Basic Income, Unemployment and Compensatory Justice Loek Groot, 2012-11-06 Basic income is a regularly debated topic in various scholarly disciplines political philosophy political theory welfare economics labour market economics and social policy and in circles of policy makers administrators and activists Since the late 1970s unemployment is the primary problem for social economic policy in all welfare states In *Basic Income Unemployment and Compensatory Justice* it is argued that implementing a substantial basic income is the best policy response to deal with unemployment induced problems such as job insecurity social exclusion poverty and lack of compensatory justice on the labour market and to improve labour market flexibility boost low wage employment and part time work *Basic Income Unemployment and Compensatory Justice* with an introductory chapter by Philippe van Parijs discusses the attractiveness of

a substantial basic income to deal with the problem of unemployment in combination with an ethical perspective of social justice Loek Groot is a senior lecturer at the Utrecht School of Economics

Politics Recovered Matt Sleat, 2018-03-13 Is political theory political enough Or does a tendency toward abstraction idealization moralism and utopianism leave contemporary political theory out of touch with real politics as it actually takes place and hence unable to speak meaningfully to or about our world Realist political thought which has enjoyed a significant revival of interest in recent years seeks to avoid such pitfalls by remaining attentive to the distinctiveness of politics and the ways its realities ought to shape how we think and act in the political realm *Politics Recovered* brings together prominent scholars to develop what it might mean to theorize politics realistically Intervening in philosophical debates such as the relationship between politics and morality and the role that facts and emotions should play in the theorization of political values the volume addresses how a realist approach aids our understanding of pressing issues such as global justice inequality poverty political corruption the value of democracy governmental secrecy and demands for transparency Contributors open up fruitful dialogues with a variety of other realist approaches such as feminist theory democratic theory and international relations By exploring the nature and prospects of realist thought *Politics Recovered* shows how political theory can affirm reality in order to provide meaningful and compelling answers to the fundamental questions of political life

The Origins of Universal Grants J. Cunliffe, G. Erreygers, 2004-11-30 Should all young adults receive a capital grant Should all individuals be given a lifetime regular income Would either form of payment be just or unjust These questions figure prominently in recent social philosophy and policy discussions on stakeholding and basic income Both types of proposal have a long but largely unknown history This anthology contains a wide variety of historical contributions some of which are presented in English for the first time highlighting striking parallels between past and present debates

The Political Philosophy of Cosmopolitanism Gillian Brock, Harry Brighouse, 2005-07-21 In a period of rapid internationalization of trade and increased labor mobility is it relevant for nations to think about their moral obligations to others Do national boundaries have fundamental moral significance or do we have moral obligations to foreigners that are equal to our obligations to our compatriots The latter position is known as cosmopolitanism and this volume brings together a number of distinguished political philosophers and theorists to explore cosmopolitanism what it consists in and the positive case which can be made for it Their essays provide a comprehensive overview of both the current state of the debate and the alternative visions of cosmopolitanism with which we can move forward and they will interest a wide range of readers in philosophy political theory and law

Why We Need a Citizen's Basic Income Malcolm Torry, 2018-05-09 In the five years since *Money for Everyone* was published the idea of a Citizen's Basic Income has rocketed in interest to an idea whose time has come In moving the debate on from the desirability of a basic income this fully updated and revised edition now includes comprehensive discussions on feasibility and implementation Using the consultation undertaken by the Institute of Chartered Accountants in England and Wales as a basis

Torry examines a number of implementation methods for Citizen's Basic Income and considers the cost implications. Including real life examples from the UK and data from case studies and pilots in Alaska, Namibia, India, Iran, and elsewhere, this is the essential research-based introduction to the Citizen's Basic Income.

The American and British Debate Over Equality, 1776-1920 James L. Huston, 2017-10-16

Historians have long contested the degree to which the central tenet of the Declaration of Independence that all men are created equal has manifested itself in American society and national policy. According to James L. Huston, many historians have focused too intently on class differences, slavery, and inequalities arising from ethnicity, sexuality, and gender while overlooking important areas where notions of equality flourished during the century and a half after the Declaration's signing. In *The American and British Debate Over Equality 1776-1920*, Huston examines the egalitarian communities in rural northern America, particularly those enclaves that differed from the openly aristocratic cities and towns of the British Isles. In the aftermath of the American Revolution, British and American writers alike recognized that a growing philosophical rift divided the two nations, whereas Great Britain continued to embrace the inequality of its hierarchical class system, the United States professed allegiance to democratic ideals of equality, limited though these were by racial and gender norms of the day. Huston argues that the two countries engaged in an intellectual debate during the next century and a half over which ideal equality or inequality worked best in promoting social stability, political hegemony, and economic success. Exploring the effects of equality and inequality on many aspects of American life, he examines civil behavior, social customs, treatment of others, politics, education, religion, economic opportunity, and general public optimism. Drawing from decades of publications by American and British writers, Huston reveals the rhetorical strategies contemporary observers employed in defending or rejecting the organization of a society around broader notions of human equality. *The American and British Debate Over Equality 1776-1920* informs the modern debate over equality and inequality not by theorizing and philosophizing but by offering a glimpse into the practical applications of a functioning egalitarian society as compared to one that extolled monarchy and institutionalized inequality.

The Economics of Inequality, Poverty, and Discrimination in the 21st Century Robert S. Rycroft, 2013-03-07

Leading scholars examine the conflicting paradigms of affluence and destitution in the United States as well as other free societies and discuss the influence of education, race, and status on economic mobility. While recent catastrophic events in New Orleans and Haiti may have magnified issues of social inequity, leaders have debated over poverty and discrimination for decades. Are the poor disadvantaged by the institutions of society or by the choices they make? Through two insightful volumes, the author examines differing academic and political perspectives to help shed light on the causes of poverty and inequality, the role that gender, race, age, or sexual preference plays in determining opportunity, and the effectiveness of current social and economic policies in balancing the inequity among disparate groups. *The Economics of Inequality, Poverty, and Discrimination in the 21st Century* consists of 2 volumes containing 32 papers divided into 5 categories: measurement, inequality, and mobility.

institutions and choices demographic groups and discrimination and policy The papers written by economists sociologists philosophers and lawyers deal with the extent of inequality in the United States and how it compares to other countries and the newly emerging evidence on the relationship between inequality and mobility within a society *Basic Income* Daniel Raventós,2007-10-20 Basic Income is a policy idea that could help us revolutionise the way we organise society This book is the first proper guide to basic income what it is how we can organise it and how it can benefit the majority in different spheres of their lives Basic Income is simply the idea that everyone in a given society has a right to a minimal income This is paid by the state out of taxation Set at a subsistence level it would take the place of unemployment and other benefits This would bring profound social changes Anyone could opt out of employment at any time Those with few skills would no longer be forced to take up jobs with poor prospects and employers offering McJobs would be forced to offer better terms And money wasted by the state in means testing and tracing benefit fraud is saved The campaign in favour of basic income is growing and governments are beginning to take notice This is a clear concise guide to the principles and practicalities of this revolutionary idea **Justice and Democracy** Brian Barry,2004-08-19 Publisher Description A Multidisciplinary Actology Malcolm Torry,2025-07-15 An actology introduced by the first book in this series Actology Action Change and Diversity in the Western Philosophical Tradition understands reality as action in changing patterns Actological Readings in Continental Philosophy read a number of continental philosophers through this lens An Actology of the Given explored the concepts of the gift givenness and giving in the light of reality understood as action in changing patterns An Actological Metaphysic treated a variety of metaphysical and cosmological concepts in the light of reality understood as action in changing patterns An Actological Theology asked what Christian theology looks like when understood actologically Mark s Gospel An Actological Reading was what it says it is This seventh book in the series A Multidisciplinary Actology fills some important gaps by understanding language the humanities ethics mathematics the natural sciences the social sciences psychology politics and organizational behavior actologically that is with reality understood as action in changing patterns The Vitality of Critical Theory Harry F. Dahms,2011-05-19 States that the critical theory of the Frankfurt School is as important today if not more so as it was at its inception during the 1930s This title looks at the distinguishing features of this tradition and how it is critical yet also complementary of other approaches in the social sciences especially in sociology Arguing about Justice Yannick Vanderborght,2011-10-27 Fifty of today s finest thinkers were asked to let their imaginations run free to advance new ideas on a wide range of social and political issues They did so as friends on the occasion of Philippe Van Parijs s sixtieth birthday Just Work Russell MUIRHEAD,Russell Muirhead,2009-06-30 This elegant essay on the justice of work focuses on the fit between who we are and the kind of work we do Muirhead shows how the common hope for work that fulfills us involves more than personal interest it also points to larger understandings of a just society **Redesigning Distribution** Anne Alstott,Bruce Ackerman,Philippe Van Parijs,2020-05-05 Volume V in the

acclaimed Real Utopias Project series edited by Erik Olin Wright Are there ways that contemporary capitalism can be rendered a dramatically more egalitarian economic system without destroying its productivity and capacity for growth This book explores two proposals unconditional basic income and stakeholder grants that attempt just that In a system of basic income as elaborated by Philippe van Parijs all citizens are given a monthly stipend sufficient to provide them with a no frills but adequate standard of living This monthly income is universal rather than means tested and it is unconditional receiving the basic income does not depend upon performing any labor services or satisfying other conditions It affirms the idea that as a matter of basic rights no one should live in poverty in an affluent society In a system of stakeholder grants as discussed by Bruce Ackerman and Anne Alstott all citizens upon reaching the age of early adulthood receive a substantial one time lump sum grant sufficiently large so that all young adults would be significant wealth holders Ackerman and Alstott propose that this grant be in the vicinity of 80 000 and be financed by an annual wealth tax of roughly 2 percent A system of stakeholder grants they argue expresses a fundamental responsibility every American has an obligation to contribute to a fair starting point for all

Las condiciones materiales de la libertad Daniel Raventós,2007-09 **Basic Income Reconsidered** S. Birnbaum,2012-02-27 Basic income is one the most innovative powerful and controversial proposals for addressing poverty and growing inequalities This book examines the arguments for and against basic income from the point of view of economic and social justice
