## **Popular Justice And Community Regeneration Pathways Of Indigenous Reform:**

Popular Justice and Community Regeneration Kayleen M. Hazlehurst, 1995-06-13 Formal justice systems have not served the human rights of native and aboriginal groups well and have led to growing national and international pressure for equal treatment and increased political and legal autonomy Indigenous activities in areas of community healing have created a fervor of interest as native peoples have shared experiences with programs that reduce addiction family violence child abuse and sociocultural disintegration of traditional communities Through ethnographic and indigenous contributions this volume penetrates the psychosocial aspects of the indigenous movement in the United States Canada Australia and New Zealand It analyzes community based reforms and shows how years of experience in adversity peacemaking and community preservation have equipped native peoples with skills they now wish to share for spiritual world healing **Justice, Community and Civil Society** Joanna Shapland, 2013-05-13 Over the last decade there has arisen considerable disquiet about the relationship between criminal justice and its publics This has been expressed in a variety of different ways ranging from a concern that state criminal justice has moved too far away from the concerns of ordinary people become too distant too out of touch insufficiently reflective of different groups in society to the belief that the police have been attending to the wrong priorities that the state has failed to reduce crime that people still feel a general sense of insecurity Governments have sought to respond to these concerns throughout Europe and North America but the results have challenged people's deeply held beliefs about what justice is and what the state's role should be The need to innovate in response to local demands has hence resulted in some very different initiatives This book is concerned to delve further into this contested relationship between criminal justice and its publics Written by experts from different countries as a new initiative in comparative criminal justice it reveals how different the intrinsic cultural attitudes in relation to criminal justice are across Europe This is a time when states monopoly on criminal justice is being questioned and they are being asked on what basis their legitimacy rests challenged by both globalization and localization The answers reflect both cultural specificity and for some broader moves towards reaching out to citizens and associations representing citizens The Problem of Justice Bruce Granville Miller, 2001-01-01 For the indigenous peoples of North America the history of colonialism has often meant a distortion of history even in some cases a loss or distorted sense of their own native practices of justice How contemporary native communities have dealt quite differently with this dilemma is the subject of The Problem of Justice a richly textured ethnographic study of indigenous peoples struggling to reestablish control over justice in the face of conflicting external and internal pressures The peoples discussed in this book are the Coast Salish communities along the northwest coast of North America the Upper Skagit Indian Tribe in Washington State the St lo Nation in British Columbia and the South Island Tribal Council on Vancouver Island Here we see how despite their common heritage and close ties each of these communities has taken a different direction in understanding and establishing a system of tribal justice Describing the results from the

steadily expanding independence and jurisdiction of the Upper Skagit Court to the collapse of the South Island Justice Project Bruce G Miller advances an ethnographically informed comparative historically based understanding of aboriginal justice and the particular dilemmas tribal leaders and community members face His work makes a persuasive case for an indigenous sovereignty associated with tribally controlled justice programs that recognize diversity and at the same time allow for internal dissent Anthropologica ,1998

**Whose Criminal Justice?** Katherine Doolin,2011 The overarching theme of this book is the balance between the role of a central government in creating and shaping the regulatory framework of criminal justice and the potential for communities at a local level to become more involved in responding to crime and anti social behavior in their midst These twin dynamics are explored in the two main sections of the book Through a series of UK case studies in Part I The Regulatory State the book examines how the central state has sought to address the risks and problems associated with crime and anti social behavior in modern times The case studies consider the new context for law and order which arose during the period and ask how and why new sanctions were put in place to regulate particular kinds of behavior They also highlight some of the unintended consequences notably the criminalization of more people In Part II Empowered Communities as Stakeholders in Criminal Justice the book explores the

potential for local communities      *Indigenous Criminology* Chris Cunneen, Juan Tauri, 2016-07-27 *Indigenous Criminology* comprehensively explores Indigenous people's contact with criminal justice systems in a contemporary and historical context. Restorative Justice: Theoretical foundations Elmar G. M. Weitekamp, Hans-Jürgen Kerner, 2012-12-06 This book brings together a selection of papers originally presented and discussed at the fourth international restorative justice conference held at the University of Tübingen. The contributors include many of the leading authorities in the field of restorative justice and they provide a comprehensive review of the theoretical foundations underlying this rapidly expanding movement. *Restorative Justice: Theoretical foundations* addresses a wide range of fundamental questions about restorative justice considering amongst other things ways in which conceptual pitfalls can be avoided and how traditional models of peacemaking and healing developed in traditional societies can be integrated into the justice systems of late modern societies. Overall it provides an authoritative overview of contemporary thinking about restorative justice and will be essential reading for anybody concerned with the future direction of criminal justice and criminal justice systems. **Racialized Correctional Governance** Claire Spivakovsky, 2016-05-23 *Racialized Correctional Governance* examines problems in the relationship between criminology and racialized issues. It questions current models for discussing issues of race in criminal justice systems and asks why a comprehensive theory of race and criminal justice has yet to develop in the discipline. It takes into account the full nature of problems facing racialized peoples in criminal justice systems, the developments and tensions in criminological theory and practice as well as the scope of racialized criminal justice issues and where they occur. Suggesting that current explanations for the overrepresentation of racialized peoples in the criminal justice system are inadequate, the book explores the mutual constructions of race and criminal justice. It examines the shortcomings of current discourse giving an account of how race, criminal justice and criminology are interrelated. Aiming to provide criminology with tools to engage with issues of race and criminal justice, the book develops and applies a set of rules to a series of case studies and proposes ideas for transforming institutional practice.

Native Lands Shari M. Huhndorf, 2024 Native Lands analyzes the role of visual and literary culture in contemporary Indigenous campaigns for territorial rights In the post 1960s era Indigenous artists and writers have created works that align with the goals and strategies of new Native land based movements These works represent Native histories and epistemologies in ways that complement activist endeavors while also probing the limits of these political projects especially with regard to gender The social marginalization of Native women was integral to dispossession And yet its enduring consequences have remained largely neglected even in Native organizing as a pressing concern associated with the status of Indigenous people in settler nation states The cultural works discussed in this book provide an urgent Indigenous feminist rethinking of Native politics that exposes the innate gendered dimensions of ongoing settler colonialism They insist that Indigenous campaigns for territorial rights must entail gender justice for Native women

Culture in the Domains of Law René Provost, 2017-02-02 What does it mean for courts and other legal institutions to be culturally sensitive What are the institutional implications and consequences of such an aspiration To what extent is legal discourse capable of accommodating multiple cultural narratives without losing its claim to

normative specificity And how are we to understand meetings of law and culture in the context of formal and informal legal processes when demands are made to accommodate cultural difference The encounter of law and culture is a polycentric relation but these questions draw our attention to law and legal institutions as one site of encounter warranting further investigation to map out the place of culture in the domains of law by relying on the insights of law anthropology politics and philosophy Culture in the Domains of Law seeks to examine and answer these questions resulting in a richer outlook on both law and culture     *Restorative Justice* Eugene McLaughlin, Open University, 2003-06-02 Restorative Justice brings together key international writings that trace the development of restorative justice from its diverse beginnings to current global policies and practices     Human Rights and Social Work Jim Ife, Karen Soldatić, Linda Briskman, 2022-07-12 Human Rights and Social Work helps students and practitioners understand how human rights concepts underpin social work     **Women, Ethnicity and Nationalisms in Latin America** Natividad Gutiérrez Chong, 2016-12-05 The relationship between gender and nationalism is a compelling issue that is receiving increasing coverage in the scholarly literature With case studies covering Argentina Ecuador Bolivia and Mexico this is the first book to explore these links in the context of Latin America It includes contributions from Latin American scholars to offer a unique and revealing view of the most important political and cultural issues The work opens by outlining four dimensions in the relationship between gender and nationalism These are the contribution of women to nation building and their exclusion from it by the state and its institutions the role of women in contemporary ethnic and nationalist movements the place of the female body in the myths and traditions surrounding the nation and the role of women in forging the intellectual and artistic culture of the nation It then provides both theoretical and empirical explorations of these themes with chapters covering the debate on multiculturalism and gender in the construction of the nation the struggles of ethnic women to participate politically in their communities and studies of the first Mexican filmmaker Mimi Derrba and the indigenous heroine Dolores Cacuango from Ecuador
