Lost Prince The Unsolved Mystery Of Kaspar Hauser:

Lost Prince Anselm Ritter von Feuerbach, 1996 Kaspar Hauser turned up in Nuremberg in 1828 when he was sixteen after being kept in a dungeon most of his life Hauser barely able to talk or walk was taken in by Feuerbach Masson looks at who Hauser was and what his case tells us about abused children Lost Prince Paul Johann Anselm Ritter von Feuerbach, Jeffrey Moussaieff Masson, 1996 **Kaspar Hauser** M. Kitchen, 2001-07-11 On Whit Monday 1828 a strange youth barely able to speak and hardly able to walk appeared in Nuremberg This new case of a wild man excited widespread curiosity and many prominent figures wanted to test their pedagogical and medical theories on such a promising subject Who was he Was he as many claimed the rightful heir to the Grand Duchy of Baden or was he simply an ingenious fraud This book examines the many ramifications of this fascinating case and offers many insights into the social political and intellectual life of Biedermeier Germany **The Cinema of Werner Herzog** Brad Prager, 2007 More than any other director Werner Herzog is renowned for pushing the boundaries of conventional cinema especially those between the fictional and the factual the fantastic and the real Drawing on over 35 films this book explores his continuing search for what he has described as the ecstatic truth The Murder of Helen Jewett Patricia Cline Cohen, 1999-06-29 In 1836 the murder of a young prostitute made headlines in New York City and around the country inaugurating a sex and death sensationalism in news reporting that haunts us today Patricia Cline Cohen goes behind these first lurid accounts to reconstruct the story of the mysterious victim Helen Jewett From her beginnings as a servant girl in Maine Helen Jewett refashioned herself using four successive aliases into a highly paid courtesan She invented life stories for herself that helped her build a sympathetic clientele among New York City's elite and she further captivated her customers through her seductive letters which mixed elements of traditional feminine demureness with sexual boldness But she was to meet her match and her nemesis in a youth called Richard Robinson He was one of an unprecedented number of young men who flooded into America's burgeoning cities in the 1830s to satisfy the new business society's seemingly infinite need for clerks The son of an established Connecticut family he was intense arrogant and given to posturing He became Helen Jewett's lover in a tempestuous affair and ten months later was arrested for her murder He stood trial in a five day courtroom drama that ended with his acquittal amid the cheers of hundreds of fellow clerks and other spectators With no conviction for murder nor closure of any sort the case continued to tantalize the public even though Richard Robinson disappeared from view Through the Erie Canal down the Ohio and the Mississippi and by way of New Orleans he reached the wilds of Texas and a new life under a new name Through her meticulous and ingenious research Patricia Cline Cohen traces his life there and the many twists and turns of the lingering mystery of the murder Her stunning portrayals of Helen Jewett Robinson and their raffish colorful nineteenth century world make vivid a frenetic city life and sexual morality whose complexities contradictions and concerns resonate with those of our own time *The Wild Child* Jeffrey Moussaieff Masson, 2010-05-11 Kept in a dungeon for his entire childhood Kaspar Hauser

The Disarticulate James Berger, 2014
Language is integral to our social being But what is the status of those who stand outside of language The mentally disabled wild children people with autism and other neurological disorders as well as animals infants angels and artificial intelligences have all engaged with language from a position at its borders In the intricate verbal constructions of modern literature the disarticulate those at the edges of language have paradoxically played essential defining roles Drawing on the disarticulate figures in modern fictional works such as *Billy Budd* *The Sound and the Fury* *Nightwood* *White Noise* and *The Echo Maker* among others James Berger shows in this intellectually bracing study how these characters mark sites at which aesthetic philosophical ethical political medical and scientific discourses converge It is also the place of the greatest ethical tension as society confronts the needs and desires of the least of its brothers Berger argues that the disarticulate is that which is unaccountable in the discourses of modernity and thus stands as an alternative to the prevailing social order Using literary history and theory as well as disability and trauma theory he examines how these disarticulate figures reveal modernity's anxieties in terms of how it constructs its others

The Child as Thinker Sara Meadows, 2012-09-10
This second edition of *The Child as Thinker* has been thoroughly revised and updated to provide an informed and accessible overview of the varied and extensive literature on children's cognition Both theory and research data are critically examined and educational implications are discussed After a brief discussion of the nature and subject of cognition Sara Meadows reviews children's thinking in detail She discusses the ways children remember and organise information in general the acquisition of skills such as reading writing and arithmetic and the development of more complex reasoning as children grow to maturity As well as studies that typically describe a generalised child the book also reviews some of the main areas relevant to individual differences in normal

cognitive development and critically examines three major models of cognitive development. In outlining the work of Piaget, information processing accounts, and neo-Vygotskian theories, she also evaluates their different explanations of cognitive development and their implications for education. Finally, the book examines biological and social factors that may be involved in normal and suboptimal cognitive development. Sara Meadows provides an important review of the crucial issues involved in understanding cognitive development and of the new data and models that have emerged in the last few years. This book brings together areas and approaches that have hitherto been independent and examines their strengths and weaknesses. *The Child as Thinker* is essential reading for all students of cognitive development. **Allegorical Moments** Lyn

Hejinian, 2023-11-07 *Allegorical Moments* is a set of essays dedicated to rethinking allegory and arguing for its significance as a creative and critical response to sociopolitical, environmental, and existential turmoil affecting the contemporary world. Traditionally, allegorical interpretation was intended to express an orthodoxy and support an ideology. Hejinian attempts to liberate allegory from its dogmatic usages. Presenting modern and contemporary materials ranging from the novel to poetry to painting and cinema to activist poetry of the Occupy movement, each essay in the book begins again with different materials and from different perspectives. Hejinian's generative scholarship looks back to experimental modernism and forward into a future for a vital, wayward poetry resistant to the crushing global effects of neoliberalism. **If You Can't**

Trust Your Mother, Whom Can You Trust? Leonard Shengold, 2018-05-01 The main theme of this book concerns the continuing psychic centrality of parents for their children. Several chapters examine an author and his works, outlining that author's relationships with parents, good and bad, and making descriptive comments about these based both on information gleaned from the author's life and writings as well as from observations found in autobiographies, biographies, and critical works. Since these studies in part concern stories of child abuse and deprivation, the book predominantly illustrates bad parenting that seems to have contributed to the child's psychopathology. Yet in most cases, there has also been an evocation by the trauma and deprivation of adaptive and even creative reactions; this positive effect also, of course, largely attributable to concomitant good parenting, and yet there are some cases where little of this seems to have existed, and yet the children still turn out to be able to make something of themselves. The conditions that make for psychic health in a traumatized childhood are mysterious and can't always be accounted for. **A Companion to Twentieth-Century American Drama**

David Krasner, 2008-04-15 This Companion provides an original and authoritative survey of twentieth-century American drama studies, written by some of the best scholars and critics in the field. It balances consideration of canonical material with discussion of works by previously marginalized playwrights. Includes studies of leading dramatists such as Tennessee Williams, Arthur Miller, Eugene O'Neill, and Gertrude Stein. Allows readers to make new links between particular plays and playwrights. Examines the movements that framed the century, such as the Harlem Renaissance, lesbian and gay drama, and the solo performances of the 1980s and 1990s. Situates American drama within larger discussions about American ideas and
