Saints In Their Ox Hide Boat:

Saints in Their Ox-hide Boat Brendan Galvin, 1992 *A New Pleiade* Seven American Poets, 1998-10-01 A New Pleiade is a celebration of close literary friendships among seven eminent American poets Fred Chappell Kelly Cherry R H W Dillard Brendan Galvin George Garrett David R Slavitt and Henry Taylor The affection fun and mutual respect of this happy association of poets have resulted in this anthology in which the selection from the work of each was made by the contributor whose name precedes his or hers alphabetically Endowed with great variety as well as delightful and unexpected connections of subjects and personae A New Pleiade is exceptional not only because it unites in a single volume these seven accomplished poets the real allure of this enchanting broadly appealing collection is the diversity the vast scope of their masterful voices The bucolic musings of Fred Chappell greet the reader followed by the searching graceful lamentations of Kelly Cherry the unconventional observations of R H W Dillard and the eccentric creations of Brendan Galvin George Garrett's precise shining insights precede David R Slavitt's erudite witty contemplations until alas Henry Taylor bids farewell by bringing us full circle back to a pastoral world reminiscent of Chappell's rural samplings These poets have been delighting and entertaining one another and their loyal readers for decades With A New Pleiade these seven illustrious bards and good friends are able to settle comfortably between the covers of one extraordinary book Southern Excursions George Garrett, James Conrad McKinley, 2003-03-01 Few if any are better endowed than George Garrett to comment on the general and the particular the long and the short of southern letters in our time Garrett a prolific and internationally renowned author of fiction poetry drama and biography as well as a teacher editor critic and frequent jurist for literary competitions has been immersed in the writers and literature of his native region for almost a half century Southern Excursions contains more than fifty of the best essays reviews and other short pieces of his career For the connoisseur of good writing this book is a depository a treasure a veritable time capsule of southern literary and American culture Without sacrificing reverence for modern masters such as Faulkner O'Connor and Welty Garrett has consistently embraced worthy new artists through the years deftly and judiciously drawing the line between critical acclaim and popular success Payton Davis Shelby Foote Walker Percy William HoVman Madison Jones Reynolds Price Robert Morgan R H W Dillard Wendell Berry Doris Betts William Goyen Mary Lee Settle Randall Kenan David Huddle Allan Gurganus Dorothy Allison these are a few of the writers Garrett has championed If some names sound less familiar Garrett in these pages will inspire readers to swift investigation The author's charm wit and anecdotal style make reading Southern Excursions a delight and yet there's no mistaking his erudition Wise like a prophet with a talent scout's enthusiasm Garrett is not afraid to tell unwelcome truths covering topics that include southern publishing houses and literary quarterlies the alliance between writers and academia the state of criticism and theory and most eloquently the persistence of place memory and the Civil War as themes in southern letters Southern Excursions is a book for the ages stowing as it does the sage views of one as learned respected and modest in his time as George Garrett My

strong suggestion to readers he states is to plunge in and fare forward Experience the story before turning to or trusting the opinions and judgments of others myself included

Visitors to Ancient America William F. McNeil, 2015-03-20 Researchers in American anthropology and archaeology from the late seventeenth century to the present including Cotton Mather John Wesley Powell Thor Heyerdahl and Betty Meggers among others all had discoveries that lead to the following conclusion America was visited by Europeans well before the time of Christopher Columbus Divided into two main parts this work is a comprehensive study of the evidence suggesting that ancient European and Asian mariners visited the United States more than 1000 years ago The first section is an historical overview of the external evidence that would support the theory of ancient incursions to America A review of ancient ships and the currents in both the Pacific and Atlantic oceans is offered The experiences of several seagoing peoples such as Polynesians and Vikings are explored Both legendary voyages and modern adventures of mariners are discussed Ancient transoceanic stories are also examined From mammoth stone chambers of New York and New England to inscribed stones found in ancient graves from Minnesota to West Virginia the second half of the work focuses on the American evidence for ancient visitations to the U S primarily in the northeast section of the country Several alleged ancient sites are also explored in this richly illustrated work

Ancient Ocean Crossings Stephen C. Jett, 2017-06-06 Paints a compelling picture of impressive pre Columbian cultures and Old World civilizations that contrary to many prevailing notions were not isolated from one another In *Ancient Ocean Crossings* Reconsidering the Case for Contacts with the Pre Columbian Americas Stephen Jett encourages readers to reevaluate the common belief that there was no significant interchange between the chiefdoms and civilizations of Eurasia and Africa and peoples who occupied the alleged terra incognita beyond the great oceans More than a hundred centuries separate the time that Ice Age hunters are conventionally thought to have crossed a land bridge from Asia into North America and the arrival of Columbus in the Bahamas in 1492 Traditional belief has long held that earth's two hemispheres were essentially cut off from one another as a result of the post Pleistocene meltwater fed rising oceans that

covered that bridge The oceans along with arctic climates and daunting terrestrial distances formed impermeable barriers to interhemispheric communication This viewpoint implies that the cultures of the Old World and those of the Americas developed independently Drawing on abundant and concrete evidence to support his theory for significant pre Columbian contacts Jett suggests that many ancient peoples had both the seafaring capabilities and the motives to cross the oceans and in fact did so repeatedly and with great impact His deep and broad work synthesizes information and ideas from archaeology geography linguistics climatology oceanography ethnobotany genetics medicine and the history of navigation and seafaring making an innovative and persuasive multidisciplinary case for a new understanding of human societies and their diffuse but interconnected development

The Voyage of the Vizcaína Klaus Brinkbäumer, Clemens Höges, 2007

Between 1492 and 1504 Christopher Columbus made four attempts to find the East by heading West In the process he lost a fair number of ships on his last journey alone he lost no fewer than four Although Columbus also left written documentation of where his boats had gone down no one has been able to locate even one of the wrecks His reports were probably inaccurate perhaps willfully so he was frequently less than truthful about his adventures in the New World In the mid 1990s an American expatriate living in Panama an aging surfer dude who ran a Scuba diving outfitting shop and diving school a Panamanian real estate agent and an American on vacation with his son all claimed to have been the first to locate the remains of a small ship lying in fairly shallow waters in a small gulf in Panama No one took the discovery seriously since it had not been made by a team of established archeologists and scientists Finally in 2002 the authors of this book journalists and amateur divers decided to investigate They organized a team of American scientists all of them experts in carbon dating and underwater shipwrecks who established not only that the Panama wreck was the oldest ever found in the entire Western Hemisphere dating from around 1500 but that it was very likely the remains of one of Columbus last ships the Vizcaina To be published on the 500th anniversary of Columbus death THE VOYAGE OF THE VIZCAINA is a riveting account of shipwreck and adventure giving readers the story of how the wreck was found and salvaged Working backward Brinkbaumer and Hoges combine archaeology and history to recreate the circumstances of the fourth journey which began in 1502 and ended in 1504 This book is unique in its extensive use of detailed findings to frame its fascinating discoveries and conclusions about exploration in the New World as well as about the genius and shortcomings of the man known as the Admiral and credited with the greatest discovery of all time **Crania Britannica** Joseph Barnard Davis, John Thurnam, 1865 **Crania**

Britannica: Text Joseph Barnard Davis, John Thurnam, 1865 **To the Island of Tides** Alistair Moffat, 2019-08-01 In **To the Island of Tides** Alistair Moffat travels to and through the history of the fated island of Lindisfarne Known by the Romans as Insula Medicata and famous for its monastery it even survived Viking raids Today the isle maintains its position as a space for retreat and spiritual renewal Walking from his home in the Borders through the historical landscape of Scotland and northern England Moffat takes us on a pilgrimage in the footsteps of saints and scholars before arriving for a secular retreat on the Holy Isle **To the Island of Tides** is a walk through history a meditation on the power of place but also a more personal journey and a reflection on where life leads us **True North: Travels in Arctic Europe** Gavin Francis, 2024-09-12 Driven

by a yearning to experience the vast skies and frozen beauty of the North Gavin Francis goes in search of the people living along the northern limits of Europe From the first Greek explorers to the Vikings to modern polar adventurers he travels through history and legend to find out why and how we are drawn to the North Francis's encounters in the Arctic teach him as much about that sense of longing for the North and of belonging to the North as the seafarers warriors monks and poets whose stories he follows In Shetland the Faroes Iceland Greenland Svalbard and Lapland Francis finds a way of life characterised by both peace and unease threatened as it is by the shadow of climate change and the tense ever increasing

importance of Arctic Europe in global power politics Poet and Critic ,1994 **The Bioregional Imagination** Cheryll Glotfelty, Karla Armbruster, Tom Lynch, 2012-03-01 Bioregionalism is an innovative way of thinking about place and planet from an ecological perspective Although bioregional ideas occur regularly in ecocritical writing until now no systematic effort has been made to outline the principles of bioregional literary criticism and to use it as a way to read write understand and teach literature The twenty four original essays here are written by an outstanding selection of international scholars The range of bioregions covered is global and includes such diverse places as British Columbia s Meldrum Creek and Italy s Po River Valley the Arctic and the Outback There are even forays into cyberspace and outer space In their comprehensive introduction the editors map the terrain of the bioregional movement including its history and potential to inspire and invigorate place based and environmental literary criticism Responding to bioregional tenets this volume is divided into four sections The essays in the Reinhabiting section narrate experiments in living in place and restoring damaged environments The Rereading essays practice bioregional literary criticism both by examining texts with strong ties to bioregional paradigms and by opening other less obvious texts to bioregional analysis In Reimagining the essays push bioregionalism to evolve by expanding its corpus of texts coupling its perspectives with other approaches or challenging its core constructs Essays in the Renewal section address bioregional pedagogy beginning with local habitat studies and concluding with musings about the Internet In response to the environmental crisis we must reimagine our relationship to the places we inhabit This volume shows how literature and literary studies are fundamental tools to such a reimagining
