Rima,2016-09-16 First Published in 1991 The undertakings within this book are testimony to the professional legacy Joan Robinson left behind The contributors discuss her irreverence for established theory her seemingly unquenchable zest for intellectual argument doggedly pursued on the conviction that she was at least morally right the sharpness of her wit along with her occasionally unconventional mode of dress and her enjoyment of nature This includes a biographical memoir and concludes with a bibliography of the writings of Robinson Law and Inflation Keith S. Rosenn,2015-09-10 Inflation is an economic phenomenon that has profound implications for lawyers and jurists because the great bulk of our laws and legal doctrines have been formulated on the assumption that the value of money remains relatively stable Inasmuch as such an assumption is no longer tenable in much of the world it threatens the operation of our most basic legal institutions In this book Keith Rosenn shows how inflation affects legal documents like contracts how it distorts credit transactions suits for damages and laws of taxation and he tells how current economic practices can be adapted to reduce or eliminate the impact He explores the possibility of using a comprehensive indexation scheme for coping with inflation Although Rosenn recognizes the deficiencies of price indexes he considers the practical and theoretical implications of indexation His analysis is firmly grounded in a detailed examination of the experience of countries like Argentina Brazil Chile Finland France Germany Israel and Italy in adapting their legal institutions to the fact of inflation Public Value and the Post-Pandemic Society Usman W. Chohan,2023-07-07 The destruction of the Covid 19 pandemic has marked every society with deep seated wounds whose scars have only begun to heal Yet even as societies take their first steps away from the trauma of the pandemic they confront new and perhaps equally daunting challenges in the post Covid era These challenges offer a unique occasion to consider how the mechanisms of public value PV creation and preservation can be rebuilt and improved mindful of what has been left in the pandemic s wake and of the difficult road that lies ahead The aim of this book then is to examine the forward looking possibilities of multi stakeholder value co creation which involves the renewed efforts of civil society public managers politicians and society at large in a new post pandemic era The book examines many different facets that appeal deeply to public value scholarship value stability transitions inequalities within between publics necropolitics disaster preparedness
