Sagittarius Missing:

Earth: Astrology's Missing Planet Chrissie Blaze, 2018-02-23 Earth Astrology's Missing Planet brings a new and important dimension to the science and art of astrology and to New Age thought. It addresses the influence, meaning and relevance of the one forgotten planet in our horoscopes, the Earth upon which we live. Based on decades of research and written for non astrologers as well as for the astrological and New Age community, Earth Astrology's Missing Planet is the first book to address this topic.

Missing in the Glades Lena Diaz, 2015-12-01 A private investigator pairs up with a beautiful stranger to search for a missing person in the Florida Everglades in this romantic suspense. Looking for a fresh start, detective Jake Young headed south on a case that could help launch his PI business. He knew no amount of work would make him forget his tortured past, but maybe Faye Star could help. Caught up in Jake's missing person's case, the distracting Faye was hiding a secret he was begging to find out. Expertly guiding him through the swamps, Jake's job grew more complicated when someone started taking shots at the free-spirited beauty. As much as she protested, she could take care of herself. Jake stepped in, refusing to admit how desperately he needed someone to save. Especially since he'd never be able to save himself.
