Odera Oruka Gail M. Presbey, 2023-05-18 Henry Odera Oruka was one of the most influential figures in 20th century African philosophy During the early years of the decolonization of African countries as universities worked to redefine themselves Odera drove changes to curricula and research A tireless advocate for democracy and human rights in Africa he repeatedly intervened in the political debates of his time This is the first critical biography of both the man himself and African philosophy in the context of changing times taking us through his early life scholarly training and Oruka's way of transforming the field of philosophy as it was taught in Kenya The narrative unfolds from the personal to the global from Africa to the world and from African philosophy to the wider field of philosophy Biographical material is woven with narratives of the social conditions and live questions as they arise in Oruka's life in Kenya Sweden and the United States We are introduced to his understanding of philosophy as a critique of society Exposing prison practices in Africa and targeting capitalists Oruka sought to remedy social problems on a global scale from institutional racism and ethnic division to the wealth gap between rich and poor nations Through archival material personal interviews and primary texts this book shines a light on Oruka's monumental contribution to African philosophy and global justice Finally we can see how Oruka's insights are still relevant to how we think about poverty philosophy and human rights today Knowledge Cultures , 2016-08-01 This volume compares the western ideas of knowledge with the African It aims at creating a mirror through which the western knowledge culture can look at itself through an unusual and interesting angle The culture of Sub Saharan Africa is the substance from which we in this book have tried to construe an epistemological mirror Conversations in Philosophy F. Cartography and the Political Imagination Julie MacArthur, 2016-06-30 After four decades of British rule in colonial Kenya a previously unknown ethnic name Luyia appeared on the official census in 1948 The emergence of the Luyia represents a clear case of ethnic invention At the same time current restrictive theories privileging ethnic homogeneity fail to explain this defiantly diverse ethnic project which now comprises the second largest ethnic group in Kenya In *Cartography and the Political Imagination* which encompasses social history geography and political science Julie MacArthur unpacks Luyia origins In so doing she calls for a shift to understanding geographic imagination and mapping not only as means of enforcing imperial power and constraining colonized populations but as tools for articulating new political communities and dissent Through cartography Luyia ethnic patriots crafted an identity for themselves characterized by plurality mobility and cosmopolitan belonging While other historians have focused on the official maps of imperial surveyors MacArthur scrutinizes the ways African communities adopted and adapted mapping strategies to their own ongoing creative projects This book marks an important reassessment of current theories of ethnogenesis investigates the geographic imaginations of African communities and challenges contemporary readings of community and conflict in Africa

The Right to a Human Minimum Stephen Onyango Ouma, 2025-08-02 This book provides a profound exploration of the concept of a human minimum as articulated by the renowned African philosopher H Odera Oruka It delves into the pressing issue of global inequality and examines how basic rights such as access to food shelter education and healthcare are fundamental to human dignity and should be accessible to all regardless of socioeconomic status In a world where the gap between the rich and the poor continues to widen Oruka's philosophical framework is a blueprint for addressing this divide Through a critical analysis of Oruka's work this book presents the philosophy of a human minimum and describes why basic rights are essential to ensuring justice equity and sustainable development It contextualizes these ideas within contemporary challenges including poverty unemployment and the global disparities exacerbated by economic systems that favor wealth accumulation by the few This exploration pushes beyond abstract theory offering practical insights into policy solutions and societal

structures that can uphold the dignity of every individual It argues that achieving this requires not only ethical responsibility but systemic change in political and economic structures By rethinking development governance and social justice through the lens of Oruka's philosophy the book presents a compelling case for policies and actions that guarantee the human minimum for all This book is of interest to scholars of philosophy social justice advocates policymakers and anyone committed to addressing global inequality It provides a roadmap for how societies can move toward a more equitable future

Hegel's Twilight Mogobe B. Ramose, 2013 Professor Heinz Kimmerle encountered African philosophy at a time when his specialisation in the philosophy of Hegel had attained world recognition For Hegel African philosophy did not exist in Sub Saharan Africa exactly the area in which Kimmerle made his first contact with African philosophy Hegel's philosophy was not a stranger to Sub Saharan Africa This was because the Western educational paradigm was imposed upon the conquered colonized peoples during the period of colonisation Unlike Hegel Kimmerle took African philosophy seriously and engaged initially in dialogues with African philosophy Out of the unfolding dialogues grew intercultural philosophy spearheaded by Kimmerle's penetrating insightful and incisive critique of some of the fundamental presuppositions of Hegel's philosophy The essays contained in this book focus on the evolution of Kimmerle's conception and meaning of intercultural philosophy Underlying this are recognition and respect for other modes of doing philosophy as manifestations of intercultural philosophy To deny dialogues if you prefer polylogue among world philosophies is to reject the very basis of philosophy Thus a crucial dimension of philosophy would be precluded which can be found in this book namely the critical evaluation of Kimmerle's conception and meaning of intercultural philosophy
