Demographic and Social Aspects of Population Growth Robert Parke,1972 Research Reports: Demographic and social aspects of population growth United States. Commission on Population Growth and the American Future,1970

Continuities in Highland Maya Social Organization Robert M. Hill II,John Monaghan,2018-01-15 Continuities in Highland Maya Social Organization innovatively combines ethnohistoric ethnographic and archaeological research to present the first study of the Maya community from preconquest to modern times **Population Change and Social Continuity** Harold W. Aurand,1986 By examining the social structure of Hazleton Pennsylvania during a period of massive demographic change the author challenges the notion that rapid population growth and intense mobility undermines the stability of the community

New Perspectives on Mimbres Archaeology Barbara J. Roth,Patricia A. Gilman,Roger Anyon,2018-11-27 In the early 1970s understanding of the Mimbres region as a whole was in its infancy In the following decades thanks to dedicated work by enterprising archaeologists and nonprofit organizations our understanding of the Mimbres region has become more complex nuanced and rich New Perspectives on Mimbres Archaeology brings together these experts in a single volume for the first time The contributors discuss current knowledge of the people who lived in the Mimbres region of the southwestern United States and how our knowledge has changed since the Mimbres Foundation directed by Steven A LeBlanc began the first modern archaeological investigations in the region Many of these authors have spent decades conducting the fieldwork that has allowed for a broader understanding of Mimbres society Focusing on a variety of important research topics of interest to archaeologists including the social contexts of people and communities the role of ritual and ideology in Mimbres society evidence of continuities and cultural change through time and the varying impacts of external influences throughout the region New Perspectives on Mimbres Archaeology presents recent data on and interpretations of the entire pre Hispanic sequence of occupation Additional contributions include a history of nonprofit archaeology by William H Doelle and a concluding chapter by Steven A LeBlanc reflecting on his decades long work in Mimbres archaeology and outlining important areas for the next wave of research *Towards a Social Bioarchaeology of the Mycenaean Period* Ioanna

Moutafi,2021-06-09 This book investigates the complex relationship between funerary treatment and wider social dynamics through a contextual analysis of human skeletal remains and associated mortuary data from Voudeni an important Mycenaean 1450 1050 BC chamber tomb cemetery in Achaea Greece Voudeni is one of the most significant sites of Achaea thoroughly investigated under the direction of the Honorary General Director of Antiquities Dr Lazaros Kolonas Over 60 chamber tombs spanning the entire Late Helladic III period have been excavated yielding an unprecedented wealth of biocultural information This study explores the post mortem treatment of the body in the Voudeni cemetery through a novel interpretive approach that transcends unproductive cross disciplinary divisions This biosocial approach integrates traditional archaeology current reflections in mortuary archaeological theory and cutting edge bioarchaeological methods primarily

focused on funerary taphonomy and archaeothanatology of commingled skeletal assemblages The author proposes that the most effective route to explore the social dimensions of mortuary data is through an emic understanding of historically situated actions and experiences both of the living actors the mourners and of the dead themselves Human skeletal remains are used as the primary strand of evidence both as the object of the acts of the living and the subject of their own lived experiences Most importantly this study aspires to show how reconciliation between abstract theoretical advances and empirical biocultural data may be possible providing the most insightful path to a better understanding of the archaeological mortuary record The book provides a thorough background on Mycenaean mortuary research and explores the topic in successive stages a theoretical and methodological framework b detailed taphonomic analysis and osteological results of 20 tombs c multivariate analysis of bio cultural data across socio temporal parameters with special emphasis on the distinction between the palatial LHIIIA B and the transitional post palatial LHIIIC period and d final synthesis addressing questions pertaining to changing social conditions in Achaea and key issues of current Mycenaean mortuary research These include tomb re use form diversity sequence and frequency of mortuary activities mortality profiles differential inclusion visibility and funerary treatment of different groups identities changes in treatment of the dead body reflecting shifts in notions of the self and social relationships The results shed new light on social developments in Mycenaean Achaea showing that the complex interaction between changing social conditions and mortuary practice is often reflected in subtle yet meaningful shifts of emphasis in the post mortem treatment of bodies and bones rather than in blatant radical changes **Coalcracker Culture**

Harold W. Aurand, 2003 The knowledge that they traded their lives for a job generated an overarching fear of losing their income **BOOK JACKET** **Harrisburg Industrializes** Gerald G. Eggert, 2010-11-01 In 1850 Harrisburg Pennsylvania was a community like many others in the U S employing most of its citizens in trade and commerce Unlike its larger neighbors Pittsburgh and Philadelphia Harrisburg had not yet experienced firsthand the Industrial Revolution Within a decade however Harrisburg boasted a cotton textile mill two blast furnaces and several iron rolling mills a railroad car manufactory and a machinery plant This burst of industrial activity naturally left its mark on the community by within two generations most industry had left Harrisburg and its economic base was shifting toward white collar governmental administration and services Harrisburg Industrializes looks at this critical episode in Harrisburg s history to discover how the coming of the factory system affected the life of the community Eggert begins with the earliest years of Harrisburg describing its transformation from a frontier town to a small commercial and artisanal community He identifies the early entrepreneurs who built the banking commercial and transportation infrastructure which would provide the basis for industry at mid century Eggert then reconstructs the development of the principal manufacturing firms from their foundings through the expansive post Civil War era to the onset of deindustrialization near the end of the century Through census and company records he is able to follow the next generation of craftsmen and entrepreneurs as well as the new industrial workers many

of then minorities who came to the city after 1850 Eggert sees Harrisburg's experience with the factory system as second stage or imitative industrialization which was typical of many if not most communities that developed factory production At those relatively few industrial centers Lowell and Pittsburgh for example where new technologies arose and were aggressively imposed on workers the consequences were devastating often causing alienation rebellion and repression By contrast at secondary centers like Harrisburg or Reading Scranton or Wilmington industrialization came later was derivative rather than creative was modest in scale and focused on local and regional markets Because the new factories did not compete with local crafts few displaced artisans became factory hands At the same time an adequate supply of local native born workers forestalled an influx of immigrants so Harrisburg experienced little ethnic hostility Ultimately therefore Eggert concludes that the introduction of an industrial order was much less disruptive in Harrisburg than in the major industrial sites primarily because it did not alter so profoundly the existing economic and social order

The Face of Decline Thomas L. Dublin, Walter Licht, 2016-11-15 The anthracite coal region of Pennsylvania once prospered Today very little mining or industry remains although residents have made valiant efforts to restore the fabric of their communities In *The Face of Decline* the noted historians Thomas Dublin and Walter Licht offer a sweeping history of this area over the course of the twentieth century Combining business labor social political and environmental history Dublin and Licht delve into coal communities to explore grassroots ethnic life and labor activism economic revitalization and the varied impact of economic decline across generations of mining families *The Face of Decline* also features the responses to economic crisis of organized capital and labor local business elites redevelopment agencies and state and federal governments Dublin and Licht draw on a remarkable range of sources oral histories and survey questionnaires documentary photographs the records of coal companies local governments and industrial development corporations federal censuses and community newspapers The authors examine the impact of enduring economic decline across a wide region but focus especially on a small group of mining communities in the region's Panther Valley from Jim Thorpe through Lansford to Tamaqua The authors also place the anthracite region within a broader conceptual framework comparing anthracite's decline to parallel developments in European coal basins and Appalachia and to deindustrialization in the United States more generally

Moving Millions Jeffrey Kaye, 2010-04-01 On the same day that reporter Jeffrey Kaye visited the Tondo hospital in northwest Manila members of an employees association wearing hospital uniforms rallied in the outside courtyard demanding pay raises The nurses at the hospital took home about 261 a month while in the United States nurses earn on average more than fifteen times that rate of pay No wonder so many of them leave the Philippines Between 2000 and 2007 nearly 78 000 qualified nurses left the Philippines to work abroad but there's more to it than the pull of better wages each year the Philippine president hands out Bagong Bayani modern day heroes awards to the country's outstanding and exemplary migrant workers Migrant labor accounts for the Philippines second largest source of export revenue after electronics and they ship out nurses like another

country might export textiles In 2008 the Philippines was one of the top ranking destination countries for remittances alongside India 45 billion China 34 5 billion and Mexico 26 2 billion Nurses in the Philippines farmers in Senegal Dominican factory workers in rural Pennsylvania even Indian software engineers working in California all are pieces of a larger system Kaye calls coyote capitalism Coyote capitalism is the idea practiced by many businesses and governments that people like other natural resources are supplies to be shifted around to meet demand Workers are pushed out pulled in and put on the line without consideration of the consequences for economies communities or individuals With a fresh take on a controversial topic Moving Millions Knocks down myth after myth about why immigrants come to America and what role they play in the economy Challenges the view that immigrants themselves motivate immigration rather than the policies of businesses and governments in both rich and poor nations Finds surprising connections between globalization economic growth and the convoluted immigration debates taking place in America and other industrialized countries Jeffrey Kaye is a freelance journalist and special correspondent for the PBS NewsHour for whom he has reported since 1984 covering immigration housing health care urban politics and other issues What does it all add up to America s approach to importing workers looks from the outside like a patchwork of unnecessary laws and regulations but the machinery of immigration is actually part of a larger global system that satisfies the needs of businesses and governments often at the expense of workers in every nation Drawing on Jeffrey Kaye s travels to places including Mexico the U K the United Arab Emirates the Philippines Poland and Senegal this book a healthy alternative to the obsession with migrants legal status exposes the dark side of globalization and the complicity of businesses and governments to benefit from the migration of millions of workers Between kinship and the state Franz Benda-Beckmann, Keebet Benda-Beckmann, 2019-10-08 No detailed description available for Between kinship and the state

Neighborhood Tokyo Theodore C. Bestor,1989 In the vastness of Tokyo these are tiny social units and by the standards that most Americans would apply they are perhaps far too small geographically and demographically to be considered neighborhoods Still to residents of Tokyo and particularly to the residents of any given subsection of the city they are socially significant and geographically distinguishable divisions of the urban landscape In neighborhoods such as these overlapping and intertwining associations and institutions provide an elaborate and enduring

framework for local social life within which residents are linked to one another not only through their participation in local organizations but also through webs of informal social economic and political ties This book is an ethnographic analysis of the social fabric and internal dynamics of one such neighborhood Miyamoto cho a pseudonym for a residential and commercial district in Tokyo where the author carried out fieldwork from June 1979 to May 1981 and during several summers since It is a study of the social construction and maintenance of a neighborhood in a society where such communities are said to be outmoded even antithetical to the major trends of modernization and social change that have transformed Japan in the last hundred years It is a study not of tradition as an aspect of historical continuity but of traditionalism the manipulation invention and recombination of cultural patterns symbols and motifs so as to legitimate contemporary social realities by imbuing them with a patina of venerable historicity It is a study of often subtle and muted struggles between insiders and outsiders over those most ephemeral of the community s resources its identity and sense of autonomy enacted in the seemingly insubstantial idioms of cultural tradition

Dynamics of Learning in Neanderthals and Modern Humans Volume 1 Takeru Akazawa,Yoshihiro Nishiaki,Kenichi Aoki,2013-12-16 This volume presents the first of two proceedings from the International Conference on the Replacement of Neanderthals by Modern Humans which took place in Tokyo in November 2012 Focussing on a highly innovative working hypothesis called the learning hypothesis which attempts to explain the replacement as a result of differences in the learning abilities of these two hominid populations the conference served as the latest multidisciplinary discussion forum on this intriguing Palaeoanthropological issue The present volume reports on outcomes of the conference in three major sections Part 1 provides an archaeological overview of the processes of replacement assimilation of Neanderthals by modern humans Part 2 consists of archaeological and ethnographic case studies exploring evidence of learning behaviours in prehistoric and modern hunter gatherer societies Part 3 presents a collection of papers that directly contributes to the definition validation and testing of the learning hypothesis in terms of population biology and evolutionary theory A total of 18 papers in this volume make available to readers unique cultural perspectives on mechanisms of the replacement assimilation of Neanderthals by modern humans and suggested relationships between these mechanisms and different learning strategies
