Macs Portable Genius Paul McFedries, 2008-10-03 You're one of the legions of fans who enjoy the ease and simplicity of the Mac. But some functions still elude you. How do you synch your Mac with other devices? What are the best ways to organize your life and files with your Mac? Can you get more from your Mac hardware or upgrade it? The Portable Genius is here to help. With expert advice and a Mac-savvy attitude, the Macs Portable Genius guides you through getting the most out of your Mac. From the Introduction: Welcome to Macs Portable Genius. This book is like a mini Genius Bar, all wrapped up in an easy-to-use, easy-to-access, and eminently portable format. In this book, you learn how to get more out of your Mac by learning how to access all the really powerful and timesaving features that aren't obvious at a casual glance. In this book, you learn how to avoid your Mac's more annoying character traits, and in those cases where such behavior can't be avoided, you learn how to work around it. In this book, you learn how to prevent Mac problems from occurring, and just in case your preventative measures are for naught, you learn how to fix many common problems yourself. This book is for Mac users who know the basics but want to take their Mac education to a higher level. It's a book for people who want to be more productive, more efficient, more creative, and more self-sufficient at least as far as their Mac goes anyway. It's a book for people who use a Mac every day but would like to incorporate that Mac into more of their day-to-day activities. It's a book for people who pooh-pooh the notion that Mac users are a cult, but if someone decided to start an actual Mac cult, they'd join anyway. It's a book I had a blast writing, so I think it's a book you'll enjoy reading. Portable Book Of Birthdays Dennis Fairchild, Peter
