Populism And Elitism Politics In The Age Of Equality

Robert W. Merry

Populism And Elitism Politics In The Age Of Equality:

Populism and Elitism Jeffrey Bell, 1992-05 Political analyst and strategist Jeff Bell redefines American politics in this thoughtful and eminently readable book According to Bell labels such as liberal vs conservative left vs right socialist vs capitalist even Republican vs Democrat do not explain much anymore Instead the dominant philosophies are populist rule by the public and elitist rule by a select few

Asian Americans and the Spirit of Racial Capitalism Jonathan Tran, 2022 Any serious consideration of Asian American life forces us to reframe the way we talk about racism and antiracism There are two contemporary approaches to antiracist theory and practice The first emphasizes racial identity to the exclusion of political economy making racialized life in America illegible This approach's prevalence in the academy and beyond now rises to the level of established doctrine The second approach views racial identity as the function of a particular political economy what is called racial capitalism and therefore analytically subordinates racial identity to political economy Jonathan Tran develops arguments in favor of this second approach He does so by means of an extended analysis of two case studies a Chinese migrant settlement in the Mississippi Delta 1868 1969 and the Redeemer Community Church in the Bayview Hunters Point section of San Francisco 1969 present While his analysis is focused on particular groups and persons he uses it to examine more broadly racial capitalism's processes and commitments at the sites of their structural and systemic unfolding In pursuing a research agenda that pushes beyond the narrow confines of racial identity Tran reaches back to trusted modes of analysis that have been obscured by the prevailing antiracist orthodoxy and proposes reframing antiracism in terms of a theologically salient account of political economy

Re-inventing the Italian Right, **Contemporary Populism** Sergiu Gherghina, Sergiu Mişcoiu, Sorina Soare, 2013-07-16 The fundamental question uniting the contributions to this volume is what exactly is populism This is certainly not a new question as a large amount of literature has focused on this topic for more than half a century As little conceptual consensus has been reached so far this book aims to reduce the level of abstraction To this end it approaches the populist phenomenon from a broader theoretical and empirical perspective making reference to its developments on several continents The book is divided into two parts the first is theoretical and discusses various perspectives on populism while the second is empirical and emphasises the diversity of the forms populism has embraced throughout the world Without aiming to solve old dilemmas to cover all the existing forms of populism or to outline unequivocal conclusions the contributions to this book fulfil a twofold task On the one hand they help to clarify theoretically a concept that is difficult to grasp and use On the other hand by way of reflecting these difficulties they present several forms of populism worldwide Their main purpose is to highlight the differences between the continents Each of the chapters in the second section successfully accomplishes this providing an overview that is useful both in analysing populism and in identifying the populist elements in national and international political actions or discourses

Reelpolitik Ideologies in American Political Film Beverly Merrill Kelley, 2012-03-22 In *Reelpolitik Ideologies in American Political Film* Beverly Merrill

Kelley examines more than a century of political movie history providing a thorough historical background for diametrically opposed political ideologies in order to facilitate debate and dialectical learning Kelley explores 185 American political movies categorized by ideological themes and presented in chronological order in order to illustrate the history of film as well as the history of the specific political ideology Each chapter includes a case study which provides an in depth analysis of the single film that best illustrates the ideology at hand including The Candidate populism Wall Street elitism The Godfather fascism All the President s Men anti fascism Patton interventionism and M A S H isolationism *Reelpolitik Ideologies in American Political Film* establishes a paradigmatic analysis of political films that details the cyclical nature of ideological dialectic throughout American history and identifies the values attitudes and beliefs of the voters who choose not to affiliate with Republicans and Democrats and who often determine the outcomes of elections The text also includes an extensive ideological filmology spanning more than 100 years of American cinema This study represents a bold investigation of the political and social values of American film and is an essential text in the study of the relationship between culture and politics

The Reagan Presidency W. Elliot Brownlee, Hugh Davis Graham, 2003 Table of contents *Reelpolitik II* Beverly Merrill Kelley, 2004 With reference to eight classic American movies this text explores the political ideologies thrumming through the American psyche during the Cold War period

American Conservatism Andrew J. Bacevich, 2020-04-07 As the nation stands at a crossroads this valuable collection urges us to reexamine the ideas and values of the American conservative tradition offering a bracing tonic for the present chaos The Washington Post A groundbreaking collection of mainstream conservative writings since 1900 featuring pieces by Ronald Reagan Antonin Scalia Joan Didion and more What is American conservatism What are its core beliefs and values What answers can it offer to the fundamental questions we face in the twenty first century about the common good and the meaning of freedom the responsibilities of citizenship and America s proper role in the world As libertarians neoconservatives Never Trump ers and others battle over the label this landmark collection offers an essential survey of conservative thought in the United States since 1900 highlighting the centrality of four key themes the importance of tradition and the local resistance to an ever expanding state opposition to the threat of tyranny at home and abroad and free markets as the key to sustaining individual liberty Andrew J Bacevich s incisive selections reveal that American conservatism in his words more akin to an ethos or a disposition than a fixed ideology has hardly been a monolithic entity over the last 120 years but rather has developed through fierce internal debate about basic political and social propositions Well known figures such as Ronald Reagan and William F Buckley are complemented here by important but less familiar thinkers such as Richard Weaver and Robert Nisbet as well as writers not of the political right like Randolph Bourne Joan Didion and Reinhold Niebuhr who have been important influences on conservative thinking More relevant than ever this rich too often overlooked vein of writing provides essential insights into who Americans are as a people and offers surprising hope in a time of extreme polarization for finding common ground It

deserves to be rediscovered by readers of all political persuasions

The Age of Reagan: The Fall of the Old Liberal

Order Steven F. Hayward, 2009-06-09 The Age of Reagan brings to life the tumultuous decade and a half that preceded Ronald Reagan's ascent to the White House. Drawing on scores of interviews and years of research, Steven F. Hayward takes us on an engrossing journey through the most politically divisive years the United States has had to endure since the decade before the Civil War. Hayward captures an America at war with itself and an era whose reverberations we feel to this very day. He brings new insight into the profound failure of Lyndon Johnson's Great Society, the oddly liberal nature of Richard Nixon's administration, the significance of Reagan's years as California's governor, the sudden death drama of his near defeat of Gerald Ford in the 1976 Republican primary, the listlessness of Jimmy Carter's leadership, and the political earthquake that was Reagan's victorious presidential campaign in 1980. Provocative, authoritative, and majestic in scope, *The Age of Reagan* is an unforgettable account of the rebirth and triumph of the American spirit.

One Market Under God Thomas

Frank, 2001-09-18 In a book that has been raising hackles far and wide, the social critic Thomas Frank skewers one of the most sacred cows of the go-go 90s: the idea that the new free market economy is good for everyone. Frank's target is market populism, the widely held belief that markets are a more democratic form of organization than democratically elected governments. Refuting the idea that billionaire CEOs are looking out for the interests of the little guy, he argues that the great euphoria of the late nineties was never as much about the return of good times as it was the giddy triumph of one America over another. Frank is a latter-day Menckens as readers of his journal *The Baffler* and his book *The Conquest of Cool* know. With incisive analysis, passionate advocacy, and razor-sharp wit, he asks where we are headed and whether we're going to like it when we get there.

Beyond Left & Right David A.

Horowitz, 1997 *Beyond Left and Right* is a sweeping overview of political insurgency in the United States from the 1880s to the present. It is at once a stunning synthesis drawing on a large number of scholarly works and an ambitious and original piece of research. The book ranges over diverse individuals and groups that have attacked the established order from the left and the right: from the Populists of the 1890s to Ross Perot and the religious right of our times; dealing along the way with non-interventionists, Klans, monetary radicals, McCarthyites, Birchers, and Reaganites among many others.

American Credo Michael Foley, 2007-09-13

If America has a claim to exceptionalism, *American Credo* locates it in a little understood ability to engage in deep conflicts over political ideas while at the same time reducing adversarial positions to legitimate derivatives of American history and development.

A Free

Society Reader Michael Novak, William Brailsford, Cornelis Heesters, 2000-09-06 *A Free Society Reader* rises to the challenge of freedom in the twenty-first century, offering thoughts and insights with significant implications for citizens of today's brand-new world. Our era's most prominent figures in the fields of Christianity and liberty speak about Pope John Paul II's vision of a free society, conceptualize Christianity and political economy, debate issues of democracy and the free society, and question the role of culture. Together for the first time in one volume, these preeminent thinkers provide inspiration and

insight to scholars students and general readers charting the enormous changes the new millennium has seen

Strengthening Anti-Racist Educational Leaders Anjalé D. Welton, Sarah Diem, 2021-10-21 This edited volume expands on the existent research on anti racist educational leadership by identifying what type of capacity building is needed for school administrators to facilitate anti racist change in their schools Racial inequities in education persist in part because the solutions that districts and schools choose to employ largely ignore why and how institutional and structural racism is the root cause of inequities in education Yet racial inequities in schooling can be redressed if districts and schools have leaders who are deeply committed to combatting racism in their daily practice and structures of schooling This book underscores why we need more educational leaders who adopt an anti racist stance in how they lead and are prepared to work toward racial justice and equity in a society so entrenched in racism Through diverse perspectives and voices including scholars in the field of educational leadership sociologists of education school and district administrators and grassroots community members and activist groups this book addresses issues related to anti racist educational leadership at various levels

Globalization and Liberalism Trevor Shelley, 2020-04-30 In this learned and wide ranging book Trevor Shelley engages the controversial topic of globalization through philosophical exegesis of great texts Globalization and Liberalism illustrates and defends the idea that at the heart of the human world is the antinomy of the universal and the particular Various thinkers have emphasized one aspect of this tension over the other Some such as Rousseau and Schmitt have defended pure particularity Others such as Habermas have uncritically welcomed the intimations of the world state Against these twin extremes of radical nationalism and antipolitical universalism this book seeks to recover a middle or moderate position the liberal position To find this via media Shelley traces a tradition of French liberal political thinkers who take account of both sides of the antinomy Montesquieu Tocqueville and Manent As Shelley argues each of these thinkers defends the integrity of political bodies denies that the universal perspective is the only legitimate perspective and recognizes that without differences and distinctions across the political landscape self government and freedom of action are impossible As human beings we can live free and fulfilling lives neither as isolated individuals nor as members of humanity Rather we require a properly constituted particular political community in which we can make manifest our universal humanity In the liberalism of these three thinkers we find the resources to think through what such a political community might look like Globalism and Liberalism demonstrates the importance of these writers for addressing today s challenges and will interest political theorists historians of political thought and specialists of French political thought

Where Did the Party Go? Jeff Taylor, 2006 Using a twelve point model of Jeffersonian thought Taylor appraises the competing views of two Midwestern liberals William Jennings Bryan and Hubert Humphrey on economic policy foreign relations and political reform to demonstrate how the Democratic party lost its place in Middle America Provided by publisher

Godly Republic John J. DiIulio, 2007-10-15 Do you know if you are going to heaven Shortly after being appointed the first Director of Faith Based and Community Initiatives

the faith czar John J DiIulio Jr was asked this question Suddenly DiIulio a Catholic Democrat who pioneered programs for inner city children was acutely aware that he was no longer a private citizen who might have humored the television evangelist standing before him Now he was as he recalls in his introduction responsible for assisting the president in faithfully upholding the Constitution and faithfully acting in the public interest without regard to religious identities Using his brief tenure in the George W Bush administration as a springboard this lively informative and entertaining book leaps into the ongoing debate over whether as a nation America is Christian or secular and to what degree church state separation is compelled by the Constitution Avoiding political pieties DiIulio makes an impassioned case for a middle way Written by a leading political scholar Godly Republic offers a fast paced faith inspired and fact based approach to enhancing America's civic future for one and all

Where They Stand Robert W. Merry, 2012-06-26 The author of the acclaimed biography of President James Polk *A Country of Vast Designs* offers a fresh playful and challenging way of playing Rating the Presidents by pitching historians' views and subsequent experts' polls against the judgment and votes of the presidents' own contemporaries Merry posits that presidents rise and fall based on performance as judged by the electorate Thus he explores the presidency by comparing the judgments of historians with how the voters saw things Was the president reelected If so did his party hold office in the next election *Where They Stand* examines the chief executives Merry calls Men of Destiny those who set the country toward new directions There are six of them including the three nearly always at the top of all academic polls Lincoln Washington and FDR He describes the Split Decision Presidents including Wilson and Nixon successful in their first terms and reelected less successful in their second terms and succeeded by the opposition party He describes the Near Greats Jefferson Jackson Polk TR Truman the War Presidents Madison McKinley Lyndon Johnson the flat out failures Buchanan Pierce and those whose standing has fluctuated Grant Cleveland Eisenhower This voyage through our history provides a probing and provocative analysis of how presidential politics works and how the country sets its course *Where They Stand* invites readers to pitch their opinions against the voters of old the historians the pollsters and against the author himself In this year of raucous presidential politics *Where They Stand* will provide a context for the unfolding campaign drama

Democracy in the Undemocratic State Brett Fairbairn, 1997 On 16 June 1898 7 8 million ballots were cast five years later it was 9 5 million These millions of individual choices made within particular historical and political contexts revealed a cross section of the German political nation at the turn of the century The numbers and percentages reflected not only sociological and social economic groupings in the population but also the contextual factors of issues images strategies and tactical voting and they were conditioned by the particular institutions of mobilization and representation

What Were They Thinking? James Walter, Professor of Australian Studies James Walter, 2010-10 Ideas are at the heart of our politics They are the means by which people are influenced and mobilised Australian politics have been shaped by distinctive patterns of political thought from the colonial period to the Rudd government But how have these patterns arisen And what have been

their effects on shaping what we think is politically possible or desirable This book is not a survey of theory but an invigorating history of people trying to make sense of their world fighting to establish the principles governing the way politics is pursued and justifying their own perspectives What Were They Thinking is a compelling story of winners and losers of individuals interpreting and trying to influence their times and of how ideas and power are linked
