led by young and idealistic white college graduates searching for authenticity and life outside the burgeoning suburbs Where postwar city leaders championed slum clearance and modern architecture brownstoners as they called themselves fought for a new romantic urban ideal that celebrated historic buildings industrial lofts and traditional ethnic neighborhoods as a refuge from an increasingly technocratic society Osman examines the emergence of a slow growth progressive coalition as brownstoners joined with poorer residents to battle city planners and local machine politicians But as brownstoners migrated into poorer areas race and class tensions emerged and by the 1980s as newspapers parodied yuppies and anti gentrification activists marched through increasingly expensive neighborhoods brownstoners debated whether their search for authenticity had been a success or failure Music in Print Master Title Index ,1990 *Reference Guide to American Literature*
