Sage Saint And Sophist:

Sage, Saint and Sophist Graham Anderson, 2014-01-27 Very broad range of texts and examples draws on extensive scholarship Embraces both Christian and Pagan Holy Men Combines social context history with literary analysis Entertaining portraits of individual men *Sage, Saint and Sophist* Graham Anderson, 2014-01-27 Holy men both pagan and Christian are persistent and puzzling figures in the religious life of the Roman Empire In this first historical study of Holy Men for more than half a century Dr Anderson applies techniques of literary analysis to throw light on the lifestyles and behaviour of these figures from Jesus Christ to Peregrinus Proteus to dio Chrysostom stressing their individuality as much as their common features Sage Saint and Sophist examines the variety of services real or imaginary that these colourful figures had to offer and how they maintained their credibility to become the objects of successful religious cults The Sage in Jewish Society of Late Antiquity Richard Kalmin, 2002-02-07 The Sage in Jewish Society of Late Antiquity explores the social position of rabbis in Palestinian Roman and Babylonian Persian society from the period of the fall of the Temple to late antiquity The author argues that ancient rabbinic sources depict comparable differences between Palestinian and Babylonian rabbinic relationships with non Rabbis The Second Sophistic Tim Whitmarsh, 2005-09 Explores the various ways in which modern scholarship has approached the oratorical culture of the Early Imperial period *The Social Worlds of Ancient Jews and Christians*, 2022-11-21 This volume contains fifteen essays in honor of L Michael White whose work has been influential in exploring the social histories of ancient Jews and Christians within the Graeco Roman world Following an introduction that highlights some of White s main scholarly contributions the essays are grouped into three topic areas Paul and his Legacy Social Relations and Material Culture The essays are united by an interest in reconstructing the social worlds of ancient Jews and Christians through careful analysis of literary sources and material culture in their most precise ancient contexts

Jesus and the Lost Goddess Timothy Freke, Peter Gandy, 2011-08-10 Why Were the Teachings of the Original Christians Brutally Suppressed by the Roman Church Because they portray Jesus and Mary Magdalene as mythic figures based on the Pagan Godman and Goddess Because they show that the gospel story is a spiritual allegory encapsulating a profound philosophy that leads to mythical enlightenment Because they have the power to turn the world inside out and transform life into an exploration of consciousness Drawing on modern scholarship the authors of the international bestseller *The Jesus Mysteries* decode the secret teachings of the original Christians for the first time in almost two millennia and theorize about who the original Christians really were and what they actually taught In addition the book explores the many myths of Jesus and the Goddess and unlocks the lost secret teachings of Christian mysticism which promise happiness and immortality to those who attain the state of Gnosis or enlightenment This daring and controversial book recovers the ancient wisdom of the original Christians and demonstrates its relevance to us today **Early Christian Monastic Literature and the Babylonian Talmud** Michal Bar-Asher Siegal, 2013-12-23 This book examines literary analogies in Christian and Jewish

sources culminating in an in depth analysis of striking parallels and connections between Christian monastic texts the Apophthegmata Patrum or The Sayings of the Desert Fathers and Babylonian Talmudic traditions The importance of the monastic movement in the Persian Empire during the time of the composition and redaction of the Babylonian Talmud fostered a literary connection between the two religious populations The shared literary elements in the literatures of these two elite religious communities sheds new light on the surprisingly inclusive nature of the Talmudic corpora and on the non polemical nature of elite Jewish Christian literary relations in late antique Persia

The Early Christian Centuries Philip Rousseau, 2014-06-06 Charting the first six hundred years of the Christian movement THE EARLY CHRISTIAN CENTURIES carries the reader from the world of second temple Judaism to the Byzantine age the rise of Islam and the beginnings of medieval European polities With a combination of rare tact and acuity Philip Rousseau takes the measure of a generation of scholarship on early Christianity and the late Roman world He stresses the importance of shifting historical consciousness the continuity and development of ideas and the urge for social respectability Paying the greatest attention to the inner components of Christian life the resulting story captures fully the major figures Paul the gospel writers the early apologists and the great figures of the patristic age including the Cappadocian Fathers Augustine and Gregory the Great

Greek Narratives of the Roman Empire under the Severans Adam M. Kemezis, 2014-10-23 The political instability of the Severan Period AD 193 235 destroyed the High Imperial consensus about the Roman past and caused both rulers and subjects constantly to re imagine and re narrate both recent events and the larger shape of Greco Roman history and cultural identity This book examines the narratives put out by the new dynasty and how the literary elite responded with divergent visions of their own It focuses on four long Greek narrative texts from the period by Cassius Dio Philostratus and Herodian each of which constructs its own version of the empire each defined by different Greek and Roman elements and each differently affected by dynastic change especially that from Antonine to Severan Innovative theories of narrative are used to produce new readings of these works that bring political literary and cultural perspectives together in a unified presentation of the Severan era as a distinctive historical moment

Crossing Confessional Boundaries John Renard, 2020-01-28 Arguably the single most important element in Abrahamic cross confessional relations has been an ongoing mutual interest in perennial spiritual and ethical exemplars of one another s communities Ranging from Late Antiquity through the Middle Ages Crossing Confessional Boundaries explores the complex roles played by saints sages and Friends of God in the communal and intercommunal lives of Christians Muslims and Jews across the Mediterranean world from Spain and North Africa to the Middle East to the Balkans By examining these stories in their broad institutional social and cultural contexts Crossing Confessional Boundaries reveals unique theological insights into the interlocking histories of the Abrahamic faiths

Paroles d'Apollon Aude Busine, 2005-12-01 This book deals with the making and the reuses of the divine words which were ascribed to Apollo from the 2nd to the 6th centuries AD and which have now become available in both epigraphical and

literary sources The larger part has been issued by the sanctuaries of Claros and Didyma This comprehensive and historical approach analyses the oracles of Apollo according to the various contexts ancient authors used to resort to the sacred words The first part of the book examines in the context of the Graeco Roman city states the oracular texts in relation to the sanctuaries where they had originally been produced The second part explores the different ways in which the Apollinian oracles were reappropriated by pagan and Christian authors for philosophical polemical and apologetic purposes This study of the sacred texts reveals in an original manner the cultural political and religious life of pagans and Christians in the Roman Empire

Socrates and the Fat Rabbis Daniel Boyarin, 2009-09-28 What kind of literature is the Talmud To answer this question Daniel Boyarin looks to an unlikely source the dialogues of Plato In these ancient texts he finds similarities both in their combination of various genres and topics and in their dialogic structure But Boyarin goes beyond these structural similarities arguing also for a cultural relationship In *Socrates and the Fat Rabbis* Boyarin suggests that both the Platonic and the talmudic dialogues are not dialogic at all Using Michael Bakhtin's notion of represented dialogue and real dialogism Boyarin demonstrates through multiple close readings that the give and take in these texts is actually much closer to a monologue in spirit At the same time he shows that there is a dialogism in both texts on a deeper structural level between a voice of philosophical or religious dead seriousness and a voice from within that mocks that very high solemnity at the same time Boyarin ultimately singles out Menippean satire as the most important genre through which to understand both the Talmud and Plato emphasizing their seriocomic peculiarity An innovative advancement in rabbinic studies as well as a bold and controversial new way of reading Plato *Socrates and the Fat Rabbis* makes a major contribution to scholarship on thought and culture of the ancient Mediterranean

Early Christian Discernment of Spirits Elisabeth Hense, 2016 Based upon a comparative analysis this book argues that early notions of discernment of spirits are not superior to later ones Discernment of spirits is not a matter of an apostolically fixed ideal that should be traditionally cleaved to but above all is a continual re shaping and restructuring of this tradition Christians were not expected to imitate the discernment of others but rather were encouraged to make judgments for themselves Dr Elisabeth Hense is Assistant Professor for Spiritual Theology at Radboud University Nijmegen NL

Holy Men and Charlatans in the Ancient Novel Stelios Panayotakis, Gareth Schmeling, Michael Paschalis, 2015-09-01 The present volume comprises the papers delivered at RICAN 6 which was held in Rethymnon Crete on May 30 31 2011 The focus is placed on male and female characters in the ancient novel and related texts both pagan and Christian these characters are presented either as holy or as charlatans but in several cases the two categories cannot be easily distinguished from each other The papers offer a wide and rich range of perspectives

Encountering the Sacred Brouria Bitton-Ashkelony, 2005-12-30 This innovative study sheds new light on one of the most spectacular changes to occur in late antiquity the rise of pilgrimage all over the Christian world by setting the phenomenon against the wide background of the political and theological debates of the time Asking how the emerging

notion of a sacred geography challenged the leading intellectuals and ecclesiastical authorities Brouria Bitton Ashkelony deftly reshapes our understanding of early Christian mentalities by unraveling the process by which a territory of grace became a territory of power Examining ancient writers responses to the rising practice of pilgrimage Bitton Ashkelony offers a nuanced reading of their thinking on the merits and the demerits of pilgrimage revealing theological and ecclesiastical motivations that have been overlooked and questioning the long held assumption of scholars that pilgrimage was only a popular not an elite religious practice In addition to Greek and Latin sources she includes Syriac material which allows her to build a rich picture of the emerging theology of landscape that took shape over the fourth to sixth centuries

Philostratus: Interpreters and Interpretation Graeme Miles, 2017-11-22 Philostratus is one of the greatest examples of the vitality and inventiveness of the Greek culture of his period at once a one man summation of contemporary tastes and interests and a strikingly individual re inventor of the traditions in which he was steeped This Roman era engagement with the already classical past set important precedents for later understandings of classical art literature and culture This volume examines the ways in which the labyrinthine Corpus Philostratum represents and interrogates the nature of interpretation and the interpreting subject Taking interpretation broadly as the production of meaning from objects that are considered to bear some less than obvious significance it examines the very different interpreter figures presented Apollonius of Tyana as interpreter of omens dreams and art works an unnamed Vinetender and the dead Protesilaus as interpreters of heroes and the sophist who emotively describes a gallery full of paintings depicting in the process both the techniques of educated viewing and the various errors and illusions into which a viewer can fall The Second Sophistic Graham Anderson, 2005-07-25 Sophism was the single most important movement in second century literature prose of that period came to be written as entertainment rather than confined to historical subjects Graham Anderson shows how the Greek sophists skills in public speaking enabled them to perform effectively across a variety of activities As he presents the sophists roles as civic celebrities side by side with their roles as transmitters of Hellenic culture and literary artists a co ordinated view of the Second Sophistic as a complex phenomenon emerges *Framing Paul* Douglas A. Campbell, 2014-11-27 All historical work on Paul presupposes a story concerning the composition of his letters which ones he actually wrote how many pieces they might originally have consisted of when he wrote them where from and why But the answers given to these questions are often derived in dubious ways In *Framing Paul* Douglas Campbell reappraises all these issues in rigorous fashion appealing only to Paul s own epistolary data in order to derive a basic frame for the letters on which all subsequent interpretation can be built Though figuring out the authorship and order of Paul s letters has been thought to be impossible Campbell s *Framing Paul* presents a cogent solution to the puzzle Animals in Ancient Greek Religion Julia Kindt, 2020-07-29 This book provides the first systematic study of the role of animals in different areas of the ancient Greek religious experience including in myth and ritual the literary and the material evidence the real and the imaginary An

international team of renowned contributors shows that animals had a sustained presence not only in the traditionally well researched cultural practice of blood sacrifice but across the full spectrum of ancient Greek religious beliefs and practices. Animals played a role in divination epiphany ritual healing the setting up of dedications the writing of binding spells and the instigation of other magical means. Taken together the individual contributions to this book illustrate that ancient Greek religion constituted a triangular symbolic system encompassing not just gods and humans but also animals as a third player and point of reference. *Animals in Ancient Greek Religion* will be of interest to students and scholars of Greek religion Greek myth and ancient religion more broadly as well as for anyone interested in human animal relations in the ancient world.
