*Merchants of Despair* Robert Zubrin, 2012-02-28 There was a time when humanity looked in the mirror and saw something precious worth protecting and fighting for indeed worth liberating But now we are beset on all sides by

propaganda promoting a radically different viewpoint According to this idea human beings are a cancer upon the Earth a horde of vermin whose aspirations and appetites are endangering the natural order This is the core of antihumanism Merchants of Despair traces the pedigree of this ideology and exposes its pernicious consequences in startling and horrifying detail The book names the chief prophets and promoters of antihumanism over the last two centuries from Thomas Malthus through Paul Ehrlich and Al Gore It exposes the worst crimes perpetrated by the antihumanist movement including eugenics campaigns in the United States and genocidal anti development and population control programs around the world Combining riveting tales from history with powerful policy arguments Merchants of Despair provides scientific refutations to all of antihumanism s major pseudo scientific claims including its modern tirades against nuclear power pesticides population growth biotech foods resource depletion and industrial development

**Eugenic Nation** Alexandra Minna Stern, 2005-08-08 Many people assume that eugenics all but disappeared with the fall of Nazism but as this sweeping history demonstrates the idea of better breeding had a wide and surprising reach in the United States throughout the twentieth century With an original emphasis on the American West Eugenic Nation brings to light many little known facts for example that one third of the involuntary sterilizations in this country occurred in California between 1909 and 1979 as it explores the influence of eugenics on phenomena as varied as race based intelligence tests school segregation tropical medicine the Border Patrol and the environmental movement Eugenic Nation begins in the 1900s when influential California eugenicists molded an extensive agenda of better breeding for the rest of the country The book traces hereditarian theories of sex and gender to the culture of conformity of the 1950s and moves to the 1960s arguing that the liberation movements of that decade emerged in part as a challenge to policies and practices informed by eugenics

*Protection Strategy against Spruce Budworm* David A. MacLean, 2020-01-15 Spruce budworm *Choristoneura fumiferana* Clem outbreaks are a dominant natural disturbance in the forests of Canada and northeastern USA Widespread severe defoliation by this native insect results in large scale mortality and growth reductions of spruce *Picea* sp and balsam fir *Abies balsamea* L Mill forests and largely determines future age class structure and productivity The last major spruce budworm outbreak defoliated over 58 million hectares in the 1970s 1980s and caused 32 43 million m<sup>3</sup> year of timber volume losses from 1978 to 1987 in Canada Management to deal with spruce budworm outbreaks has emphasized forest protection spraying registered insecticides to prevent defoliation and keep trees alive Other tactics can include salvage harvesting altering harvest schedules to remove the most susceptible stands or reducing future susceptibility by planting or thinning Chemical insecticides are no longer used and protection strategies use biological insecticides *Bacillus thuringiensis* B t or tebufenozide a specific insect growth regulator Over the last five years a 30 million research project has tested another possible management tactic termed an early intervention strategy aimed at area wide management of spruce budworm populations This includes intensive monitoring to detect hot spots of rising budworm populations before defoliation occurs targeted insecticide treatment to prevent spread and detailed research into

target and non target insect effects The objective of this Special Issue is to compile the most recent research on protection strategies against spruce budworm A series of papers will describe results and prospects for the use of an early intervention strategy in spruce budworm and other insect management **Crimes Against Humanity** Rolf A. F. Witzsche,2003

*Militias, States and Violence against Civilians* Paul Lorenzo Johnson,William Wittels,2023-04-21 This book examines the conditions under which the presence and use of militias result in an increase or a decrease in violence against civilians in intra state conflicts Showcasing the breadth and diversity of modern militias in the context of violence against civilians the volume addresses the predation and repression that many such groups are infamous for as well as increasingly important efforts by other militias at civilian protection in war torn settings The chapters examine militias from around the world drawing on both qualitative and quantitative methods as they cover groups as varied as gangs death squads grassroots community defense groups official state militias and party sponsored armies groups on the civic vice side the civic virtue side and the wide and mixed in between space where most cases fall Taken as a cohesive unit the work lays the foundation for an encompassing theory and interrogation of the causal chain between militia type and operating context and the levels of violence against civilians It provides path breaking theory building and empirical scholarship Policymakers and national security practitioners dealing with issues relating to armed groups will also benefit from the practical issues covered here such as how different forms of sponsorship and training affect militia behavior This book will be of interest to students of civil wars political violence counterinsurgency civil military relations and security studies in general *Development and Women's Reproductive Health in Ghana, 1920-1982* Holly Ashford,2022-12-09 This book investigates the history of women s reproductive health in Ghana arguing that between the 1920s and 1980s it was largely driven by discourses of development and population control rather than a concern for women s health or rights Between the 1920s and 1980s the choices that Ghanaian women made regarding their reproductive health were defined by development policy and practice Spanning the colonial and immediate postcolonial periods this book demonstrates that whilst the substance of development discourse shifted over time principles of development continued to be used to impact and legitimise reproductive health policy and practices well after independence The book explores Ghana s pluralist health system the introduction of maternal and child welfare the dominance of the Red Cross in Ghana s maternal and child health landscape nationalist pronatalism and global population activism In order to understand how global iterations of development and health policy impacted ordinary lives in Ghana the author uses evidence from multiple levels including private papers national archives and records of international and transnational organisations Providing balanced archival perspectives the book includes extensive oral history interviews carried out with both rural Ghanaian women and traditional birth attendants as well as with midwives doctors and family planning fieldworkers This book will have an important impact on a number of historical fields including Ghanaian history global health history global histories of population and family planning and histories of development It will be of interest to

researchers and students in the history of public health development Africa Ghana and gender **The War Against the Family** William D. Gairdner, 2007-08 Inspired by his own passionate experience as a son husband and father Gairdner offers in this book a forum for a long overdue debate about the future of the family in Western civilization *Against the Vortex*

Anthony Galluzzo, 2023-11-03 Like a pastry chef who can MacGyver a five star dessert out of a Twinkie or a Jell O packet Anthony Galluzzo confects something special from the unlikeliest of industrial products the 1974 Connery Rampling vehicle Zardoz Matt Tierney author of What Lies Between Void Aesthetics and Postwar Post Politics Alongside scientific knowledge and collective effort building a degrowth ecological society will require a different set of stories and myths than the big and fast Promethean fables we re accustomed to Using Boorman s Zardoz as a tool Into The Vortex unearths the artistic and intellectual output of a decelerationist 1970s with an eye toward imagining a very different sort of future *The War*

*Against Poverty* A.K. Khanna , 2025-05-19 The War Against Poverty by A K Khanna is a powerful account of how inclusive banking can transform lives Drawing from his decades long career in the Bank of Baroda Khanna shares real life stories and impactful policies that have empowered the rural and urban poor with access to credit livelihood and dignity Inspired by the 20 Point Economic Programme and initiatives like Ram Rajya Banking and Mission Financial Literacy this book offers a blueprint for sustainable development and financial empowerment in India *A Life against the Grain* Julian L.

Simon, 2018-12-20 In his long and distinguished career as a writer and scholar Julian Simon came to be known as one of the leading and most controversial authorities on population economics An immensely productive writer his work is unified by a basic core belief that human intellect and ingenuity are ever renewable resources in the use and preservation of natural resources Inevitably Simon s position provoked the hostility of doctrinaire environmentalists both in academia and in the movement at large However Simon s arguments were invariably built from facts and powerful evidence that stood him well in many high profile public debates The first part of Simon s autobiography takes the reader through his childhood his years as a midshipman and then as an officer in the Navy plus a stint in the Marines and his experiences as a copywriter in an advertising firm Simon s plan after receiving his Ph D from the University of Chicago was to be an entrepreneur which would afford him enough money to care for his parents and allow him free time for writing fiction He ran a small mail order business for two years during which time he wrote his first book How to Start and Operate a Mailorder Business which has since gone through seven editions Deciding to seek a professional career in 1963 he accepted a position at the University of Illinois Although he spent thirty five years of his life as a faculty member at three universities his autobiography contains almost no discussion of departmental affairs or university politics topics about which Simon had little or no interest Rather after the personal chronology and experiences the book includes substantive chapters on research methods population economics and immigration It also explains how Julian Simon became the economist he was He analyzes crucial periods in his life when he developed his ideas on fundamental issues Written in an engaging and amusing manner Julian Simon s

autobiography is a combination of personal memoir and professional contribution to important ideas in economics research methods and demography His observations and personal reflections will interest the general reader on a humanitarian level as well as environmentalists sociologists and economists on a professional level

**Accountability and Transformation: Tier Rankings in the Fight Against Human Trafficking** United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Africa, Global Health, Global Human Rights, and International Organizations,2015

**The Future of Nature** Libby Robin,Sverker Sorlin,Paul Warde,2013-10-22 DIVAn innovative anthology that offers a global perspective on how people think about predicting the future of life on Earth div *Eugenic Nation* Alexandra Stern,2005 The first book to show how huge a part eugenic ideas in the West influenced the entire US a view that reveals that these ideas did not die after World War II but especially in the form of ideas of hereditary weakness that particularly blamed mothers remained strong in the 1950s and in many ways led to the 1960s liberation movements

**Razing Rafah** Fred Abrahams,Marc E. Garlasco,Darryl Li,2004 This report show most of the destruction in Rafah occurred along the Israel controlled border between the Gaza Strip and Egypt During regular nighttime raids and with little or no warning Israel forces used armored caterpillar D9 bulldozers to raze blocks of homes at the edge of the camp incrementally expanding a buffer zone that is currently up to three hundred meters wide The pattern of destruction strongly suggests that Israeli forces demolished homes wholesale regardless of whether they posed a specific threat in violation of international law In most cases Human Rights Watch found the destruction carried out in the absence of military necessity

**A Humanity Mass Movement (Environment Eco-Green Manifestos)** Ernest E. S. Yee,2015-12-01 I feel deeply and passionately about the environmental problems were facing today all over the world I want to sound out and awaken the citizens of the world to take immediate actions to safeguard the well being of humanity and mother earth Some of the ideas may be provocative and may sound simplistic but it is the only way to awaken citizens of the world to take immediate actions and not keep on with careless attitude It is only by provocations and needling the people that they will be awakened to todays worlds urgent environmental problems and rise up to safeguard it personally and collectively for their own well being and also for the well being of the future generations of humanity Please read the declarations and the eighty four items listed in the concise little booklet for more information and actions for the well being of our fragile environment and also the manifestos to take personal actions as part of collective actions for the well being of our own daily living and our future generations on mother earth
