Lukasik, 2011-07-11 In this path-breaking study of the intersections between visual and literary culture Christopher J. Lukasik explores how early Americans grappled with the relationship between appearance and social distinction in the decades between the American Revolution and the Civil War Through a wide range of evidence including canonical and obscure novels newspapers periodicals scientific and medical treatises and plays as well as conduct manuals portraits silhouettes and engravings *Discerning Characters* charts the transition from the eighteenth-century's emphasis on performance and manners to the search for a more reliable form of corporeal legibility in the wake of the Revolution The emergence of physiognomy which sought to understand a person's character based on apparently unchanging facial features facilitated a larger shift in perception about the meanings of physical appearance and its relationship to social distinction The ensuing struggle between the face as a pliable medium of

cultural performance and as rigid evidence of social standing Lukasik argues was at the center of the post Revolutionary novel which imagined physiognomic distinction as providing stability during a time of cultural division and political turmoil As Lukasik shows this tension between a model of character grounded in the fluid performances of the self and one grounded in the permanent features of the face would continue to shape not only the representation of social distinction within the novel but more broadly the practices of literary production and reception in nineteenth century America across a wide range of media The result is a new interdisciplinary interpretation of the rise of the novel in America that reconsiders the political and social aims of the genre during the fifty years following the Revolution In so doing *Discerning Characters* powerfully rethinks how we have read and continue to read both novels and each other **St. Louis** Walter Barlow Stevens,1911

**At Emerson's Tomb** John Carlos Rowe,1997 Challenges the conventional critical reading of the American poetic project as an engagement with or reaction against Emersonian thought Rowe demonstrates how ideals of individualism intellectualism and otherworldiness inevitably undermine any political effectiveness that a writer may seek to achieve

Dinius,2012-03-15 Before most Americans ever saw an actual daguerreotype they encountered this visual form through written descriptions published and rapidly reprinted in newspapers throughout the land In *The Camera and the Press* Marcy J Dinius examines how the first written and published responses to the daguerreotype set the terms for how we now understand the representational accuracy and objectivity associated with the photograph as well as the democratization of portraiture that photography enabled Dinius s archival research ranges from essays in popular nineteenth century periodicals to daguerreotypes of Americans Liberians slaves and even fictional characters Examples of these portraits are among the dozens of illustrations featured in the book *The Camera and the Press* presents new dimensions of Nathaniel Hawthorne s *The House of the Seven Gables* Herman Melville s *Pierre* Harriet Beecher Stowe s *Uncle Tom s Cabin* and Frederick Douglass s *The Heroic Slave* Dinius shows how these authors strategically incorporated aspects of daguerreian representation to advance their aesthetic political and social agendas By recognizing print and visual culture as one Dinius redefines such terms as art objectivity sympathy representation race and nationalism and their interrelations in nineteenth century America **The Catholic Encyclopedia** Charles George Herbermann,1913 **Catalogue of the Corcoran Gallery of Art** Corcoran Gallery of Art,1901
