Saggi Preparatori Per Settecento Riformatore:

Saggi preparatori per Settecento riformatore Franco Venturi, 2002 **Enlightened Reform in Southern Europe and its Atlantic Colonies, c. 1750-1830** Gabriel Paquette, 2016-05-06 Efforts to ascertain the influence of enlightenment thought on state action especially government reform in the long eighteenth century have long provoked stimulating scholarly quarrels Generations of historians have grappled with the elusive intersections of enlightenment and absolutism of political ideas and government policy In order to complement expand and rejuvenate the debate which has so far concentrated largely on Northern Central and Eastern Europe this volume brings together historians of Southern Europe broadly defined and its ultramarine empires Each chapter has been explicitly commissioned to engage with a common set of historiographical issues in order to reappraise specific aspects of enlightened absolutism and enlightened reform as paradigms for the study of Southern Europe and its Atlantic empires In so doing it engages creatively with pressing issues in the current historical literature and suggests new directions for future research No single historian working alone could write a history that did justice to the complex issues involved in studying the connection between enlightenment ideas and policy making in Spanish America Brazil France Italy Portugal and Spain For this reason this well conceived balanced volume drawing on the expertise of a small carefully chosen cohort offers an exciting investigation of this historical debate **The Case for The Enlightenment** John Robertson, 2005-10-27 The Case for the Enlightenment is a comparative study of the emergence of Enlightenment in Scotland and in Naples Challenging the tendency to fragment the Enlightenment in eighteenth century Europe into multiple Enlightenments the distinguished intellectual historian John Robertson demonstrates the extent to which thinkers in two societies at the opposite ends of Europe shared common intellectual preoccupations Before 1700 Scotland and Naples faced a bleak future as backward provincial kingdoms in a Europe of aggressive commercial states Yet by 1760 Scottish and Neapolitan thinkers were in the van of those advocating the cause of Enlightenment by means of political economy By studying the social and institutional contexts of intellectual life in the two countries and the currents of thought promoted within them The Case for the Enlightenment explains this transformation John Robertson pays particular attention to the greatest thinkers in each country David Hume and Giambattista Vico
