Salian Century Main Currents In An Age Of Transition:

The Salian Century Stefan Weinfurter, 1999 An important interpretation of a major epoch in German history John Freed Illinois State University

Emperor of the World Anne A. Latowsky, 2013-02-26 Charlemagne never traveled farther east than Italy but by the mid tenth century a story had begun to circulate about the friendly alliances that the emperor had forged while visiting Jerusalem and Constantinople This story gained wide currency throughout the Middle Ages appearing frequently in chronicles histories imperial decrees and hagiographies even in stained glass windows and vernacular verse and prose In Emperor of the World Anne A Latowsky traces the curious history of this myth revealing how the memory of the Frankish Emperor was manipulated to shape the institutions of kingship and empire in the High Middle Ages The legend incorporates apocalyptic themes such as the succession of world monarchies at the End of Days and the prophecy of the Last Roman Emperor Charlemagne s apocryphal journey to the East increasingly resembled the eschatological final journey of the Last Emperor who was expected to end his reign in Jerusalem after reuniting the Roman Empire prior to the Last Judgment Instead of relinquishing his imperial dignity and handing the rule of a united Christendom over to God as predicted this Charlemagne returns to the West to commence his reign Latowsky finds that the writers who incorporated this legend did so to support or in certain cases to criticize the imperial pretensions of the regimes under which they wrote New versions of the myth would resurface at times of transition and during periods marked by strong assertions of Roman style imperial authority and conflict with the papacy most notably during the reigns of Henry IV and Frederick Barbarossa Latowsky removes Charlemagne s encounters with the East from their long presumed Crusading context and shows how a story that began as a rhetorical commonplace of imperial praise evolved over the centuries as an expression of Christian Roman universalism

Edward the Confessor Tom Licence, 2020-08-04 An authoritative life of Edward the Confessor the monarch whose death sparked the invasion of 1066 One of the last kings of Anglo Saxon England Edward the Confessor regained the throne for the House of Wessex and is the only English monarch to have been canonized Often cast as a reluctant ruler easily manipulated by his in laws he has been blamed for causing the invasion of 1066 the last successful conquest of England by a foreign power Tom Licence navigates the contemporary webs of political deceit to present a strikingly different Edward He was a compassionate man and conscientious ruler whose reign marked an interval of peace and prosperity between periods of strife More than any monarch before he exploited the mystique of royalty to capture the hearts of his subjects This compelling biography provides a much needed reassessment of Edward s reign calling into doubt the legitimacy of his successors and rewriting the ending of Anglo Saxon England

John Eldevik, 2012-08-06 This book explores how bishops used the medieval tithe as a social and political tool in eleventh century Germany and Italy **Corruption, Protection and Justice in Medieval Europe** Jonathan R. Lyon, 2022-11-24

What was an advocate Latin advocatus German Vogt in the middle ages What responsibilities came with the position and how did they change over time With this ground breaking study Jonathan R Lyon challenges the standard narrative of a medieval Europe of feudalism and lordship being replaced by a modern Europe of government bureaucracy and the state By focusing on the position of advocate he argues for continuity in corrupt practices of justice and protection between 750 and 1800 This book traces the development of the role of church advocate from the Carolingian Period onwards and explains why this position became associated with the violent abuse of power on churches estates When other types of advocates became common in and around Germany after 1250 including territorial and urban advocates they were not officeholders in developing bureaucracies Instead they used similar practices to church advocates to profit illicitly from their positions calling into question scholarly arguments about the decline of violent lordship and the rise of governmental accountability in European history *Saint Margaret, Queen of the Scots* C. Keene, 2013-11-19 Margaret saint and 11th century Queen of the

Scots remains an often cited yet little understood historical figure Keene's analysis of sources in terms of both time and place including her *Life of Saint Margaret* translated for the first time allows for an informed understanding of the forces that shaped this captivating woman

The Crown of Thorns Faith Tibble, 2025-03-20 Jesus Crown of Thorns has become one of the most ubiquitous features of Christian religious art but was the crown of history anything like the crown of popular medieval art and piety The image that springs to mind is that of a bloodied beaten Jesus wearing a

cruelly fashioned woven crown made of sharp thorns But this image is deeply misleading based on a fundamental misunderstanding and mistranslation of the Gospels Faith C Tibble rectifies this misunderstanding showing how The Crown of Thorns underwent a yet unrecognized artistic evolution Tibble tracks the artistic progression of the Crown of Thorns from when it was first depicted in the 4th century until the 11th century when it begins to exhibit the artistic trends that are still recognizable today even in modern depictions in art and cinema Through doing so Tibble adds new perspective to our understanding of the ideologies associated with medieval Christianity victory humility perseverance and how those ideologies are exemplified in depictions of the Crown of Thorns Tibble demonstrates how a simple mistranslation led to a different understanding of the Gospels and an unexpected trajectory for European art with profound and unintended consequences

The Battle of Lechfeld and its Aftermath, August 955 Charles R. Bowlus, 2016-12-05 In August 955 a battle took place that effectively ended the incursions of steppe nomads into Western Europe The forces of Otto the Great annihilated a huge army of Hungarian mounted archers in an encounter that is generally known as the battle of Lechfeld a broad plain near Augsburg in southern Germany Since even after a defeat these elusive warriors surely could have fled back to the Carpathian Basin to rebuild their strength and resume their raids the total annihilation of the Hungarian army is mysterious This book provides the first satisfactory explanation for the decisive nature of Otto's victory Based on a detailed analysis of all contemporary and often contradictory sources Bowlus provides a step by step reconstruction of the battle This is preceded by chapters analysing the administrative and military reforms in tenth century Germany and the strengths and weaknesses of nomadic styles of warfare in particular their archery and setting out the historical context in which the battle occurred A pioneering aspect of his research is the introduction of environmental factors not only the limits they imposed on the expansion of the nomadic way of life into Europe but also the impact the local environment had on the outcome of the battle **Bonizo of**

Sutri John A. Dempsey, 2023-04-11 This book provides a groundbreaking reinterpretation of the life and career of the preeminent polemicist of the Bishop Bonizo of Sutri Through a meticulous analysis of Bonizo's literary works and contemporary reports about his activities the author uncovers the populist roots of both the bishop's reform ideology and his vision of holy war against a heretical emperor Henry IV of Germany In establishing the predominance of Bonizo's personal experience as a member of the populist Lombard reform community the Pataria in the formation of his thought this study shatters the picture of a uniform Gregorian party and greatly strengthens the impression of the papal reform movement as a fragile coalition of multiple regional partners like the Pataria which enjoyed a fundamental unity of purpose but whose individual constituencies often diverged in their particular strategic objectives This investigation moreover sets Bonizo's story within the context of the urban life of his native Lombardy and examines the relationship between popular religious reform and the gradual development of communal government in northern Italy War, State, and Society in Liège Roeland Goorts, 2019-03-11 Small power diplomacy in seventeenth century Europe War State and Society in Liège is a fascinating case

study of the consequences of war in the Prince Bishopric of Liège and touches upon wider issues in early modern history such as small power diplomacy in the seventeenth century and during the Nine Years War. For centuries the small semi-independent Holy Roman Principality of Liège succeeded in preserving a non-belligerent role in European conflicts. During the Nine Years War 1688-1697, however, Liège's leaders had to abolish the practice of neutrality. For the first time in its early modern history, the Prince Bishopric had to raise a regular army, reconstruct ruined defence structures and supply army contributions in both money and material. The issues under discussion in *War, State and Society in Liège* offer the reader insight into how Liège politically protected its powerful institutions and how the local elite tried to influence the interplay between domestic and external diplomatic relationships. *Chronicles of the Investiture Contest*, 2015-01-01. This book is the first English translation of one of the most significant chronicles of the Middle Ages. Written in Bamberg at the end of the eleventh century, Frutolf of Michelsberg's Chronicle offers a lively and vivid account of the great struggle between the German emperors and the papacy known today as the Investiture Contest. Together with numerous continuations written in the first quarter of the twelfth century, Frutolf's Chronicle offers an engaging and accessible snapshot of how medieval people reacted to a conflict that led to civil war in Germany and Italy and fundamentally altered the relationship of church and state in Western society.

The Empire of Cnut the Great Timothy Bolton, 2009. Drawing on a wide range of types of evidence, this book offers a fresh impression of the empire built by King Cnut 1016-1035 in England and Scandinavia and offers insights into contemporary developments in the conceptions of this new dominion.

Royal Childhood and Child Kingship Emily Joan Ward, 2022-08-04. The first comparative study of royal childhood and child kingship, revealing the fundamental role they played in medieval rulership.

Godfrey of Bouillon Simon John, 2017-11-23. This book offers a new appraisal of the ancestry and career of Godfrey of Bouillon c. 1060-1100, a leading participant in the First Crusade 1096-99 and the first ruler of Latin Jerusalem 1099-1100, the polity established by the crusaders after they captured the Holy City. While previous studies of Godfrey's life have tended to focus on his career from the point at which he joined the crusade, this book adopts a more holistic approach, situating his involvement in the expedition in the light of the careers of his ancestors and his own activities in Lotharingia, the westernmost part of the kingdom of Germany. The findings of this enquiry shed new light on the repercussions of a range of critical developments in Latin Christendom in the eleventh and early twelfth centuries, including the impact of the Investiture Conflict in Lotharingia, the response to the call for the First Crusade in Germany, Godfrey's influence upon the course of the crusade, his role in its leadership and his activities during the initial phases of Latin settlement in the Holy Land in its aftermath.
