## **Population And Emigration Government And Society In Nineteenth Century Britain:**

**Forkhill Protestants and Forkhill Catholics, 1787-1858** Kyla Madden, 2005-11-22 In the late eighteenth century an influx of Protestant settlers to the mainly Catholic parish of Forkhill on the Ulster borderlands provoked clashes between natives and newcomers None was more horrific than the brutal attack on a Protestant schoolmaster and his family in the winter of 1791 The conflict was immediately cast in sectarian terms leading to more than 200 years of ill will But was it a misdiagnosis Forkhill Protestants and Forkhill Catholics explores the social history of the parish between 1787 and 1858 In a wide ranging analysis Kyla Madden demonstrates that there was a greater degree of cooperation and exchange between Catholics and Protestants than the historical record has acknowledged Madden contends that since some of our widely held assumptions about the patterns of Irish history dissolve under scrutiny at the local level they should be more cautiously applied on a larger scale *A Companion to Nineteenth-Century Britain* Chris Williams, 2008-04-15 A Companion to Nineteenth Century Britain presents 33 essays by expert scholars on all the major aspects of the political social economic and cultural history of Britain during the late Georgian and Victorian eras Truly British rather than English in scope Pays attention to the experiences of women as well as of men Illustrated with maps and charts Includes guides to further reading

*Whitewashing Britain* Kathleen Paul, 2018-09-05 Kathleen Paul challenges the usual explanation for the racism of post war British policy According to standard historiography British public opinion forced the Conservative government to introduce legislation stemming the flow of dark skinned immigrants and thereby altering an expansive nationality policy that had previously allowed all British subjects free entry into the United Kingdom Paul's extensive archival research shows however that the racism of ministers and senior functionaries led rather than followed public opinion In the late 1940s the Labour government faced a birthrate perceived to be in decline massive economic dislocations caused by the war a huge national debt severe labor shortages and the prospective loss of international preeminence Simultaneously it subsidized the emigration of Britons to Australia Canada and other parts of the Empire recruited Irish citizens and European refugees to work in Britain and used regulatory changes to dissuade British subjects of color from coming to the United Kingdom Paul contends post war concepts of citizenship were based on a contradiction between the formal definition of who had the right to enter Britain and the informal notion of who was or could become really British Whitewashing Britain extends this analysis to contemporary issues such as the fierce engagement in the Falklands War and the curtailment of citizenship options for residents of Hong Kong Paul finds the politics of citizenship in contemporary Britain still haunted by a mixture of imperial economic and demographic imperatives *Imperial Britain* Andrew S. Thompson, 2014-07-30 This new study considers the impact of the empire upon modern British political culture The economic and cultural legacy of empire have received a great deal of attention but historians have neglected the effects of empire upon the domestic British political scene Dr Thompson explores economic demographic intellectual and military influences and he shows how parliamentary and party opinion

interacted with imperial ideas and interests in the country at large This is a major new book which explores the ideology of key imperial campaigns and their popular support It makes a critical contribution to recent debates about the importance of empire to the nature and development of British national identities before and after the First World War      **Work and Unemployment 1834-1911** Marjorie Levine-Clark,2022-06-16 This volume explores the idea of unemployment as nineteenth century economists constructed the category unemployment referring to a structural problem that caused genuine workmen to be temporarily unemployed through no fault of their own Sources examine how social thinkers and politicians put forward a range of arguments about the reasons for unemployment the increasingly detailed categorization of people without work and the growing movement to represent labour both inside and outside Parliament in large part to address the problem of unemployment Accompanied by extensive editorial commentary this volume will be of great interest to students of British History      **A History of the Peoples of the British Isles** Thomas Heyck,2013-09-27 The three volumes of A History of the Peoples of the British Isles weave together the histories of England Ireland Scotland and Wales and their peoples The authors trace the course of social economic cultural and political history from prehistoric times to the present analyzing the relationships differences and similarities of the four areas Volume II focuses on the eighteenth and nineteenth centuries and its main themes are the formation of the British nation state the spread of English cultural influence and political power throughout the Briti      *Emigration from Scotland between the wars* Marjory Harper,2017-03-01 Emigration from Scotland has always been very high However emigration from Scotland between the wars surpassed all records more people emigrated than were born leading to an overall population decline Why was it so many people left Marjory Harper whose knowledge is grounded in a deep understanding of the local records maps out the many factors which worked together to cause this massive diaspora After an opening section where the author sets the Scottish experience within the context of the rest of the British Isles the book then divides the country geographically starting with the Highlands then coastal Scotland and the urban Lowland highlighting in turn the factors that particularly influenced each of these areas Harper then discusses the organised religious and political movements that encouraged emigration By interweaving personal stories with statistical evidence Harper brings to life the reality behind the dramatic historical migration      Literature in a Time of Migration Josephine McDonagh,2021 Examines nineteenth century British fiction in the light of the new realities of human migration      **The British World** Carl Bridge,Kent Fedorowich,2004-11-23 This collection of essays is based upon the assumption that the British Empire was held together not merely by ties of trade and defence but by a shared sense of British identity that linked British communities around the globe Focusing on the themes of migration identity and the media this book is an exploration of these and other interconnected themes that help define the British World of the late 19th and 20th centuries      **Emigration and the Labouring Poor** Robin F. Haines,1997-09-12 Robin Haines has analysed the origins occupations literacy and mobilization of emigrants recruited in the UK on behalf of colonial legislatures Her exploration of

strict selection procedures shows that the symbiosis between the clergy empire minded philanthropic societies and parishes which combined to fund the emigrants considerable pre departure expenses increased the opportunities for underemployed rural and domestic workers during an era of farm rationalization and industrial restructuring Although poor hybrid state and private funding enabled them to relocate to Australia where their skills were in demand Britannia's Children Eric Richards,2004-05-14 The stories behind the mass exodus from Great Brittan from 1600 to modern times **Hardscrabble** Donna E. Williams,2013-07-13 A tale of deception and adversity Hardscrabble tells how unscrupulous politicians emigration agents and philanthropists lured impoverished emigrants to farm the Muskoka backwoods in the 1870s What these new settlers weren t told was that their land was situated on the rocky Canadian Shield **Nineteenth Century and After** ,1891 Migrants, Emigrants and Immigrants Colin Pooley,Ian Whyte,2022-01-19 Originally published in 1991 this book covers an usually long time from the 17th to the 20th Century and considers the impact of internal migration and immigration primarily in Britain as well as emigration to North America South Africa New Zealand and Australia Population movements are now recognized to be an integral part of structural change within society and this book brings together a variety of approaches Drawing on the findings of historians geographers and sociologists the essays highlight areas of concern and illustrate some of the directions research on migration was taking in the early 1990s Imperial History and the Global Politics of Exclusion Amanda Behm,2017-10-24 Examining the rise of the field of imperial history in Britain and wider webs of advocacy this book demonstrates how intellectuals and politicians promoted settler colonialism excluded the subject empire and laid a precarious framework for decolonization History was politics in late nineteenth century Britain But the means by which influential thinkers sought to steer democracy and state development also consigned vast populations to the margins of imperial debate and policy From the 1880s onward politicians intellectuals and journalists erected a school of thought based on exclusion and deferral that segregated past and future backwardness and civilization validating racial discrimination in empire all while disavowing racism These efforts however engendered powerful anticolonial backlash and cast a long shadow over the closing decades of imperial rule Bringing to life the forgotten struggles which have in effect defined our times *Imperial History and the Global Politics of Exclusion* is an important reinterpretation of the intellectual history of the British Empire *Emigrants and empire* Stephen Constantine,2017-03-01 Professor Drummond s two pioneering studies *British Economic Policy and the Empire 1919 1939 1972* and *Imperial Economic Policy 1917 1939 1974* helped to revive interest in Empire migration and other aspects of inter war imperial economic history This book concentrates upon the attempts to promote state assisted migration in the post First World War period particularly associated with the Empire Settlement Act of 1922 It examines the background to these new emigration experiments the development of plans for both individual and family migration as well as the specific schemes for the settlement of ex servicemen and of women Varying degrees of encouragement acquiescence and resistance with which they were received in

the dominions are discussed After the First World War there was a striking reorientation of state policy on emigration from the United Kingdom A state assisted emigration scheme for ex servicemen and ex servicewomen operating from 1919 to 1922 was followed by an Empire Settlement Act passed in 1922 This made significant British state funding available for assisted emigration and overseas land settlement in British Empire countries Foremost amongst the achievements of the high minded imperial projects was the free passage scheme for ex servicemen and women which operated between 1919 and 1922 under the auspices of the Oversea Settlement Committee Cheap passages were considered as one of the prime factors in stimulating the flow of migration particularly in the case of single women The research represented here makes a significant contribution to the social histories of these states as well as of the United Kingdom **A Clearer Sense of the Census** Edward Higgs,1996 Only available from the TSO s on demand publishing service 1999 This is based on the previous census work Making sense of the census PRO handbook no 23 but contains more interpretative material and several new chapters on using the census returns in historical research *The Nineteenth Century and After* ,1891 *Public Record Office Handbooks* ,1996 *Citizenship and Belonging* James Hampshire,2005-04-15 James Hampshire explores the politics of immigration in postwar Britain and shows how ideas of race demography and belonging intertwined to shape immigration policy It is the first book to explain immigration in terms of the politics of demographic governance how states manage and regulate their populations and provides a much needed historical context to current debates In addition the book develops new perspectives on the ways in which racialized ideas influenced politics and policy making
