

POPULISM IN LATIN AMERICAN POLITICS

Carlos de la Torre

ABSTRACT

This chapter explores how scholars have conceptualized the relationship between Latin American populism and democracy. It analyzes different approaches to populism such as modernization and dependency theory, and current approaches that focus on discourse analysis and/or political strategies. The chapter focuses on the current wave of radical populism to explore the continuities and differences between “classical” populism of leaders such as Juan Perón, the “neopopulism” of Alberto Fujimori, and the radical populism of Hugo Chávez, Evo Morales, and Rafael Correa.

Gino Germani an Italian-born sociologist who sought refuge from Mussolini's jail in Argentina set the research agenda for the study of Latin American populism. He argued that national populist regimes, such as Peronism, were a phase in the transition to modernity. Relying on mass society he claimed that abrupt process of modernization such as urbanization and industrialization produced masses in a state of anomie that

Social Movements in Latin America Ronaldo Munck,2020-10-22 Social movements are a key feature of the political and social landscape of Latin America Ronaldo Munck explores their full range emanating from different sections of Latin American society and motivated by many different concerns including worker organizations peasant and land reform movements Indigenous groups women s movements and environmental groups Although the mosaic of interlocking and connected issues and rights presents a complex map of social concerns and potentially a fragmented political force these movements are likely to be at the centre of any future progressive politics in Latin America As a result they require careful understanding and a more nuanced theoretical approach Drawing on insights from Latin American approaches to social movement theory the book offers a distinctive contribution to social movement literature The text incorporates detailed case studies and a methodological appendix for students wishing to develop their own research agendas in the field

Visions of Transformation Aaron Augsburger,2025-04-22 On a wave of revolutionary upheaval in the early twenty first century Evo Morales was swept into state power as Bolivia s first Indigenous president with a mandate to radically transform the country The ensuing period known simply as el proceso de cambio the process of change has been a tension filled and contradictory process involving progressive transformations ambiguous continuities and outright revolutionary failures Importantly the contradictions have been just as much ideological as they are material By examining and illuminating the contrasting logics underlying opposing theories of revolutionary change Visions of Transformation provides an analytical framework through which to understand and interpret the central conflicts and contradictions of Bolivia under Evo Morales and the Movimiento al Socialismo Based on nearly two years of immersive fieldwork Visions of Transformation explores the relation between theoretical production and political practice Through the contrasting perspectives of hegemony and plurinationality the book analyzes three specific conjunctural moments a proposed highway through the TIPNIS a conflict over representation of the highland Indigenous movement organization CONAMAQ and the struggle for Indigenous autonomy to shed light on the primary economic social political and theoretical tensions at the heart of Bolivia s proceso de cambio

Reshaping the Political Arena in Latin America Eduardo Silva,Federico Rossi,2018-05-22 Neoliberalism changed the face of Latin America

and left average citizens struggling to cope in many ways Popular sectors were especially hard hit as wages declined and unemployment increased The backlash to neoliberalism in the form of popular protest and electoral mobilization opened space for leftist governments to emerge The turn to left governments raised popular expectations for a second wave of incorporation Although a growing literature has analyzed many aspects of left governments there is no study of how the redefinition of the organized popular sectors their allies and their struggles have reshaped the political arena to include their interests until now This volume examines the role played in the second wave of incorporation by political parties trade unions and social movements in five cases Argentina Bolivia Brazil Ecuador and Venezuela The cases shed new light on a subject critical to understanding the change in the distribution of political power related to popular sectors and their interests a key issue in the study of postneoliberalism A Select Bibliography On Economic Development John P. Powelson,2019-05-20

This bibliography of more than 2 000 titles contains both books and journal articles primarily those published since 1970

Most of the entries are annotated The material is classified according to forty eight categories and there is also a list of relevant titles for each major country in Africa Asia and Latin America **Developments in Latin American Political Economy** J. Buxton,N. Phillips,1999-08-20

The first part of the volume addresses the changing nature and interaction of the state and the market in Latin American countries as well as the principal challenges of consolidating political and economic reform in a period of profound change The second part of the book examines a variety of traditional and non traditional political roles ranging from the military to women and from the environmental lobby to human rights It explores the ways in which the changing composition of the political debate is shaping the political arena Forward looking in its approach to volume provides readers with an indication of factors which will be of key significance in the immediate future the tensions which have yet to be resolved and the prospects ahead **Challenges to Democracy in Latin America and the Caribbean** Mitchell A. Seligson,2008

1974 Annual Supplement Joan Schmitz Bergholt,2013-12-21 *Populist Discourse in Venezuela and the United States* Ritchie Savage,2018-01-11 Using the conceptual framework of populism as discourse Ritchie Savage provides a comparative analysis of U S and Latin American speeches and articles covering Betancourt s Acci n Democr tica Ch vez McCarthyism and the Tea Party In so doing he reveals an essential structure to populist discourse reference to the opposition as a representation of the persistence of social conflict posed against a collective memory of the origins of democracy and struggle for equality is present in all cases This discursive formation of populism is carried out in comparisons of political discourse in the United States and Venezuela two countries that are typically classified as empirically specific in their economic and political development and ideological orientation *Populist Discourse in Venezuela and the United States* explores how instances of populism once exceptional phenomena within modern forms of political rule are becoming increasingly integrated with the structure of democratic politics Modernization, Urbanization and Development in Latin America, 1900s - 2000s Arturo Almandoz,2014-10-10

In this book Arturo Almandoz places the major

episodes of Latin America's twentieth and early twenty first century urban history within the changing relationship between industrialization and urbanization modernization and development This relationship began in the early twentieth century when industrialization and urbanization became significant in the region and ends at the beginning of the twenty first century when new tensions between liberal globalization and populist nationalism challenge development in the subcontinent much of which is still poverty stricken Latin America's twentieth century modernization and development are closely related to nineteenth century ideals of progress and civilization and for this reason Almandoz opens with a brief review of that legacy for the different countries that are the focus of his book Mexico Chile Brazil Argentina and Venezuela but with references to others He then explores the regional distortions which resulted from the interaction between industrialization and urbanization and how the imbalance between urbanization and the productive system helps to explain why take off was not followed by the drive to maturity in Latin American countries He suggests that the close yet troublesome relationship with the United States the recurrence of dictatorships and autocratic regimes and Marxist influences in many domains are all factors that explain Latin America's stagnation and underdevelopment up to the so called lost decade of 1980s He shows how Latin America's fate changed in the late twentieth and early twenty first century when neoliberal programmes political compromise and constitutional reform dismantled the traditional model of the corporate state and centralized planning He reveals how economic growth and social improvements have been attained by politically left wing yet economically open market countries while others have resumed populism and state intervention All these trends make up the complex scenario for the new century especially when considered against the background of vibrant metropolises that are the main actors in the book

¡Vamos a Avanzar! Robert Niebuhr, 2021-08 Robert Niebuhr explores the importance of the turbulent populist politics of the period after 1899 and the significance of the Chaco War as the most influential revolution in modern Bolivian history

Rural protest groups and populist political parties Dirk Strijker, Gerrit Voerman, Ida Terluin, 2023-08-07 Some agricultural or rural protest groups in the Western world evolved into political parties often of a populist nature whereas others did not This book is the first to explore under which conditions this happens and to what extent current populist parties have agricultural or rural ties and related agendas Well known authors with a background in rural studies or in political sciences describe and analyse the situation in a number of Western countries the United Kingdom France Poland Austria the Netherlands Australia Finland The contributions in this book show that the accessibility and responsiveness of the political system and the institutionalized agrarian interest groups as well as the existing political landscape are influencing the decisions of rural protest groups to found a political party However nowadays the chances of these parties being successful are small due to the declining share of the agricultural sector within European societies Although there will always be grounds for agrarian protest it seems safe to say that the heyday of agrarian populism is over
