allure derives not only from its celebrated promise of unique natural beauty and prized antiquities but from the opportunity it offers writers to place themselves in relation to a web of prior accounts of travel to the native land of genius Beginning with Goethe as the founding figure of the tradition Haunted Museum moves from a rich reframing of literature from the first half of the nineteenth century including new readings of works by Byron de Sta l Barrett Browning and others to an ambitious examination of Henry James s well known engagement with Europe newly understood as a response to this important literary legacy Readings of works by Freud Forster Mann and Proust demonstrate the longevity of the tradition of looking to Italy for the representation of desires as impossible to satisfy as they are to deny
