Handbook of Children's Risk, Vulnerability and Quality of Life Habib Tiliouine, Denise Benatuil, Maggie K. W.

Lau, 2022-07-30 This handbook makes a major contribution to the growing international research and policy interest in children's experienced well being or quality of life in childhood linking it to ongoing research on children's risk and vulnerability. The editors and contributors adopt the broader concept of risk in addition to vulnerability. Not much work considers the connections between risks that children experience and their quality of life. In examining children's quality of life, the chapters discuss various issues of risk and vulnerability that may affect their lives and also how the quality of childhood might be enhanced and maintained even in the face of these factors. The chapters discuss experiences of violence and abuse, access to basic services such as housing, health and education and children's vulnerability due to broader external factors such as war, conflict and environmental events. The volume also includes the impacts of new technologies on children and the consequent risks and vulnerabilities they may face alongside the benefits. This important volume brings together a diverse range of perspectives from established experts and emerging scholars in these fields of work. It covers a wide range of geographical and cultural contexts and includes theoretical, empirical, policy and practice based contributions. This handbook is a natural first point of reference for academics and policy professionals interested in quality of life, well being and children's rights.

Child Safety, Welfare and Well-being Sibnath Deb, 2022-03-21 This book provides a focused and comprehensive overview of the status of children across society with special reference to emerging features and measures of child safety, welfare and overall well being. The book is arranged into four parts covering various dimensions of child welfare and well being. In this second edition, highly experienced academics, researchers, child rights activists and policymakers from both developed and developing countries have contributed chapters on topics such as status of children living under institutional care, sexual abuse of male children and tribal girl children, issues and challenges faced by children living in conflict zones, children living on the streets, COVID 19 and its impact on the education of children. The status of marginalized children gets special importance in the second edition. The new chapters include field based experiences of researchers in protecting child rights and preventing child abuse. It also considers the promising strategies and promising future directions in enhancing effective prevention, intervention and responses to child abuse and neglect.
