## **Loukis Laras:**

**The Making of Modern Greece** Professor David Ricks, Professor Roderick Beaton, 2013-06-28 Every Greek and every friend of the country knows the date 1821 when the banner of revolution was raised against the empire of the Ottoman Turks and the story of Modern Greece is usually said to begin. Less well known but of even greater importance was the international recognition given to Greece as an independent state with full sovereign rights as early as 1830. This places Greece in the vanguard among the new nation states of Europe whose emergence would gather momentum through to the early twentieth century a process whose repercussions continue to this day. Starting out from that perspective which has been all but ignored until now this book brings together the work of scholars from a variety of disciplines to explore the contribution of characteristically nineteenth century European modes of thought to the making of Greece as a modern nation. Closely linked to nationalism is romanticism which exercised a formative role through imaginative literature as is demonstrated in several chapters on poetry and fiction. Under the broad heading uses of the past other chapters consider ways in which the legacies first of ancient Greece then later of Byzantium came to be mobilized in the construction of a durable national identity at once Greek and modern. The Making of Modern Greece aims to situate the Greek experience as never before within the broad context of current theoretical and historical thinking about nations and nationalism in the modern world. The book spans the period from 1797 when Rigas Velestinlis published a constitution for an imaginary Hellenic Republic at the cost of his life to the establishment of the modern Olympic Games in Athens in 1896 an occasion which sealed with international approval the hard won self image of Modern Greece as it had become established over the previous century. Zervas, 2016-12-08 This book examines informal modes of learning in Greece from in the late nineteenth and early twentieth centuries set against the backdrop of Greek nationalist interests and agendas For much of this period one of the Greek state s major goals was to bind the nation around a common history and culture linked to a collective and homogenous community This study addresses the critical relationship between the average Greek child and their home community and school life during the earliest stages of their education The stories games songs and theater that children learned in Greece for much of the late nineteenth and early twentieth centuries went beyond shaping their moral character or providing entertainment but were instrumental in forging a Greek national consciousness **Gendered Stereotypes and Female Entrepreneurship in Southern Europe, 1700-1900** Polly Thanailaki, 2021-04-26 This book addresses issues that remain under researched by feminist historians They pertain to female economic contribution in specific geographical areas and countries such as Greece Italy a number of regions of France Greek speaking regions in the Ottoman ruled Macedonia and two countries in the Balkans Romania and Bulgaria Additionally it compares and contrasts female economic agency in the above regions which is a field that hitherto lacks thorough study Polly Thanailaki explores female contribution to the finances of their family and to the economy of their country and how they interlaced in a transnational historical setting further exploring social norms and trading practices in these regions The methodology is based on the study of original printed sources such as archives newspapers and journals of the period along with secondary sources of literature The book addresses the nexus of gender economy and society covering a broad spectrum of gender studies economic history and social history in time and in geographic space **Loukis Laras** Vikelas Demetrios, 1901 The Other Self Dēmētrēs Tziouvas, 2003-01-01 The Other Self is the first English language book length literary analysis of some of the most celebrated Greek novels of the nineteenth and twentieth centuries A must read for anyone interested in Greek literature and culture it offers both a solid introduction to modern Greek literature and close reading of individual texts Author Dimitris Tziouvas focuses on the issues of identity autobiography and social determinism raised in these texts providing a fresh perspective and suggesting new ways of exploring forms of engagement between self and society Greek narratives of self Tziouvas suggests are not naked and transparent presentations of existence but articulations of the relationship between the individual and the social world they are negotiations of the past through the otherness of the present A compelling demonstration of the richness and complexity of modern Greek fiction The Other Self

provides exciting and challenging interpretations of Greek literature and Greek society     Mediterranean reconsidered  
 Mauro Peressini,Ratiba Hadj-Moussa,2005-01-01 This collection of essays re evaluates existing representations of the  
 Mediterranean providing a fresh new and often critical perspective on the cultural social and political processes that shape  
 this region Subjects such as food traditions music alterity and identity from Southern Europe to North Africa and the Middle  
 East are examined Published in English     Tales from the Ægean Dēmētrios Vikelas,1894     **The Athenaeum** ,1908

 18th to 20th Centuries** Maria Christina Chatziioannou,Sophia Laiou,2024-12-23 This book provides a significant  
 contribution to our understanding of the Ottoman Empire s economic history particularly through its exploration of local  
 entrepreneurship which brings new perspectives to the economic dynamics of the region This focus adds a valuable  
 dimension to the broader narrative of Mediterranean social and economic developments from the 18th to the 20th century By  
 emphasizing the role of both Muslim and non Muslim agents the work challenges more Eurocentric narratives that have often  
 influenced the historiography of economic activities in this region The inclusion of Ottoman Turkish and Greek sources  
 underlines the importance of accessing voices and records that have been underutilized in previous studies The fact that this  
 project is a result of Greek Turkish academic cooperation is particularly noteworthy as it promotes a more nuanced and  
 comprehensive view toward shared histories in order to shed light on complex historical phenomena This work will be of  
 interest to scholars of Ottoman and Mediterranean history seeking to explore the nuances of economic and social change  
 from within the Ottoman Empire It will also appeal to a wider audience interested in the history of early entrepreneurial  
 activities and the complex interplay between cultural and economic dynamics in historical contexts     The Academy ,1881
