Family and Christian Ethics Petruschka Schaafsma, 2023-08-10 In this book Petruschka Schaafsma offers an innovative appraisal of family Eschewing the framework of worry and renewal that currently dominates family studies she instead explores the topic through the concepts of

givenness and dependence Givenness highlights the fact that family is not chosen dependence refers to being intimately included in each other's identities and lives Both experiences are challenging especially in a contemporary context where independence and freedom to shape one's own life have become accepted ideals Schaafsma shows the impasses to which these ideals lead in several disciplines theology philosophy sociology social anthropology and care ethics She moves constructively beyond them by tapping literary artistic and biblical sources for their insights on family Grounded in a theological approach to family as mystery rather than problem she develops an understanding of the current controversial character of family that accounts for both its ordinary and transcendent character This title is available as Open Access on Cambridge Core

Tragedy and Redress in Western Literature Richard Gaskin, 2018-05-04 This book offers a unique interpretation of tragic literature in the Western tradition deploying the method and style of Analytic philosophy Richard Gaskin argues that tragic literature seeks to offer moral and linguistic redress compensation for suffering Moral redress involves the balancing of a protagonist's suffering with guilt and vice versa Gaskin contends that to a much greater extent than has been recognized by recent critics traditional tragedy represents suffering as incurred by avoidable and culpable mistakes of a cognitive nature Moral redress operates in the first instance at the level of the individual agent Linguistic redress by contrast operates at a higher level of generality namely at the level of the community its fundamental motor is the sheer expressibility of suffering in words Against many writers on tragedy Gaskin argues that language is competent to express pain and suffering and that tragic literature has that expression as one of its principal purposes The definition of tragic literature in this book is expanded to include more than stage drama the treatment stretches from the Classical and Medieval periods through to the early twentieth century There is a special focus on Sophocles but Gaskin takes account of most other major tragic authors in the European tradition including Homer Aeschylus Euripides Virgil Seneca Chaucer Marlowe Shakespeare Corneille Racine Lessing Goethe Schiller Kleist Büchner Ibsen Hardy Kafka and Mann lesser known areas such as Renaissance neo Latin tragedy are also covered Among theorists of tragedy Gaskin concentrates on Aristotle and Bradley but the contributions of numerous contemporary commentators are also assessed **Tragedy and Redress in Western Literature A Philosophical Perspective** offers a new and genuinely interdisciplinary perspective on tragedy that will be of considerable interest both to philosophers of literature and to literary critics

and theoretical production these articles work to get over postmodernism while simultaneously celebrating a certain postmodern inheritance an inheritance that can offer us important avenues to understanding and affecting contemporary culture and society
