Saint Bernard Of Clairvaux A Monastic View Of Medieval Violence:

Saint Bernard of Clairvaux Tim Davis,1998 Chivalry and Violence in Medieval Europe Richard W. Kaeuper,2001
Includes evidence from chivalric literature chivalric mythology knights and hermits the Church and governing power war and violence prowess honor piety status war and tournament conduct of war looting and destruction loyalty nobility largesse formal manners male bonding sexual violence Song of Aspremont Crowning of Louis Raoul de Cambrai The Quest of the Holy Grail The Death of King Arthur Robert the Devil Sir Gowther The Romance of the Wings The Book of the Order of Chivalry L Histoire de Guillaume le Marechal Livre de chevalerie Morte Darthur etc *Urban Panegyric and the Transformation of the Medieval City, 1100-1300* Paul Oldfield,2018-12-27 This study offers the first extensive analysis of the function and significance of urban panegyric in the Central Middle Ages a flexible literary genre which enjoyed a marked and renewed popularity in the period 1100 to 1300 In doing so it connects the production of urban panegyric to major underlying transformations in the medieval city and explores praise of cities primarily in England Flanders France Germany Iberia and Italy including the South and Sicily The volume demonstrates how laudatory ideas on the city appeared in extremely diverse textual formats which had the potential to interact with a wide audience via multiple textual and material sources When contextualized within the developments of the twelfth and thirteenth centuries these ideas could reflect more than formulaic rhetorical outputs for an educated elite they were instead integral to the process of urbanisation In *Urban Panegyric and the Transformation of the Medieval City 1100 1300* Paul Oldfield assesses the generation of ideas on the Holy City on counter narratives associated with the Evil City on the inter relationship between the City and abundance primarily through discourses on commercial productivity hinterlands and population size on landscapes and sites of power and on knowledge generation and the construction of urban histories Urban panegyric can enable us to comprehend more deeply material functional and ideological change associated with the city during a period of notable urbanization and importantly how this change might have been experienced by contemporaries This study therefore highlights the importance of urban panegyric as a product of and witness to a period of substantial urban change In examining the laudatory depiction of medieval cities in a thematic analysis it can contribute to a deeper understanding of civic identity and its important connection to urban transformation **Arts & Humanities Through the Eras** Kristen Mossler Figg,John Block Friedman,2005 Through the presentation of nine different arts and humanities topics such as architecture and design literature religion and visual arts this volume describes the two cultural movements of the Age of Baroque and Enlightenment from 1600 to 1800

Medieval Monastic Preaching Carolyn Muessig,1998 This book demonstrates that monastic preaching was a diverse activity which included preaching by monks nuns and heretics The study offers a preliminary step in understanding how preaching shaped monastic identity in the Middle Ages *Emotion, Violence, Vengeance and Law in the Middle Ages* ,2018-05-01 Contributions to this Festschrift for the renowned American legal and literary scholar William Ian Miller reflect

The Violent Pilgrimage Tim Rayborn, 2013-03-18 The notion of Christianity as a religion of peace was severely tested during the Middle Ages when killing in the name of God became a sanctified act In this book Tim Rayborn traces the development of the early Crusades Christian views of war and violence and its attitudes toward Islam primarily during the turbulent period of the 11th and 12th centuries with some attention to earlier centuries A marked shift in Christian perceptions of its own identity coincided with a considerably more martial and aggressive approach to nonbelievers both inside and outside of Europe This wide ranging study includes such topics as the background to the First Crusade the Knights Templar Bernard of Clairvaux the Cistercian Order the works of Peter the Venerable apocalyptic hopes and fears and martyrdom in the context of Christian conflicts with Islam Focusing on French monastic writings the book also examines papal documents Spanish polemics crusade chronicles and other works This is a survey of research on these important subjects and serves as both a reference work and a point of departure for further study

Virtuosity, Charisma and Social Order Ilana Friedrich-Silber, 1995-04-28 This book is a comparative macrosociological study of the interaction between religious virtuosi and society in two civilizations traditional Theravada Buddhism and Medieval Catholicism Merging Weberian sociology with the Maussian tradition of gift analysis and criticizing the neglect of meaning in current comparative historical sociology the author also argues the need for a multidimensional approach capable of addressing the part played by religious orientations in shaping the institutional strength and ideological power of religious elites in the historical framework of the Great Traditions

The Nave Sculpture of Vézelay Kirk Ambrose, 2006 This scholarly work fundamentally changes the way we think about the monastic church of Vézelay and its sculptures Kirk Ambrose provides a new account of the celebrated sculptural ensemble at this important French Romanesque monastic church Whereas scholarly attention in the past has focused almost exclusively on the Pentecostal portal Ambrose devotes most of his analysis to the nave capitals He considers how these works intersect with various aspects of monastic culture from poetry to a sign language used during observed periods of silence From this study it emerges how many of the sculptures resonated with communal practices and with interpretive modes in use at the site Deeming the attempt to uncover an underlying or unifying program to be an anachronistic project Ambrose explores historically specific ways this ensemble cohered for medieval viewers Covering a

range of themes including hagiography ornament and violence he develops alternative approaches for the examination of serial imagery As a result this book has broad implications for the study of eleventh and twelfth century art in the West

The "Things of Greater Importance" Conrad Rudolph, 2016-11-11 The Things of Greater Importance provides a close look into the social and cultural context of medieval art primarily as expressed in Bernard of Clairvaux's Apologia the central document in the greatest artistic controversy to occur in the West prior to the Reformation and the most important source we have for understanding medieval attitudes toward art Bernard wrote the Apologia during the medieval efflorescence of monumental sculpture and stained glass of advanced architecture of pilgrimage art of high Romanesque and of the origins of Gothic art Rudolph places the Apologia traditionally seen as a condemnation either of all religious art or of all monastic art in a broader context using it to explore the role of art in medieval society He shows that Bernard was interested in the impact of art on contemporary monasticism in a more complex way than previously believed The book offers the most thorough study available of the theoretical basis of medieval art as it functioned in society and its implications for the art of both the Romanesque and Gothic periods which were spanned by Bernard's life are significant

Dante's Vision and the Circle of Knowledge Giuseppe Mazzotta, 2014-07-14 In a masterly synthesis of historical and literary analysis Giuseppe Mazzotta shows how medieval knowledge systems the cycle of the liberal arts ethics politics and theology interacted with poetry and elevated the Divine Comedy to a central position in shaping all other forms of discursive knowledge To trace the circle of Dante's intellectual concerns Mazzotta examines the structure and aims of medieval encyclopedias especially in the twelfth and thirteenth centuries the medieval classification of knowledge the battle of the arts the role of the imagination the tension between knowledge and vision and Dante's theological speculations in his constitution of what Mazzotta calls aesthetic ludic theology As a poet Dante puts himself at the center of intellectual debates of his time and radically redefines their configuration In this book Mazzotta offers powerful new readings of a poet who stands amid his culture's crisis and fragmentation one who responds to and counters them in his work In a critical gesture that enacts Dante

s own insight Mazzotta s practice is also a fresh contribution to the theoretical literary debates of the present Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Who's Who in the Middle Ages** Mary Ellen

Snodgrass,2024-10-18 From Abelard to Zubaydah here is a biographical dictionary of notable men and women of the Middle Ages Hundreds of entries span the fifth to the fifteenth centuries covering a broad range of creative vigorous and influential people from Europe and the Middle East Each entry includes both personal and historical details alternate name spellings and references for further reading A rich selection of appendices includes a chronology of events a chronology of popes emperors and monarchs a list of colleges and universities of the Middle Ages a list of major monasteries abbeys and convents and an alphabetical list of individuals by occupation **Wisdom and the Grail** Anne Marie D'Arcy,2000 Whereas the

anonymous author of the Queste who was deeply influenced by the monastic tradition of mystical theology conceived of the Holy Grail as a symbol of Divine Wisdom personified Malory s concentration of the vessel was eucharistic and rooted in the lay devotion of later medieval England Faced with the illuminative concept of the vessel that he found in his source Malory chose to treat the symbol in terms which recall popular contemporary emblems of the eucharistic sacrifice Malory s act of translation and adaptation necessitated the breaking of the vessel he found in the Queste However he created a symbol that corresponded in function to that of the Queste to direct the reader s thoughts towards complete union with God but was essentially different in conception In the Sankgreall Malory has brought about the restoration of the vessel albeit drained of its original meaning BOOK JACKET **Evil** Andrew P. famously says Don t Be Evil But what exactly is evil Is it just badness by another name the shadow side of good Or is it something more substantive a malevolent force or power at work in the universe These are some of the ontological questions that philosophers have grappled with for centuries But evil also raises perplexing epistemic and psychological questions Can we really know evil Does a victim know evil differently than a perpetrator or witness What motivates evil doers Satan s rebellion Iago s machinations and Stalin s genocides may be hard to understand in terms of ordinary reasons intentions beliefs and desires But what about the more banal evils performed by technocrats in a collective how do we make sense of Adolf Eichmann s self conception as just an effective bureaucrat deserving of a promotion Evil A History collects thirteen essays that tell the story of evil in western thought starting with its origins in ancient Hebrew wisdom literature and classical Greek drama all the way to Darwinism and Holocaust theory Thirteen interspersed reflections contextualize philosophical developments by looking at evil through the eyes of animals poets mystics witches librettists film directors and even a tech

product manager Evil A History will enlighten readers about one of the most alluring and difficult topics in philosophy and intellectual life and will challenge their assumptions about the very nature of evil **Makers and Milestones of the Middle Ages** Peter G. Stillman,1988 *Medieval Life* ,1997 **Genealogies of Religion** Talal Asad,1993-08-18 In Genealogies of Religion Talal Asad explores how religion as a historical category emerged in the West and has come to be applied as a universal concept The idea that religion has undergone a radical change since the Christian Reformation from totalitarian and socially repressive to private and relatively benign is a familiar part of the story of secularization It is often invoked to explain and justify the liberal politics and world view of modernity And it leads to the view that politicized religions threaten both reason and liberty Asad s essays explore and question all these assumptions He argues that religion is a construction of European modernity a construction that authorizes for Westerners and non Westerners alike particular forms of history making **RACAR, Revue D'art Canadienne** ,1998
