Modernismus Literalismus und Postmodernismus Gregor Stemmrichs kenntnisreiche kunsttheoretische Betrachtung arbeitet die anhaltende Relevanz des Werks für die Theorie des Bildes des Index der Spur des Allegorischen und der Frage nach Appropriation heraus **Geneses of Postmodern Art** Paul Crowther, 2018-09-03 Postmodernism in the visual arts is not just another ism It emerged in the 1960s as a transformation of artistic creativity inspired by Duchamp's idea that the artwork does not have to be physically made by its creator Products of mass culture and technology can be used just as well as traditional media This idea became influential because of a widespread naturalization of technology where technology becomes something lived in as well as used Postmodern art embodies this attitude To explain why Paul Crowther investigates topics such as eclecticism the sublime deconstruction in art and philosophy and Paolozzi's Wittgenstein inspired works

**A Hunger for Aesthetics** Michael Kelly, 2012-05-15 For decades aesthetics has been subjected to a variety of critiques often concerning its treatment of beauty or the autonomy of art Collectively these complaints have generated an anti aesthetic stance prevalent in the contemporary art world Yet if we examine the motivations for these critiques Michael Kelly argues we find theorists and artists hungering for a new kind of aesthetics one better calibrated to contemporary art and its moral and political demands Following an analysis of the work of Stanley Cavell Arthur Danto Umberto Eco Susan Sontag and other philosophers of the 1960s who made aesthetics more responsive to contemporary art Kelly considers Sontag s aesthetics in greater detail In *On Photography* 1977 she argues that a photograph of a person who is suffering only aestheticizes the suffering for the viewer s pleasure yet she insists in *Regarding the Pain of Others* 2003 that such a photograph can have a sustainable moral political effect precisely because of its aesthetics Kelly considers this dramatic change to be symptomatic of a cultural shift in our understanding of aesthetics ethics and politics He discusses these issues in connection with Gerhard Richter s and Doris Salcedo s art chosen because it is often identified with the anti aesthetic even though it is clearly aesthetic Focusing first on Richter s Baader Meinhof series Kelly concludes with Salcedo s enactments of suffering caused by social injustice Throughout *A Hunger for Aesthetics* he reveals the place of critique in contemporary art which if we understand aesthetics as critique confirms that it is integral to art Meeting the demand for aesthetics voiced by many who participate in art Kelly advocates for a critical aesthetics that confirms the power of art

*A History of Contemporary Chinese Art* Yan Zhou, 2020-07-14 Chinese art has experienced its most profound metamorphosis since the early 1950s transforming from humble realism to socialist realism from revolutionary art to critical realism then avant garde movement and globalized Chinese art With a hybrid mix of Chinese philosophy imported but revised Marxist ideology and western humanities Chinese artists have created an alternative approach after a great ideological and aesthetic transition in the 1980s toward its own contemporaneity though interacting and intertwining with the art of rest of the world This book will investigate from the perspective of an activist critic and historian who grew up prior to and participated in the great

transition and then researched and taught the subject the evolution of Chinese art in modern and contemporary times The volume will be a comprehensive and insightful history of the one of the most sophisticated and unparalleled artistic and cultural phenomena in the modern world Beginning Postmodernism Tim Woods, 2009 Postmodernism became the buzzword of contemporary society in the 1990s Yet even now it still remains confusing and baffling in its variety of definitions contexts and associations Beginning Postmodernism aims to offer clear accessible and step by step introductions to postmodernism across a wide range of subjects It encourages readers to explore how the debates about postmodernism have emerged from basic philosophical and cultural ideas and to develop comparative connections and ideas from one area to another With its emphasis firmly on postmodernism in practice the book contains questions designed to help readers understand and reflect upon a variety of positions within the following areas of contemporary culture philosophy and cultural theory architecture and concepts of space visual art sculpture and material culture popular culture and music film video and television and the social sciences **The Oxford History of Western Art** Martin Kemp, 2000 The Oxford History of Western Art is the new authority on the development of visual culture in the West over the last 2700 years from the classical period to the end of the twentieth century OHWA is an innovative and challenging reappraisal of how the history of art can be presented and understood None of the currently available general histories of art offers the wealth of perspectives and cross media references of this book Through a carefully devised modular structure readers are given insights not only into how and why works of art were created but also how works in different media relate to each other across time Here uniquely is not the simple linear story of art but a rich series of stories told from varying viewpoints The founding principle of the book has been to use carefully selected groupings of pictures to give readers a sense of the visual texture of the various periods and episodes covered The 167 illustration groups supported by explanatory text and picture captions create a sequence of visual tours not merely a procession of individually great works viewed in isolation but juxtapositions of significant images that powerfully convey a sense of the visual environments in which works of art need to be viewed in order to be understood and appreciated The aim throughout has been to make the shape and nature of these visual presentations a stimulating and rewarding experience allowing readers to become active participants in the process of interpretation and synthesis Another key feature of the narrative is the re definition of traditional period boundaries Rather than relying on conventional labels such as Medieval Renaissance Baroque etc five major phases of significant historical change are established that unlock longer and more meaningful continuities The art of classical antiquity from c 600 BC to the fall of Rome in AD 410 The establishment of visual culture in Europe from 410 to 1527 the sack of papal Rome European visual regimes from 1527 to 1770 The era of revolutions 1770 to 1914 Modernism and after 1914 to 2000 This new framework shows how the major religious and secular functions of art have been forged sustained transformed revived and revolutionized over the ages how the institutions of Church and State have consistently aspired to make art in their own image and how the rise of art

historyitself has come to provide the dominant conceptual framework within which artists create patrons patronize collectors collect galleries exhibit dealers deal and art historians write The text has been written by a team of 50 specialist authors working under the direction of Professor Martin Kemp one of the UK s most distinguished art historians Whilst bringing their own expertise and vision to their sections each author was also asked to relate their text to a number ofunifying themes and issues including written evidence physical contexts patronage viewing and reception techniques gender and racial issues centres and peripheries media and condition the notion of art and current presentations Though the coverage of topics focuses on European notions of art and their transplantation and transformation in North America space is also given to cross fertilizations with other traditions including the art of Latin America the Soviet Union India Africa and Afro Caribbean Australia and Canada Professor Kemp and his team similarly deal generously with the applied arts and reproductive media such as photography and prints The result is a vibrant vigorous and revolutionary account of Western art serving both as an inspirational introduction for the general reader and an authoritative source of reference and guidance for students

Scale in Contemporary Sculpture Rachel Wells,2017-07-05 The first book to devote serious attention to questions of scale in contemporary sculpture this study considers the phenomenon within the interlinked cultural and socio historical framework of the legacies of postmodern theory and the growth of global capitalism In particular the book traces the impact of postmodern theory on concepts of measurement and exaggeration and analyses the relationship between this philosophy and the sculptural trend that has developed since the early 1990s Rachel Wells examines the arresting international trend of sculpture exploring scale including American precedents from the 1970s and 1980s and work by the Young British Artists Noting that the emergence of this sculptural trend coincides with the end of the Cold War Wells suggests a similarity between the quantitative ratio of scale and the growth of global capitalism that has replaced the former status quo of qualitatively opposed systems This study also claims the allegorical nature of scale in contemporary sculpture outlining its potential for critique or complicity in a system dominated by quantitative criteria of value In a period characterised by uncertainty and incommensurability Wells demonstrates that scale in contemporary sculpture can suggest the possibility of and even an unashamed reliance upon comparison and external difference in the construction of meaning

**History and National Ideology in Greek Postmodernist Fiction** Gerasimos Katsan, 2013-04-04 History and National Ideology in Greek Postmodernist Fiction investigates the ways postmodernist literary techniques have been adopted by Greek authors Taking into consideration the global impetus of postmodernism the book examines its local implications Framed by a discussion of major postmodernist thinkers the book argues for the ability of local cultures to retain their uniqueness in the face of globalization while at the same time adapting to the new global situation The combination of external global influences and the specific internal concerns of Greek national literature makes the emergence of postmodernism in Greece distinctive from that of other national contexts The book engages in larger theoretical debates about the crisis of national identity in the context of postmodern globalization and the resurgence of nationalist ideology either as a response to globalization or the exigencies of historical events This crisis has been brought on in part by the very postmodernist and poststructuralist questioning of the ideologies upon which nation states construct themselves The central argument of the book is that postmodernist Greek writers question the idea of national identity based on both the impact of globalization and a reexamination of the discourses of national ideology they suggest a turn away from the traditional concerns with cultural homogeneity towards an acceptance of multiplicity and diversity which is reflected through experimentation with postmodernist literary techniques Consequently the unifying idea of this book is national identity as it is reconfigured in recent contemporary novels My analysis incorporates the view that metafiction is a borderline or marginal discourse that exists on the boundary between fiction and criticism The book illuminates the connections between the formal concerns of contemporary authors and the larger debates and philosophical underpinnings of postmodernism in general
