Cohen, 2020-07-21 Reading African art's impact on modernism as an international phenomenon The Black Art Renaissance tracks a series of twentieth century engagements with canonical African sculpture by European African American and sub Saharan African artists and theorists Notwithstanding its occurrence during the benighted colonial period the Paris avant garde discovery of African sculpture known then as art nègre or black art eventually came to affect nascent Afro modernisms whose artists and critics commandeered visual and rhetorical uses of the same sculptural canon and the same term Within this trajectory black art evolved as a framework for asserting control over appropriative practices introduced by Europeans and it helped forge alliances by redefining concepts of humanism race and civilization From the Fauves and Picasso to the Harlem Renaissance and from the work of South African artist Ernest Mancoba to the imagery of Negritude and the cole de Dakar African sculpture's influence proved transcontinental in scope and significance Through this extensively researched study Joshua I Cohen argues that art history's alleged centers and margins must be conceived as interconnected and mutually informing The Black Art Renaissance reveals just how much modern art has owed to African art on a global scale **The Art Journal**, 1875 *The Works ... Jacopo Tintoretto 1518-94 is an ambiguous figure in the history of art. His radically unorthodox paintings are not readily classifiable and although he was a Venetian by birth, his standing as a member of the Venetian school is constantly contested. But he was also a formidable maverick, abandoning the humanist narratives and sensuous color palette typical of the great Venetian master Titian in favor of a renewed concentration on core Christian subjects, painted in a rough and abbreviated chiaroscuro style. This generously illustrated book offers an extensive analysis of Tintoretto's greatest paintings, charting his life and work in the context of Venetian art and the culture of the Cinquecento. Tom Nichols shows that Tintoretto was an extraordinarily innovative artist who created a new manner of painting, which for all of its originality and sophistication was still able to appeal to the shared emotions of the widest possible audience. This compact pocket edition features sixteen additional illustrations and a new afterword by the author, and it will continue to be one of the definitive treatments of this once grossly overlooked master.

More than 100 internationally recognized scholars, museum professionals, artists, and art critics contributed signed essays to this monumental work, including historians, sociologists, and literary historians.
