Remaking Micronesia David L. Hanlon, 1998-03-01 America's efforts at economic development in the Caroline Mariana and Marshall Islands proved to be about transforming in dramatic fashion people who occupied real estate deemed vital to American strategic concerns Called Micronesians these island people were regarded as other and their otherness came to be seen as incompatible with American interests And so underneath the liberal rhetoric that surrounded arguments proposals and programs for economic development was a deeper purpose America's domination would be sustained by the remaking of these islands into places that had the look feel sound speed smell and taste of America had the many and varied plans actually succeeded However the gap between intent and effect holds a rich and deeply entangled history *Remaking Micronesia* stands as an important imaginative much needed contribution to the study of Micronesia American policy in the Pacific and the larger debate about development It will be an important source of insight and critique for scholars and students working at the intersection of history culture and power in the Pacific
