Aging in World History David G. Troyansky, 2015-10-05 In Aging in World History David G. Troyansky presents the first global history of aging At a time when demographic aging has become a source of worldwide concern and more people are reaching an advanced age than ever before the history of old age helps us understand how we arrived at the treatment of aging in the modern world This concise volume expands that history beyond the West to show how attitudes toward aging the experiences of the aged and relevant demographic patterns have varied and coalesced over time and across the world From the ancient world to the present this book introduces students and general readers to the history of aging on two levels the experience of individual men and women and the transformation of populations With its attention to cultural traditions medicalization decades of historical scholarship and current gerontology Aging in World History is the perfect starting point for an exploration of this increasingly universal aspect of human experience

A World of Populations Heinrich Hartmann, Corinna R. Unger, 2014-09-01 Demographic study and the idea of a population was developed and modified over the course of the twentieth century mirroring the political social and cultural situations and aspirations of different societies This growing field adapted itself to specific policy concerns and was therefore never apolitical despite the protestations of practitioners that demography was natural Demographics were transformed into public policies that shaped family planning population growth medical practice and environmental conservation While covering a variety of regions and time periods the essays in this book share an interest in the transnational dynamics of emerging demographic discourses and practices Together they present a global picture of the history of demographic knowledge
