Olson, Todd W. Taylor, 1997-03-13 Publishing in Rhetoric and Composition is a collection of essays about the politics and practices of generating scholarship in rhetoric and composition The contributors to this book many of whom are current or past editors of the discipline s most prestigious scholarly journals undoubtedly have their finger on the pulse of composition s most current scholarship and offer invaluable insight into the production and publication of original research They discuss publishing articles and reviews as well as book length projects including scholarly monographs edited collections and textbooks They also address such topics as how composition research is valued in English departments recent developments in electronic publishing the work habits of successful academic writers and the complications of mentoring graduate students in a publish or perish profession An inviting and helpful tone makes this an ideal textbook for research methodology and professional writing courses **A New Writing Classroom** Patrick Sullivan, 2014-07-15 In A New Writing Classroom Patrick Sullivan provides a new generation of teachers a means and a rationale to reconceive their approach to teaching writing calling into question the discipline s dependence on argument Including secondary writing teachers within his purview Sullivan advocates a more diverse exploratory and flexible approach to writing activities in grades six through thirteen A New Writing Classroom encourages teachers to pay more attention to research in learning theory transfer of learning international models for nurturing excellence in the classroom and recent work in listening to teach students the sort of dialogic stance that leads to higher order thinking and more sophisticated communication The conventional argumentative essay is often a simplistic form of argument widely believed to be the most appropriate type of writing in English classes but other kinds of writing may be more valuable to students and offer more important kinds of cognitive challenges Focusing on listening and dispositions or habits of mind as central elements of this new composition pedagogy A New Writing Classroom draws not just on composition studies but also on cognitive psychology philosophy learning theory literature and history making an exciting and significant contribution to the field **Concepts in Composition** Irene L. Clark, 2011-09 A textbook for composition pedagogy courses It focuses on scholarship in rhetoric and composition that has influenced classroom teaching in order to foster reflection on how theory impacts practice **Mestiz@ Scripts, Digital Migrations, and the Territories of Writing** D. Baca, 2008-05-26 Conventional scholarship on written communication positions the Western alphabet as a precondition for literacy Thus pictographic non verbal writing practices of Mesoamerica remain obscured by representations of lettered speech This book examines how contemporary Mestiz scripts challenge alphabetic dominance thereby undermining the colonized territories of writing Strategic weavings of Aztec and

European inscription systems not only promote historically grounded accounts of how recorded information is expressed across cultures but also speak to emerging studies on visual multimodal education Baca Espinosa argues that Mestiz literacies advance new ways of reading and writing applicable to diverse classrooms of the twenty first century Ways of Reading David Bartholomae,Anthony Petrosky,2008-02-07 In the late 1970s instructors at the University of Pittsburgh recognized that students were entering the school unprepared for the rigors of academic life The university s response was to develop a course offering challenging material readings requiring serious attention along with a method of reading and rereading that helped students learn to read and think critically and respond in writing That course proved enormously successful and its materials and methods were published as Ways of Reading Often imitated but never duplicated Ways of Reading has for over twenty years profoundly influenced the teaching of writing It continues to offer students and instructors a uniquely exciting and challenging approach to first year composition integrating reading writing and critical thinking with an unparalleled selection of readings and editorial features Ways of Reading helps students develop the necessary intellectual skills for college level academic work while engaging them in conversations with key academic and cultural texts It bridges the gap between contemporary critical theory and composition so that instructors can connect their own scholarly work with their teaching Adopted and readopted from coast to coast in a wide variety of schools hundreds of instructors and thousands of students confirm that it works **Writing on the Margins** D. Bartholomae,2016-05-24 A collection of twenty one essays by David Bartholomae Writing on the Margins includes selections that have helped shape the discipline of composition studies With a wide ranging introduction and three retrospective postscripts to set the essays in context it serves as a valuable reference and as a powerful introduction to crucial issues in the field This book has been awarded the MLA s Mina P Shaughnessy Award recognizing an outstanding research publication on the teaching of English **Chasing Literacy** Daniel Keller,2013-12-02 Arguing that composition should renew its interest in reading pedagogy and research Chasing Literacy offers writing instructors and literacy scholars a framework for understanding and responding to the challenges posed by the proliferation of interactive and multimodal communication technologies in the twenty first century Employing case study research of student reading practices Keller explores reading writing connections in new media contexts He identifies a culture of acceleration a gathering of social educational economic and technological forces that reinforce the values of speed efficiency and change and challenges educators to balance new faster literacies with traditional slower literacies In addition Keller details four significant features of contemporary literacy that emerged from his research accumulation and curricular choices literacy perceptions speeds of rhetoric and speeds of reading Chasing Literacy outlines a new reading pedagogy that will help students gain versatile dexterous approaches to both reading and writing and makes a significant contribution to this emerging area of interest in composition theory and practice **Resources in Education** ,1998 **Paperbound Books in Print** ,1992 **Teachers on the Edge** John Boe,David Masiel,Eric Schroeder,Lisa
