power and counterintelligence the need to thwart sources and facilitators weak governments ill conceived foreign policy and trafficking in drugs guns and humans and the incorporation of lessons learned thus far from combating terrorism around the globe Since the dawn of the new millennium combating terrorism has become a primary focus of security professionals throughout the world The attacks of September 11 2001 inaugurated a new global era of counterterrorism policy and activity led by the United States while many countries from Algeria and Spain to Sri Lanka and Indonesia have redoubled their efforts to combat their own indigenous terrorism threats In the United States the counterterrorism goals identified in the National Strategy for Combating Terrorism 2006 can only be achieved through significant multinational cooperation These goals are to advance effective democracies as the long term antidote to the ideologies of terrorism to prevent attacks by terrorist networks to deny terrorists the support and sanctuary of rogue states to deny terrorists control of any nation they would use as a base and launching pad for terror and to lay the foundations and build the institutions and structures we need to carry the fight forward against terror and help ensure our ultimate success At this point in the development of the global counterterrorism efforts it is particularly important to pause for reflection on a number of critical questions What do we know about effectively countering terrorism What are the characteristics of successful or unsuccessful counterterrorism campaigns What do we need to learn in order to do this better

Countering Terrorism and Insurgency in the 21st Century addresses these and related questions contributing to national security policy as well as to our understanding of the terrorist threat and how it can be defeated

Volume 1 Strategic and Tactical Considerations examines issues of hard power soft power and intelligence counterintelligence

Volume 2 Sources and Facilitators covers state failure border controls democracy promotion networks and trade and trafficking and societal issues

Afghanistan's Drug Industry Doris Buddenberg, William A. Byrd, 2006 Afghanistan's drug industry is a central issue for the country's state building security governance and development agenda

Impact of Market Forces on Addictive Substances and Behaviours David Miller, Claire Harkins, Matthias Schlögl, Brendan Montague, 2018 First hand account of the current state of addiction governance in Europe utilising a unique dataset of corporate memberships and

networks across the EU to document the overall architecture of corporate political activity and the role addictive substance and behaviour producing industries play in influencing addiction policy in Europe Hubris, Self-Interest, and America's Failed War in Afghanistan Thomas P. Cavanaugh, 2015-07-22 This book describes the conduct of the US led post 9 11 war in Afghanistan Adopting a long term perspective it argues that even though Washington initially had an opportunity to achieve its security goals and give Afghanistan a chance to enter a new era it compromised any possibility of success from the very moment it let bin Laden escape to Pakistan in December 2001 and found itself locked in a strategic overreach Given the bureaucratic and rhetorical momentum triggered by the war on terror in America the Bush Administration was bound to deploy more resources in Afghanistan sooner or later despite its focus on Iraq The need to satisfy unfulfilled counter terrorism objectives made the US dependent on Afghanistan s warlords which compromised the country s stability and tarnished its new political system The extension of the US military presence made Washington lose its leverage on the Pakistan army leaders who aware of America s logistical dependency on Islamabad supported the Afghan insurgents their historical proxies more and more openly The extension of the war also contributed to radicalize segments of the Afghan and Pakistani populations destabilizing the area further In the meantime the need to justify the extension of its military presence influenced the US led coalition into proclaiming its determination to democratize and reconstruct Afghanistan While highly opportunistic the emergence of these policies proved both self defeating and unsustainable due to an inescapable collision between the US led coalition s inherent self interest hubris limited knowledge limited attention span and limited resources and on the other hand Afghanistan s inherent complexity As the critical contradictions at the very heart of the campaign increased with the extension of the latter s duration scale and cost America s leaders entrapped in path dependence lost their strategic flexibility Despite debates on troops resource allocation and more sophisticated doctrines they repeated the same structural mistakes over and over again The strategic overreach became self sustaining until its costs became intolerable leading to a drawdown which has more to do with a pervasive sense of failure than with the accomplishment of any noble purpose or strategic breakthrough **The War Conspiracy** Peter Dale Scott, 2013-09-01 Peter Dale Scott examines the many ways in which war policy has been driven by accidents and other events in the field in some cases despite moves toward peace that were directed by presidents This book explores the deep politics that exerts a profound but too little understood effect on national policy outside the control of traditional democratic processes An important analysis into the causes of war and the long lasting effects that major events in American history can have on foreign and military policies The War Conspiracy is a must read book for students of American history and foreign policy and anyone interested in the ways that domestic tragedies can be used to manipulate the country s direction First published in 1972 this edition of The War Conspiracy is fully updated for the twenty first century and includes two lengthy additional essays one on the transition in Vietnam policy in the wake of the Kennedy assassination and the other discussing the many parallels between that 1963

event and the attacks of 9 11 **War Economies in a Regional Context** Michael Charles Pugh, Neil Cooper, Jonathan Goodhand, 2004 This book emphasizes the role of economic factors in the conditions that lead to state collapse give rise to and sustain conflict and complicate peacebuilding The book argues that existing state level focus tends to ignore the role of regional linkages in permitting and sustaining conflict and as obstacles to transformation Furthermore that the focus on the dynamics of conflict in states of the developing world tends to artificially distance the outside predominantly Western world from their genesis and evolution taken from introduction U.S. Foreign Policy Toward the Third World: A Post-cold War Assessment Jurgen Ruland, Theodor Hanf, Eva Manske, 2016-07-22 The contributors to this work examine the evolution of U S foreign policy toward the Third World and the new policy challenges facing developing nations in the post Cold War era The book incorporates the key assessment standards of U S foreign policies directed toward critical regions including Latin America Africa the Middle East Central Asia and Southeast Asia Through this region by region analysis readers will get the information and insight needed to fully understand U S policy objectives especially with regard to economic and security issues in the wake of 9 11 vis a vis the developing world The book outlines both successes and failures of Washington as it seeks to deal with the Third World in a new era of terrorism trade and democratic enlargement It also considers whether anti Western sentiment in Third World regions is a direct result of U S foreign policies since the end of the Cold War **War on Drugs and Anglo-American Relations** Berry Philip A. Berry, 2019-11-01 Through interviews with key policy practitioners on both sides of the Atlantic this study reveals the complex picture of counter narcotics strategy in Afghanistan It highlights the key points of cooperation and contention and details the often contradictory and competitive objectives of the overall war effort in Afghanistan Western counter narcotics policies in Afghanistan failed dismally after opium poppy cultivation surged to unprecedented levels The Anglo American partnership at the centre of this battleground was divided by competing and opposing views of how to address the opium problem which troubled the well established Anglo American relationship Innocent Bystanders Philip Keefer, Norman Loayza, 2010-03-24 This book presents evidence that drug policies impose high costs on poor transit and producer countries It argues that in the face of great uncertainty about the benefits of alternative drug policies those with lower social costs should receive greater emphasis Cruel Harvest Julien Mercille, 2012-12-09 This book lifts the lid on the reality of Afghanistan s growing drug trade and the role played by the US military in its trajectory Where conventional accounts blame the Taliban for the expansion of drug production Cruel Harvest shows that the US shares responsibility by supporting drug lords refusing to adopt effective drug control policies and failing to crack down on drug money laundered through Western banks Julien Mercille argues that the best way to address drug problems is by reducing demand in consumer countries not by conducting fruitless and damaging counter narcotics missions in Afghanistan Pamirian Crossroads and Beyond Hermann Kreutzmann, 2024-08-05 In Pamirian Crossroads and Beyond Hermann Kreutzmann offers insights in his fieldwork based research in High Asia during four decades A human geographical

perspective is pursued in which case studies about colonial and post colonial boundary making exchange relations of mountain communities across international borders the transformation of agricultural and pastoral practices and the effects of modernisation strategies in neighbouring countries are centred in the Hindukush Wakhan Quadrangle Pamirian Crossroads Karakoram Mountains and Himalaya Empirical evidence is augmented by in depth archival research thus allowing a perspective from the 19th to the 21st century By shifting the focus to mountain peripheries and emphasising spaces in between urban centres of power in Afghanistan Pakistan China and the Central Asian Republics different arenas of confrontation and effective changes emerge

Voices of the Afghanistan War Brian L. Steed, Sheri Steed, 2023-06-15 The War in Afghanistan was the longest military conflict in American history In a diverse collection of primary documents this book explores the evolving legacy of the war and its impact on the countless lives it changed forever Following the terrorist attacks on September 11 2001 the United States spent almost 20 years at war in Afghanistan until it officially withdrew its military forces in August 2021 As the longest war in American history the War in Afghanistan cost trillions of dollars to sustain and claimed the lives of thousands of American soldiers and many more Afghan civilians This book tells the story of the war from its varied perspectives including documents from American and Afghan politicians high ranking military officers and diplomats The topics covered are even more diverse ranging from the building and training of security forces and the use of drones in modern warfare to the importance of education and the role of women in combat What the editors lead readers to understand is that the peoples referred to as Afghans have little in common beyond the land itself a simple basic and ultimately ignored reality at the heart of the U S invasion occupation and frustration in Afghanistan

Establishing Law and Order After Conflict Seth G. Jones, Jeremy M. Wilson, Andrew Rathmell, K. Jack Riley, 2005-08-06 In a nation building operation outside states invest much of their resources in establishing and maintaining the host country's police internal security forces and justice system This book examines post Cold War reconstruction efforts such as those in Iraq and Afghanistan and assesses the success of U S and allied efforts in reconstructing internal security institutions

Challenging Post-conflict Environments Alpaslan Özerdem, Rebecca Roberts, 2016-04-15 Crossing disciplinary boundaries this volume by Özerdem and Roberts conceptualizes the challenges of developing sustainable agriculture in post conflict environments as well as identifying the policies and practical solutions to achieve sustainable agricultural production which is central to the survival of humanity Without sustainable agriculture populations remain vulnerable increasing the likelihood of a return to conflict Therefore sustainable agriculture is central to effective post conflict recovery that provides human security as well as stability and rule of law Unique in combining a comprehensive and comparative understanding of sustainable agriculture challenges in post conflict environments there is originality in the interdisciplinary nature of the book Interdisciplinary often means bringing together a political scientist and a sociologist but in this case it means bringing together natural and social scientists as well as those with practical experience in development and agricultural contexts By adopting a holistic multi

disciplinary approach which identifies key themes and case studies this book sets the scene for the debate surrounding sustainable agriculture in post conflict environments Seeing fixing agriculture as more than merely a technical matter the volume focuses on this critical post conflict challenge with social political and cultural characteristics and consequences as well as the obvious economic ones
