Literacy Beyond Text Comprehension M. Anne Britt, Jean-François Rouet, Amanda Durik, 2017-07-06 Literacy Beyond Text Comprehension aims to systematically investigate how readers interpret reading tasks within a situation and how that interpretation influences reading behavior and comprehension Presenting a new model of REading as problem SOLVing RESOLV the authors describe reading comprehension in terms of how a reader adopts goals within a particular situation that then guide what is read when and how By applying the RESOLV model to a range of reading situations this book provides evidence to suggest that there is no unitary understanding of a task because individuals bring their own goals and characteristics to the situation as such it demonstrates the importance of understanding how a reader e g student test taker employee completing a work task represents the context and the specific assignment Written by internationally recognized learning sciences scholars Literacy Beyond Text Comprehension advances the state of the art in reading research but also seeks to inform a broader range of audiences including those interested in the teaching and the assessment of reading

The Space between Look and Read Susan M. Hagan, 2023-04-18 Unleashing the potential that can be found in the space between words and images Designers have long understood that image text and typeface can work together to produce new meanings creating semiotic

registers impossible to achieve with image or text alone In *The Space Between Look and Read* a study of complementary meaning in design Susan Hagan presents a framework called Inter play which explains how these new meanings emerge Inter play is not simply an analytical tool it is also a method for using complementary meaning to encourage critical thinking in design audiences Drawing from cognitive psychology art theory discourse analysis design and rhetoric Hagan breaks down the synthesis of looking and reading into a complex series of registers which are revealed through examples of excellent design Thus the book is both a theoretical exploration of how designers communicate and a casebook in communication well achieved From the physiology of vision to the limits of language from Allan Paivio to Uwe Loesch *The Space Between Look and Read* expands our understanding of complementary design and argues that by engaging audiences through multiple cognitive registers complementary design serves as a cognitive tool helping audiences reach new conclusions about complex problems
