Probably the most famous fighter aircraft of all time, the Supermarine Spitfire reigned supreme and unsurpassed from the biplane era to the dawn of the jet age, a period that included the Second World War. Here is the incredible story of this legendary aircraft from its genesis in the 1930s to its continued presence at airshows and museums today. **Seattle's Commercial Aviation 1908-1941** Ed Davies, Steve Ellis, 2009. Interested in aviation as early as 1910, William Boeing waited until 1914 for his first airplane ride. In 1916 he founded the airplane company that put Seattle on the aviation map. Before Boeing, Seattle featured aircraft builders like Eugene Romano, G. T. Takasou, Tom Hamilton, and Herb Munter. Boeing emerged during World War I and by the beginning of World War II had become a world leader. In those years, lesser-known individuals like Eddie Hubbard, Percy Barnes, Vern Gorst, the Becvar brothers, Elliott Merrill, Jim Galvin, and Lana Kurtzer influenced commercial aviation around Seattle. Drawing on photographs from around the area, *Seattle's Commercial Aviation 1908-1941* illustrates the early days, beginning with dirigible flights, recognizes the arrival of commercial airmail, and the airlines salute the local operators and marks Seattle's emergence as the aviation gateway to Alaska. **Space Age Adventures** Mike Bezemek, 2023-06. When people think about space travel, they usually look skyward. But much of spaceflight history happened down here on Earth. *Space Age Adventures* presents more than one hundred terrestrial sites across the United States related to space exploration where enthusiasts can have their own space age adventures. Before astronauts walked on the Moon, they trained at locations you can visit today: from NASA space centers and telescope observatories to impact craters and atomic testing grounds. Inside vast museum hangars, a visitor can walk beneath towering Saturn V rockets left over from the Apollo program or peer inside American and Soviet capsules. Elsewhere, visitors can visit historic rocket pads, retired space shuttles, landed SpaceX boosters, and even watch scheduled launches. Mike Bezemek brings the artifacts and spacecraft to life with interwoven true stories that collectively span the entire Space Age. These stories offer a deeper understanding of the adventures behind the famous images. The combination of terrestrial sites and true stories makes this book the perfect guide for having unique adventures and discovering one of the most dramatic eras in human exploration. *Canadian Warplanes* Harold A. Skaarup, 2009-11-16. This aviation handbook is designed to be used as a quick reference to the classic military heritage aircraft that have been flown by members of the Canadian Air Force, Royal Canadian Air Force, Royal Canadian Navy, Canadian Army, and the present-day Canadian Forces.
